WILLIAM MCCABE, Managing Director.

HAMILTON, March 3rd, 1883.

GENTLEMEN, We hereby acknowledge the receipt of the sum of Fifteen Thousand Dollars, being in full payment of Policy No. 1,115, on the life of the late Charles E. Freeman, Barrister, of this city, accidentally drowned in Burlington Bay on the 13th of February. This prompt payment without rebate, speaks volumes for the integrity and business management of your Company. The more so that the deceased had only been recently insured, and had merely given his note on one of the Company's forms for the premium, which falls due to-day.

We specially desire to commend the Company for its promptness in this case, as the claim papers were only sent in to you two days ago.

PETLEY & PETLEY,

GOLDEN GRIFFIN.

128 to 132 King St. East,

TORONTO.

The world has often found it necessary to reform itself, and that portion of it which for so many years has flourished beneath the wings of the Golden Griffin would appear to be no exception to the rule. Petley & Petley are among those who believe that REFORMATION SHOULD COMMENCE FROM WITHIN, hence although four brilliant lamps do their best to exhibit the external glories of the Griffin (when nature's chief lamp is extinguished), it is not until one passes within the easternmost portal of the establishment, that one perceives how the hitherto dusky apartments have been made to present a quasi-bridal appearance; the skill of the architect, by the introduction of light from above, by constructing staircases in good taste, and by throwing arches across the interior, has rendered the place eminently attractive; and what the commercial enterprise of the firm has accomplished in catering for the needs of all ages and both sexes (even to providing dressing-rooms for the ladies), perhaps all ages and both sexes had better go and see

Opportunities golden
Will ne'er be withheld
By the firm at THE GRIFFIN—
The newly enrolled 'un;
For these merchants fraternal
By effort diurnal—
(And sending their "ads" to this newly-
flagged journal)
Have achieved a success
In the matter of dress,
The solution whereof
It is easy to guess.
"It is due to the buying,"
Says one who, by prying,
Discovered the secret,
Which others, though vicing,
Continue as yet—only breathlessly trying.
One may safely predict that the home of the
"Hughes"
Will be celebrated now as the haunt of the
inuses
