Cornell Beat Pennsy Indians Down Brown

At Philadelphia.—Cornell closed her erratic season Thursday afternoon by defeating the University of Pennsylvania for the second time in the 21 years the two teams have met in football contests. The score was 21 to 0. It was a glorious victory for the Ithacans ,and it was joyously celebrated by the thirty-six hundred students who came down from Ithaca to see the annual battle. Cornell's only other victory against Pennsylvania was in 1901, when the big red team won by the score of 23 to 6. In 1906 the teams played a scoreless tie. With the exception of punting and forward passing Cornell showed superiority in every department of the game. Her ability to advance the ball thru the line and her quickness in fathoming Pennsylvania's intricate plays surprised the followers of the Quakers. The home eleven tried everything it had in the way of new and old football and Cornell was always there to stop it with one conspicuous exception. This was in the third period when Captain Young of Pennsylvania ran 42 yards after receiving the ball from Chester Minds on a delayed pass. It was the longest run of the game.

At Prvidence—Carlisle won their 3rd successive football victory from Brown in their annual contest, 13 to 0. Brown held Carlisle to one touchdown by straight rushing. The other touchdown came when an Indian intercepted a Brown forward pass under the shade of Brown's goal posts. No field goals were attempted by either side.

With the Thanksgiving Day games between Pennsylvania and Cornell at Philadelphia and Carlisle and Brown at Providence, over, the Army-Navy game, which this fall will be played at the Polo Grounds in New York, will end the U. S. football season of 1913 on Saturday.

HAVERHILL RUNNER WINS CAMBRIDGE RACE.

CAMBRIDGE, Mass., Nov. 27.—Plodding along at a considerably fast pace over ten miles of hill and dale, Clifton G. Horne of Haverhill today won the New England amateur cross-country championship from a fast field. Horne's time, was 55 minutes, 47 seconds. The next four places all went to Boston runners, John J. Cook, B. L. McGrath, Fred L. Cook and Daniel Maloney finishing in the order named.

TORONTO REVOLVER CLUB.

The first weekly handicap spoon shoot of the Toronto Revolver Club was held at the armories last night. A good turnout of entusiasts was on hand, and made the following scores:

A. Rutherford, 86; G. Margetts, 81; G. S. Todd, 79; J. P. White, 78; J. Reilly, 74; E. Reiner, 73; W. W. Poste, 72; J. J. Thomson, 71; G. I. Barber, 70; W. D. Sprinks, 66; A. W. Hampson, 66.

HALIFAX HARBOR CONTRACT.

OTTAWA, Nov. 27.—The contract for the new Halifax harbor and terminal works was awarded by the cabinet today to Foley, Welch and Stewart, for $5,208,743.

NO EXPANSIONS WITH TWO FARES

Mayor Hocken Shows That the City Would Not Go Ahead.

SPOKE AT EMPIRE CLUB

Eight Years' Delay Would Mean Higher Rents for Workingmen.

In his address to the Empire Club at the luncheon yesterday noon, Mayor Hocken dwelt on the benefits arising out of the opportunity the city would have to develop, rather than on the financial benefits, it being his idea that it was much better to start developing now than eight years hence, which would be the case should the people turn down the deal to purchase the Toronto Railway and T. E. L. systems.

"You will notice that when they try an alternative to buying the Street Railway Company they have to come back to me. They again suggest tubes, my scheme, which was once before defeated.

"People will not go out to the outlying districts if they have to pay two fares. If the city was to put cars all over the outlying districts you can't get the people to live out there. It means car fares of $1 a week to the workingman, and as this takes so much out of his already low salary under the two-fare system, neither the citizens nor the city are any further ahead.

Delay and Annoyance.

"There is delay and annoyance when a man has to come so far into the city on one car and then transfer to another.

"Altogether you see that it is impossible to begin the symmetrical development until the city owns the street railway system.

"Practically everybod yis affected by the present two-fare system, and even if the Toronto Railway Company is not purchased it will be necessary to extend the civic lines. The heaviest burden under the existing conditions is falling on the poor man, who is forced to live away from the centre of the city."

The loss on the operation of the civic car lines, extended as they would have to be, would amount to $3,750,000, according to the estimates of the experts. Therefore, the mayor pointed out, this would take up a very large proportion of the percentages the city would receive from the Toronto Railway Company under its present charter.

In taking up the matter of the eight years' delay in the developments of the city, should the Toronto Railway Company not be purchased, Mayor Hocken said: "It surely means higher rents for the working people, who will be congested in the old parts of the city. These two things together mean a lower ratio of inuustrial efficiency for the man in the factory or behind the counter. He will not be so efficient as if he had his own house and reasonable means of getting to and from his home and his work.

"The transportation system is to a city what arteries are to a man's body. Development of the city will be held back unless we have an adequate transportation system."

McCarthy Tonight.

Controller McCarthy will give an address on the street railway problem at the monthly meeting of the Roxton Ratepayers' Association in the Dewson Street School this evening.

A special luncheon of the Canadian Club will be held in McConkey's Restaurant at 1 o'clock Saturday, when Blon J. Arnold will discuss his report on transportation in Toronto.

On Monday evening the Riverdale Business Men's Association will hear a debate on the subject to be waged between J. Stewart Lyon and Dr. C. R. Sneath, the former being against and the latter for the purchase. The meeting will be held in the Royal Canadian Bicycle Club rooms, 131 Broadview avenue.

SMASHED HEADLIGHT.

As a Carlton street car was crossing Bathurst street at 6.20 last night, a newspaper delivery car caught up to and passed the street car, the driver threw a heavy bundle of newspapers from the automobile, striking the headlight of the car and shattering it. The motorman was unable to get the license number of the delivery car.

Thin Folks Who Would Be Fat

Increase in Weight Ten Pounds or More.

A Physician's Advice.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood, and its rapid effect is remarkable. Reported gains of from 10 to 25 pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by good druggists everywhere and every package contains a guarantee of weight increase or money back.

Caution: While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders it should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.

How People Feel When They Have Tape Worm

Tape worm is bred from a parasite. This parasite is a creature male and female in one. It is of pear shape, having two, four and six suckers. It lays the eggs, which are only connected together with slime. They develop and form a body, which is the worm. Each point is an individual, having a sucker or mouth. The worm grows much longer than the bowels where it is located, and sometimes a whole colony of them are found, enough to fill a quart of solid worm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the worm, and remains there to breed another. It is an internal demon and causes its victim to suffer all the symptoms of disease imaginable. The cleverest physicians are led to believe the patient is suffering from some other disease, as nearly every person has different symptoms. Some have been treated for cancer of the bowels, consumption of the bowels, consumption of the lungs, chronic dyspepsia, nervous prostration, melancholia, hypochondria, hysteria, inflammation of bowels, appendicitis and other complaints, when one or more of these infernal demons were eating their lives away.

Prof. Mulveney has made the discovery to free the victim of this monster without injury to the system, destroying the parasite as well as expelling the worm with one dose of medicine without any previous starvation. Visit his office where he has in his possession the most wonderful collection of these death-dealing monsters in the world, which have been expelled from hundreds of people by his famous remedy, some bottles containing colonies of worms, and anyone seeing them cannot imagine how a person could possibly live with them in his bowels. It is surprising the number of people that have them. Thousands have them and are not aware of the fact. The letters and testimonials the professor has in his possession are enough to convince us of this alarming fact. Some of the most prominent symptoms are ravenous appetite, dizzy spells, headaches, cramps in the bowels, a feeling of something moving in the bowels, also a feeling as though something was crawling up the throat. The only certainty of having one in the system is when segments or joints are seen, which come away almost any time. They are flat and from three-quarters of an inch to an inch long, which have often been mistaken for pin worms by those who do not know the difference. There are many other feelings of distress which would take too long to enumerate. Strange to say, some people of strong constitution have very little distress.

Prof. Mulveney's world-famous Tape Worm Exterminator is safe, sure and harmless. No starvation, no danger, is not disagreeable to take. One dose nearly always effects a cure. Further information free. Send for particulars to Prof. Mulvaney, 167 Dundas street, Toronto. Phone Parkdale 4830.

Hamilton, June 23, 1913.

Professor Mulveney — Dear Sir: Received your letter and was most overjoyed to hear that the worm was all there. I am sure it is a great relief to me now that my son is free from that horrid tape worm forever. Words cannot express the gratitude we owe. I am going to send for some of your medicine for my son, as he got down so thin I think it would do him good. I will send for it some time next week.

I remain yours respectfully,
M. McKenzie.

128 Robert Street,
Hamilton, June 23, 1913.

This is to certify that my son was in poor health for some time. We did not know what was wrong with him. He doctored with several doctors without any success. I went to the druggist and got medicine for him several times without any benefit to him whatever. I was beginning to think there was no cure for him. I went into a grocery store one day and I noticed part of a Toronto paper on the counter. I picked it up and looked at it. The first thing I saw was Professor Mulveney's wonderful Tape Worm Cure. I told my son about it. That is how I found out about the Tape Worm Cure; so we decided to try the remedy. I sent for the medicine; he took it according to directions, and one hour and thirty minutes after taking the medicine the tape worm was expelled from the system Words would fail to express our gratitude. It is my earnest prayer that Professor Mulveney may long be spared for the sake of suffering humanity.

Mrs. May McKenzie,
128 Robert street, Hamilton

Toronto, April 26, 1913.

This is to certify that Prof. Mulveney's Tape Worm Exterminator expelled a monster tape worm from my system in less than an hour without previous starving or sickness, and I am pleased to be able to recommend his remedy to others, as it does all he claims it to do, and you are at liberty to use my name in advertising.

Mrs. Alice Robertson,
No. 200 Chestnut street.

Toronto, March 31, 1913.

Arthur Rooney, 72 Huron street, says: "I have suffered 14 years from tape worm, and am pleased to say one dose of Prof. Mulveney's famous Tape Worm Exterminator relieved me of over 25 feet, head and all, and I am much pleased to recommend his wonderful cure to others.

"Arthur Rooney."
57 72 Huron street.

SITE CHOSEN FOR INDUSTRIAL FARM

Delinquent Women to Be Housed on Yonge Street Property.

CITY WILL EXPROPRIATE

Four Houses on S. Francis' Farm Will Have to Be Taken Over.

It is understood that the city has chosen the 200 acre Francis farm near Thornhill as the site for the new Women's Industrial Farm, and expropriation proceedings will be started at once. There are four houses on the property to be taken over.

For some time negotiations have been on between the city and S. Francis, the owner of the farm, but no price could be decided upon, so the city will expropriate the property. This site takes in part of the Village of Thornhill, and is about a mile south of the Men's Industrial Farm.

The city is said to have closed a deal for 100 acres besides comprising the lower portion of the Boyle farm at $650 an acre.

CHILDREN ARE TAUGHT IN COLD CLASSROOMS

Complaint Made at Management Committee—School Should Have Been Adjourned.

Dr. Noble made a vigorous protest at the management committee meeting yesterday against school children being taught in unheated rooms on cold days. A bad case of the kind had just been reported from Balmy Beach.

Chief Inspector Cowley stated that the principal should have sent the children home. This is prescribed in the regulations.

MR. ARNOLD MAY SPEAK TO BOARD OF TRADE

Railway Expert Asked to Explain Advantages of Purchase by Toronto.

The council of the board of trade at their meeting yesterday afternoon decided to invite Blon J. Arnold of Chicago to address their members on the street railway question in the rotunda of the board of trade building on Saturday afternoon at 3 o'clock. While no positive announcement can be made until Mr. Arnold is heard from, it is considered very probable that he will accept the invitation. Further information will be conveyed to the members thru the press.

Heaven would be overcrowded if we could all get there with our tombstone inscriptions as passports.

BOARD MEMBERS MAY NOW VOTE BY LETTER

More Ballots Expected in Board of Trade Elections Under New Rule.

At a meeting of the board of trade held yesterday afternoon notice of motion was given by Chas. McD. Hay to the effect that at future annual meetings of Toronto board of trade members could send in their vote for officers by mail, and thus save themselves the necessity of attending.

This measure has been brought forward as a result of the tremendous recent growth of the association, the consequent congestion which the polling at the annual election involves, the saving in time and trouble it will be to members, and also because it is believed a much greater vote will be registered by the adoption of this convenience.

GLEE CLUB SUPPER

The University Glee Club held their annual supper last evening in the Varsity dining hall. The seventy-five members of the club were present at the eve... Speeches and music followed, in which the quartet and orchestra of science men and many others took part. Dr. Anderson's musical organization is contemplating adding to its membership, which will make the strength of the glee club 110.

Matrimony is an important step. In fact, it is often a whole flight.
