

works in the International Rapids Section except (1) machinery and equipment for the development of power, and (2) works required for rehabilitation on the Canadian side of the international boundary;

- (c) not later than the date of completion of the essential Canadian links in the deep waterway, to complete the works allocated to it in the International Rapids Section and the works in the Great Lakes System above Lake Erie required to create essential links in the deep waterway.

ARTICLE IV

The Governments agree that:

- (a) they may, in their respective territories, in conformity with the general plans for the project in the International Rapids Section, install or arrange for the installation of such machinery and equipment as may be desired for the development of power and at such time or times as may be most suitable in terms of their respective power requirements;
- (b) in view of the need for co-ordination of the plans and specifications prepared by the Commission for general works in the International Rapids Section with plans for the development of power in the respective countries, the Commission may arrange for engineering services with any agency in either country which may be authorized to develop power in the International Rapids Section;
- (c) except as modified by the provisions of Article VIII, paragraph (b) of this Agreement, each country shall be entitled to utilize one-half of the water available for power purposes in the International Rapids Section;
- (d) during the construction and upon the completion of the works provided for in the International Rapids Section, the flow of water out of Lake Ontario into the St. Lawrence River shall be controlled and the flow of water through the International Section shall be regulated so that the navigable depths of water for shipping in the harbour of Montreal and throughout the navigable channel of the St. Lawrence River below Montreal, as such depths now exist or may hereafter be increased by dredging or other harbour or channel improvements, shall not be injuriously affected by the construction or operation of such works, and the power developments in the Canadian Section of the St. Lawrence River shall not be adversely affected;
- (e) upon the completion of the works provided for in the International Rapids Section, the power works shall be operated, initially, with the water level at the power houses held at a
