## NAME ERASED FROM ROLL.

Dr. Orlinton Declared to Have Acted Unprofessionally.

The name of Dr. Alex Orlinton was yesterday erased from the register of the College of Physicians and Surgeons of Ontario. He will appeal to the law courts for redress thru his solicitor, W. C. Kerr. He was accused of "disgraceful conduct," in a professional sense, in issuing a circular purporting to have discovered a sure and immediate cure for grippe.

The old doctor was present, and gave a rambling address, quoting similar cases, and showing that whenever a man discovered a new idea he was deemed crazy by his fellow-men.

Frank Darling will be the architect of the proposed new medical building, the site of which will be chosen to-day.

The case of Dr. L. E. Sheppard of this city, whose name was struck off the list several years ago, came up for reinstatement.

The report went back for reconsideration.

A hearty vote of thanks was tendered Dr. Campbell of London on his retirement from the council to accept the inspectorship of postoffice.

It was decided to hold the next meeting of the council in Kingston.

## Mr. Cochrane's Trip.

Hon. Frank Cochrane returned to his office yesterday after a tour in the northwestern districts of the province. He visited Port Arthur, Fort William, Wabigoon, Dinorwic, Dryden, Kenora, Rainy River, Fort Frances and Sturgeon Falls.

Mr. Cochrane speaks in very high terms of the land in Rainy River district. Settlers are coming in in considerable numbers, and demands are made for more roads and drainage.

# THROUGH THE HEART!

WHEN THE NERVES BECOME A WRECK AND VITALITY RUNS LOW BECAUSE THE HEART FAILS TO DO ITS WORK—THROUGH THE SELF-SAME HEART—IF CURE COMES—MUST IT COME

# Dr. Agnew's Cure for the Heart

Cures the nerves through the heart. Experience of the highest medical authorities has conclusively proven that the quickest way to cure diseases of the nerves is to fortify the heart with "food" that is natural to it, and that enriches the blood; and it has been proven also, beyond the shadow of a doubt, by this same high medical authority, that Dr. Agnew's Cure for the Heart is the most potent nerve nourisher and heart strengthener that has been "gathered in" from nature's lap to assuage sufferings, stop the pain and heal the heart; and when you know that with the heart, the main spring, the balance wheel of life, out of order, the future looks out on nothing but darkness and suffering, why postpone applying the remedy? Why delay taking hold of the healing hand that will lift you back to health? Dr. Agnew's Cure for the Heart will relieve any and every form of heart disease in 30 minutes.

Margaret Smith, of Brussels, Ontario, says: "Many a time my suffering was so great that I would have hailed death with a welcome, but four bottles of Dr. Agnew's Cure for the heart wrought a wonderful cure in me."

SOLD BY ALL DRUGGISTS AND MEDICINE DEALERS.

DR. AGNEW'S LITTLE LIVER PILLS cure Sick Headache, Biliousness, Indigestion and Constipation—they never gripe—40 for 10c.  
DR. AGNEW'S CATARRHAL POWDER relieves in 10 minutes.

# WOMAN'S WORLD

## The Superiority of Sex.

The old question as to superiority of sex is forever cropping up under some new guise. One argument has many grains of truth in it, as it rings in a crying "social evil." Where is the man who respects his dinner and his digestion who would eat a rich salad, ice cream, fancy cake, confections or chocolate at 5 o'clock, in view of a dinner at half past six? No man that takes the brain to do it, and as a habit men could not bear it physically. Yet that is what all women "in society" do the whole winter thru.

The "society woman" must be about the strongest creature God has made. Her sister who tills the field or rubs the washboard cannot compare with her in "tensile" strength. What is normal muscular fatigue that a night's rest will cure, compared to endurance in the evening, of alternating between chick walking boots and satin, French-heeled slippers; of eating perhaps one rational meal a day and for the rest "finibbling" at fancy.

It would be interesting to know how a university boat crew or a football team would look in the spring after a winter of wearing heavy velvets and furs over chests and arms during the day, and gauze or bare necks and arms in the evening; of alternating between chick walking boots and satin, French-heeled slippers; of eating perhaps one rational meal a day and for the rest "finibbling" at fancy.

Possibly they might harden themselves to every change of bodily temperature, but they would never, never rise superior to the pitfalls and consequences of a season of afternoon teas and receptions.

Nor in the strictest reality do women—that is in the long run, for at least the fine substance breaks, or at least shows such wear that it needs all sorts of artificial props and embellishments to give it an appearance. It is really a pity that women do not realize what a part in the loss of youthful looks the ordinary artificial reception menu plays!

Of course the truly clever woman, or she who has learned the fine art of dining, evades these menus with inconspicuous tact, and so does no damage to good looks or appetite by her afternoon dissipations.

But, after the accepted program, the afternoon functions of to-day are clearly a mistake, in view of the early dinner hour. In England where "society" does not dine earlier than 3 o'clock a nibble—and it is just a nibble over there, thin bread and butter, digestible tea, cakes and the cup of tea—at 5 o'clock does far too much wrong to appetite or digestion, but a meal of salads, sandwiches, desserts and sweets at five puts the appetite irretrievably "hors de combat" for the sensible but unfashionable dinner hour of six, half past or even seven o'clock. It remains, however, that afternoon teas and receptions are far too pleasant to many, and too convenient for the easy settling of social scores to be given up, but they should be literally tettered and not afternoon suppers. If one's hospitality rebels at scant but rational 5 o'clock offerings—well there is the 2 o'clock buffet, luncheon, where something substantial with all the gastronomic frills is in order.

## Will Visit Canada.

Viscount Howick, the only son of the governor-general, will pay his first visit to Canada shortly, bringing with him his bride, formerly the Lady Mabel Palmer. Lord and Lady Howick will accompany the Countess of Grey on her return to Canada about the 24th inst.

## "Animal Sunday."

The Toronto Humane Society announces that to-morrow is the fourth "Animal Sunday." The "Animal Sunday" as it is called in England, where over two thousand sermons are preached annually on this day, setting forth the claims of the dumb creatures upon the claims of protection and care. The society is very desirous that the various ministers of this city should follow the good example of the supporters of the parent society in the old land, and advance, by strong appeal, the cause of humanity for which it stands.

The newly-married couple left on the train for the west amidst showers of blessings, confetti and the rest, to take an extended trip.

## UNCLE SAM MAY ARBITRATE

Guatemala and Salvador Not Allowed to Come to Blows.

Washington, July 6.—Guatemala and Salvador are making overtures for the arbitration of their troubles resulting from the alleged activity of Salvador in support of the revolutionary movement against President Cabrera of Guatemala, and it is likely that the United States will be selected as the country in which the board of arbitration will meet.

The American state department has been advised of the desire of the two countries which are almost at the point of making war against each other to have their differences settled by arbitration, and there seems to be little doubt that an amicable settlement finally will be effected.

## PLAY IS ALL RIGHT.

New York Court's Decision as to "Mrs. Warren's Profession."

New York, July 6.—The production of George Bernard Shaw's play, "Mrs. Warren's Profession," during the last theatrical season was not a violation of the penal code, according to a decision handed down by the justices of the court of special sessions to-day. The decision was given in the case of Arnold Daly and Samuel Gumpertz, who were acquitted.

The court ruled that there is nothing in the words themselves or in any particular phrase or expression in the play, which can be said to be indecent. The decision goes on: "While the court may hold decided opinion regarding the fitness of this play as a stage production, when it comes to consider a question of criminality of the acts of these defendants in publicly producing it, it must make application in principle of law laid down by the court of appeals as the test of criminality. It appears as the test of exciting impure imagination in the mind of the spectators, that which is really excited is disgusting, that the lovely, the repellent, the disgusting in the play are merely accessories to the main purpose of the drama, which is an attack on certain social conditions relating to the employment of women, which, the dramatist believes, as do many others with him, should be reformed."

## WHY THAT WEARINESS?

Nerve force is gone and you feel half dead. Impossible to give strength because your blood is thin and unnutritious.

What's to be done? Supply new vital energy, and give the body new elements to rebuild with.

You get the strength in Perrozene, which builds and strengthens till every organ does just what nature expects of it.

Just think of the enormous strengthening power Perrozene possesses, consider what it did for H. V. Potter, well known in Kingston: "I was subject to spells of dizziness. For eight months between the shoulders, I was almost incurable with weakness and lack of vigor. Often I scarcely ate any breakfast and felt miserable all day. Nervous, easily excited, troubled with heart weakness. I was subject to fits of anger. I was restored and nourished me back to health in short order."

Remember this! Whatever your weakness may be, if it arises from lack of blood tone, from worry, or from overwork, Perrozene will cure. Price 50c per box at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn.

## WELL!

We would rather go on the Modjeska at 2 p. m. to-day, because we are sure of the certainty of our arrival home. Very well! We leave on the Modjeska at 2 o'clock, and perhaps may stay over for the Macassa, which leaves Hamilton at 10 p. m. on Thursday at 10.45. But! We may stay right on board and get back at 8 o'clock, as we have a ten-trip ticket, which cost only \$1.50.

## "Bill" Sparrowhawk Gone.

London, July 6.—Wm. J. Sparrowhawk, well known to many of the present generation of types in London, died in this city on Thursday at the home of his father, Richard Sparrowhawk. The deceased had been ill for some time. He was 42 years of age, a native of London, and served his apprenticeship as a printer in The Free Press jobroom. Later he worked as a news compositor, and when the Linotype were introduced he learned the operating and soon became one of the fastest of machine hands. He was a former employee of The Toronto World, where he was known as one of the fastest typesetters in Canada.

## Grace Church on Arthur-street, will build a \$5000 addition.

It is likely that the park commissioner's office in the city hall will be removed to the quarters formerly occupied by the street commissioner.
