

ONE SIXTY FIVE ST. JAMES STREET
MONTREAL

February 13th, 1930

Dear Sir Arthur:-

Replying to your enquiry respecting the Health Survey Committee, I would be very glad indeed to join you in perpetuating it. The work already done is of great value. It has awakened a wide-spread interest in health matters, and it would be deplorable if the vigilance exercised by the Committee were slackened.

Count on me in any way that I can be of use to you.

Yours sincerely,

J. Holstau

General Sir Arthur Currie,
Principal,
McGill University,
M O N T R E A L.

P.S.: This is sent to-day because there is an impression that an earlier reply was mislaid.
