combined in that invaluable compound so well and so favorably known to the Canadian public as Catarrhozone.

Catarrhozone is simply the concentrated qualities of the air of pine woods. If you breathe it you will delive more benefit in one hour than you could possibly get from the woods in a year. This great advantage arises from the fact that in addition to those healing emanations from pine other ingredients distilled from the vegetable kingdom are so united as to give results that could not possibly be derived in the simple form in which Nature supplies medicated air.

No matter how long you have suffered from disease of any portion of the breathing organs, it matters not how many disappointments you have sustained from the hundred and one remedles you may have tried, an hour's use of Catarrhozone will afford better results than you could obtain from a month's use of other remedies.

You can readily understand why fins its possible—it is because vou breathed it right to the parts that are diseased. Immediately the droppings in the theoat will lessen, irritation and porticetion of said enterpoints of the described in said situation and protection of said enterpoints of the Republic of Panama further grants to the United States in the Bay of Panama, named Perico, Nac, Culebra and Flamenco.

not heard of this man De Veau no

found in De Veau's room and which contained chloroform and chloral hydrate, or knockout drops, Nelson said:

"De Veau told me he bought those things in Toronto. He said to me: "If I had turned off that trick in Toronto, I would have \$5000. The job was good for \$10,000, but my accomplice, Hay, got frightened and went away. Hay got into me for \$200 by using my name on a telegram. If this job on Lewis goes thru I have others mapped out, and it will not be necessary to use the lend pipe, but we can use this stuff in the bottles."

The chemical known to the criminal element as "knockout drops" consists usually of hydrate of chloride, Bromides can be used for the same purpose. These drugs can be purchased readily in the States, but in Toronto they are prescribed and are only sold on prescription. The local police have
