hAMILTON, Nov. a Special, - The so for charity was not sufficient to big laymen's missionary convention prevent judgment being rendered against Rbert Wilson, who was sued in division-court this morning for stong temporarity. Mayor Lees ex-tenued a civic welcome to the dete-Bales

Slias McBee of New York was the principal speaker this afternoon. It had been announced that Mr. McBee

was a busy man. His aduress con-firmed this, for, while very effective, it was obviously not the inished pro-duct of which the eminent editor of

icts. He looks like a lawyer and to a large extent speaks like one. Physi-cally and in his accent he resembles Henry Watterson, the tamous secuar editor. Earnestness is his most not-able characteristic. He spoke for over an hour this afternoon. Some of his outstanding remarks

Some of his outstanding remarks separated from their context, were: "If me of Christ be the life of all then the work of Christ must be the work of all. The family deals with the whole

of God's plan for humanity. "Love you can't have by yourself: you can't enjoy religion by yourself; and you can't keep Christ to yourself. There is nothing in the condition of the heathen to-usy to justify you of me in arrogating anything to ourselves The worid is after Christ. Need of Common heligion.

"The great need of to-day is a com

mon religion. A divided church can-not give a united answer. "Unification and salvation are synonymous words, a receipt for a betаге

ter understanding among the churches. "Let the church bodies begin to dig up all the virtues they can find in others, and dig up and repent of all the sins they can find in their own. I have never found a church as bad as others think it, and I have never seen ne conscious of all its corporate sins." The central theme of Mr. McBee's address was that in order to do effec-tive missionary work the Christian churches must unify themselves and present an undivided front to the

peoples they wish to convert. AA Great Meeting.

The eveing session demonstrated the interest which has been aroused by the men's missionary movement here. Th mai floor of the spaclous cnurch was almost solidly filled and the gal-leries, used by the general public,

showed few empty seats. The speakers were Lieut.-Gov. Gib-

duct of which the eminent editor of The Churchinan was capable. In appearance, as well as in man-ner, all arge additions for the Joseph K. Gabriel, head of the Iroqueis Indians of the Lake of Two Mountains reser-vation, arrived in the city last night, and to-morrow will seek an audience with this Royal Highness the Duke of editor. Earnestness is his most not-

tains indians relieved from undesir-able association with white people. The chief was sent here by the In-dians to intercede with the governor-general and the prime minister. Hon. R. L. Borden, to have the settlement of white people on the Lake of Two Mountains reservation discontinued

Mountains reservation discontinued. He claims that white people in large numbers are settling on the Indian lands and that this is objectionable. lands and that this is objectionable, both because of the association and usurpation of the land from the In-dians. He asserts that the majority of white people offending in this way are French-Canadians.

P.OPOSES MOVING SIDEWALK

Londoner Believes Scheme Superior to Cars in Tube System.

Way Announced in Few Days. Chairman J. L. Englehart of the T. & N. O. Rallway Commission, left last night for his monthly inspection of the road. At North Bay Mr. Engle-hart will meet Chief Engineer Clement; Traffic Superintendent Griffin, General Agent Lee and Roadmaster Young. The party will then make the trip over the government railway together. Arrangements are being completed for a new T. & N. O. time table whereby the five-hour wait at Englehast will be eliminated. The running of a thru train from Toronto to the gold fields is delayed until the terminal facilities at South Porcupine are ready. The ogminissioners are not yet certain as to the exact date when the South Porcu-pine arrangements will be completed, but it will in all probability be a mat-ter of only a few days at the outside. It is understood that the new time table will be ready about the 19th inst. W. Yorath Lewis, mechanical' en-W. Yorath Lewis, mechanical en-gineer, of London, Eng., appeared be-fore the board of control yesterday and suggested that a moving sidewalk sort of an arrangement be used in-stead of cars in the proposed tube. Mr. Lewis said that the Adkins-Lewis 'system would be better than cars. It was going to be tried in London soon, he said. he said.

The scheme is a kind of tram pro-pelled by a revolving shaft underneath which is grooved and a screw on the car fits the groove. At stations the spirals in the shaft become close to-gether, which brings the car almost to a stop Will Consider Shifting Headquarters

No action was taken by the board with respect to the scheme.
