Stocks for Sale

United Porcupine, 12,000 at 7c; 3 National Portland Cement, \$10; 10,000 Cobalt, 10c.

WANTED: 100 Colonial Loan Stock, \$6.80; 10,000 Toronto Brazilian Diamond, 1900 Island Smelter, 25c; Minnesota Gold Mining Stock, Ontario, 3c, and firm, because of the bulge in wheat. Cash grades were in good demand.

Alleged damage in the south-west, and in France helped a rally in the wheat market. Realizing sales, the back prices somewhat. The figures ran from 23 1/2 to 24 1/2, with the close at 24 1/2.

Much in contrast with yesterday, May 12, was on sale in considerable quantities. As a result, the market showed an easier tone, and at the final bell, whether either unchanged or fractionally cheaper, with a few nominal 1/16 less expensive than last night.

Receipts at Primary Centres.

Receipts of wheat in car lots at primary points, with comparisons, were as follows:

Chicago To-day, Wk. ago. Yr. ago.
Duluth 127 40 28
Minneapolis 127 40 28
Duluth 24 10 22

European Grain Markets.

The Liverpool market closed to-day 3/4 to 1/2 higher on wheat, and unchanged on corn, with a few nominal 1/16 higher, and closed 1/2 higher on wheat, 1/4 to 1/2 higher, and Budapest 1/2 higher.

For Sale—Murphy Veteran Claim

Consistent Buying in Wheat Pit Keeps Values Climbing Upward

Chicago Market Has Early Decline, But Strengthens Materially on Crop Score Reports—Winnipeg Stronger All Round

CHICAGO, May 12.—Short sellers were stampeded for cover to-day at the close of the market in wheat. Their action was due to the pit having become over-sold and then suddenly confronted with millers' reports telling of a somewhat doubtful condition of the crop in sections of the southwest, where the drought was most severe last fall. Final sales were 1/2 to 1/4 higher than 24 hours before. Corn finished 1/4 up to 1/2 to 1/4 off, and 1/4 to 1/2 to 1/4 advance, and hog products varied from last night's level to 1/4 decline, the latter for May pork.

A larger number of shorts were put on the run to-day than in the previous session. Early pressure from losses who were easing their position and making profits tempted excessive short selling. On all months except May, the market closed firm, about the last figures of the season, July ranging from 88 1/2 to 89 1/2, and in the end was 1/2 to 1/4 up at 90 1/2.

In corn the feature was the relative weakness in the May option. It appeared that the long interest in the delivery market was being greatly reduced. Country sales at stations were said to have increased wholesale, even to the extent that 30c was being paid farmers, and because the weather, even in the north, was not so favorable, the completion of plantings, July fluctuated between 84 1/2 and 85 1/2, closing at 85 1/2 to 86 1/2, and 1/4 to 1/2 to 1/4 advance, and firm, because of the bulge in wheat. Cash grades were in good demand.

Alleged damage in the south-west, and in France helped a rally in the wheat market. Realizing sales, the back prices somewhat. The figures ran from 23 1/2 to 24 1/2, with the close at 24 1/2.

on realizing by local professionals.

The Modern Miller calls attention to the fact that crop prospects in the southwest are for a small yield per acre, and states that the Kansas crop promises in the neighborhood of 15,000 bushels. The market rallied very sharply from the low point, with general buying by commission houses and covering by early sellers. The late upturn in wheat to-day illustrates the sensitive condition of the market to any buying, or to any news which can be built up, and we continue to feel that the long side on the wheat spot for the present is the safer one.

Corn—Market ruled easier during the early part of the session, the deferred deliveries rallying sharply toward the close, while the May future was weak. There was considerable selling of the market by leading holders, and changing of the same to the May.

Oats—The market rallied very sharply from the low point. A cable received reported a heavy crop in the northwest, and this news, coupled with the growing belief that the present crop is not doing as well as it might, started a lot of buying. We get no reports of actual deterioration, but constant references are being made to dry conditions. We rather incline to favor the long side of the new crop future on any good developments.
