THE RATES

which the Company have adopted have been formed on the most correct observations which exist as to the value of life; and the Directors have to acknowledge, among other sources, the valuable aid which they have received from the Parliamentary Reports, prepared by Col. THE PROFITS

of the Company will be ascertained and divided at certain intervals: the First Investigation and Division being to be in 1854, when each Policy having a right to participate in the Profits, will share in the Fund to be allocated for Division among the Assured, according to the Profits which the Company may calculate to have arisen on the particular Class of Risks to which such Policy may belong.
