ape, the sanitary laws of the town are are such as to call for extra diligence. In the upper portions of the town where the nature of the soil is exceptionally favorable, being sandy and gravelly, little or no difficulty is experienced. It is charged that the board of health, tho required by statute to meet monthly, have so far met but twice this year, and that offences against the law are permitted to go unpunished. The police are powerless to act in the matter save thru the authority of the board of health. Citizens of Ward one are protesting against the present failure to enforce the bylaw relating to matters of health and it is urged that an example be made of those contravening the law if the health of the town and the Baimy Beach district, in particular, is to be maintained.

The more the matter of an extension of the franchise to the Toronto and York Radial for any extended period as discussed the opposition appears to grow apace. A leading member of the town council stated to-night that one thing was assured, and that was that the Town of East Toronto would never grant an extension of the franchise beyond the unexpired term of the Scahboro line, which is siz years, nor would the town at the expiration of that time overlap the city franchise of some fifteen years. The mayor is well-known to be opposed to any plan whereby the street railway company would secure any extension which would entangle the city in the event of annexation, which it is conceded, will come some time, perhaps in the near future. The question of two fares is the all important one in the two upper wards of the town, and, while the councillors from Ward three in their anxiety to secure a railway over the bridge and along the Danforth-road, would concede much, it is questionable if they want to purchase it at the cost of a double fare.

A Canadian Folk Song The doors are shut, the windows fast, Outside the gust is driving past, Outside the shivering ivy clings, While on the hob the kettle sings—Margery, Margery, make the tea; Singeth the kettle merrily.

The streams are hushed up where they flow The ponds are frozen along the road.
The cattle are housed in shed and byre,
While singeth the kettle on the fire,
Margery, Margery, make the tea,
Singeth the kettle merrily.

The insterman on the day in his boat, Shivers and buttons up his toat. The traveler stops at the travern door, And the kettle answers the chimney's Margery, Margery, make the tea, Singeth the kettle merrily.

The firelight dances upon the wall gloom,
Margery, Margery, make the tea,
Singeth the kettle merrily.

This story from The Timpson Times of Texas has attracted much attention:
The little girl's papa had been very ill with appendicitis and had lain for many days in the darkened room after the doctors had come and removed his appendix. The little girl had been told to be very quiet and very good, with the promise that she should go in to see her papa at the earliest possible mement. At last she was permitted a brief interview. When the nurse came to take her away she held back a moment.

"Haven't I been very quiet, papa?"
"Yes," whispered the fond parent.
"And haven't I been very good?"
Her father admitted it.
"Then won't you do me a favor, papa"
"Certainly, what is it, my child?"
"Please let me see the baby."

of the Trades and Labor Congress of Canada will convene in the Hall of the Board of Trade, Board of Trade Block. Bastion Square, City of Victoria, Province of British Columbia, beginning at 10 o'clock, Monday morning, September 17th, 1906, and will continue in session from day to day until the busi-ness of the Convention has been com-

pleted.

The approaching visit to the Coast marks an important epoch in the history of the Congress. For years our efforts have been centralized in the East and we have had a more or less perfunctory alliance with the West, but the growing importance of Western development has rendered closer connection with the workmen of the West an absolute necessity. It is only fair, therefore, that our Western Brothers should receive the encouragement of a large attendance of delegates from the older provinces, and all organizations in the East, entitled to representation, should make a special effort to elect and send representatives to Victoria, regardless of the financial outlay.

The Congress Executive, acting in conjunction with the Manitobia Executive, has made a special effort during the several months previous to our meeting to organize from Winnipeg to the Coast. The report of the organizer will be presented.

The past session of the Dominion Parliament has been an important one, embracing a discussion of Senato Reform, Public Ownership, the Lord's Day Bill, Immigration, and among many other features the unearthing of W. T.R. Preston's connection with the notorious Louis Leopoid. Our Solicitor's report will deal in extenso with these matters.

No less interesting will be the reports of the Provincial Executives, while the matter of international arfiliations must be taken into immediate consideration.

Probably the most crucial feature will be the consideration of our future
