

THE PARNELL COMMISSION

Report on the Investigation Ordered By the Commons.

(Continued from first page.)

We find it proved that Mr. Davitt was a Sionian... Report on the investigation ordered by the Commons.

THE MODE OF PROCEEDURE.

In the opening of the report, the judges refer to the unprecedented character of the enquiry...

THE CRUEL BOYCOTT.

Referring to boycotting, it declares that the instances adduced before the commission proved that it constituted a most severe, cruel system of intimidation...

AN ELABORATE TYRANNY.

It was an elaborate, all pervading tyranny, aiming to injure the classes and to drive them out of the country.

THE LEAGUES CRIMINAL CONSPIRATORS.

"In our judgment," says the report, "the leaders of the league, thus combining to carry out the boycott, were criminal conspirators."

PHYSICAL FORCE LITERATURE.

Under the charge of disseminating newspapers tending to incite to crime, the report lays stress upon the fact that Mr. Parnell did not produce the report of any speech wherein he denounced the use of dynamite...

CRIMES INCREASED UNDER THE LEAGUE.

Aggravated crime raged in Ireland when this agitation was in its height. An instance is cited from Kerry, where the league was organized in October, 1880.

AN INTERESTING COMPARISON.

The first year in which the statistics of evictions and crimes respectively were compiled was 1849, and a comparison showed that during the dire distress of the years from 1849 to 1853 inclusive...

NOT CAUSED BY SECRET SOCIETIES.

As to the suggestion that crime was caused by secret societies acting in antagonism to the league, Mr. Parnell stated in the House of Commons in January, 1881, that secret societies had ceased to exist.

DUED MAINLY TO THE LAND LEAGUE.

"It has been further suggested that the decrease of crime from 1879 to 1880, was due to the conciliatory effect of the League of M. P. P. We must answer that this act, which has been described by Mr. Russell as the first great charter for Irish tenants, had no such effect.

INCREASED INSTEAD OF DECREASED CRIME.

Referring to the allegation of the defence of the respondents that the leaders of the league endeavored to repress crime, the report quotes Mr. Davitt's memorandum of December, 1880, to the effect that the league's object was to bring about an increase during those years, though not exclusively to be ascribed to agitation...

MCLAREN'S GENUINE COOKS FRIEND BAKING POWDER

ALL THE BEST GROCERS SELL IT.

hold the commission that denunciations upon the platform had not much effect, because the people would think it was talking to the police and that it was all gammon.

THE SENTIMENT AGAINST THE LAW.

"The sentiment in Ireland against aiding the police in the discovery of criminals was not confined to the ignorant, but was shared by those from whose education just views should prevail.

THE LEAGUE EXPENDITURES.

In the absence of the league accounts the report declares: "It is impossible to arrive at figures with any certainty. Mr. Egan's letter to Mr. Parnell in 1882 contained some items of expenditure. The details were never given.

THE LEAGUE IN AMERICA.

The report traces the course of the league's movements in America and its connection with the Clan-na-Gael. Touching the contradictory evidence of Le Caron and Mr. Parnell over the interview in the corridor of the House of Commons in 1881, the balance of probability is in favor of the correctness of Le Caron.

THE CHICAGO CONVENTION.

Touching the tenth convention of the Clan-na-Gael, at which Sullivan presided, the proceedings proved that the dynamite policy had been definitely adopted by the Chicago convention of 1881, at which T. P. O'Connor was a delegate from Parnell.

DIRECTED BY THE CLAN-NA-GAEL.

"It was this Clan-na-Gael whose leaders closely associated with the Irish leaders which finally obtained, in April, 1883, control of the entire movement in America, henceforward retaining it. The mass of evidence proved that the Irish league in America has been since directed by the Clan-na-Gael and has been actively engaged in promoting the use of dynamite for the destruction of life and property in England.

THE LONDON PRESS ON THE REPORT.

LONDON, February 14.—The Morning Post, commenting upon the Parnell commission, says:—We sincerely congratulate Mr. Parnell, who has unmistakably, so far as his personal character is concerned, been the victim of gross injustice, and whose separation from these odious imputations will do much to neutralize the shock given to public confidence.

upon those who uttered it. Three upright judges, whose prejudices, if they had any, were against Home-Rule, have cleared public life from a dark and ugly cloud.

TO PROBE THE MATTER FURTHER.

The Parnell party have under consideration the proposition of asking for a select committee to enquire into the publication of the forged letters, believing there are yet many important details of the story that have been smothered by the Times' lawyers.

THE INFAMY OF THE "TIMES."

LONDON, Feb. 13.—The disappointment, chagrin and anger of the Times at the report of the Parnell Commission on its charges against the Parnellites are ill-concealed. Its contention that the charges were in the main true, though it was impossible for the commission to accept certain evidence capable of proving them, is not shared by the Tory colleagues who say appropriate extent and the value of the paper as a Tory weapon against the Home Rulers and Liberals, is forever destroyed.

WHILE SUPPLYING MEANS FOR THE DEFENCE OF PRISONERS IN THE ABSTRACT JUSTIFIABLE, WE ENTERTAIN NO DOUBTS THAT A KNOWLEDGE THAT SUCH ASSISTANCE WILL IN ALL CASES BE FORTHED MOST HAVE THE EFFECT OF ENCOURAGING PERSONS SO DISPOSED TO COMMIT TRAGEDY.

"Indigenous Bitters"

The most economic and at the same time the most effectual stomachic, and aid to digestion.

The INDIGENOUS BITTERS owe their popularity to the most important qualities which any medicinal preparation could have: an efficacy at all times certain, the absence of any dangerous ingredient and a moderate price.

The INDIGENOUS BITTERS consist of a combination in exact proportions of a large number of roots and barks, highly valuable, on account of their medicinal virtues, as tonics, stomachics, digestives and carminatives.

HEADACHE, DIZZINESS, NAUSEA AND GENERAL LANGUOR, are most frequently the result of derangement of the stomach, and in such cases the INDIGENOUS BITTERS never fail to afford prompt relief, and most frequently even a perfect cure.

The INDIGENOUS BITTERS are sold in retail, in all respectable Drug Stores in the Dominion, in 25c. boxes only, containing sufficient quantity to make three or four half pint bottles.
