

RE YONGE STREET BRIDGE RAILWAY ACT IS AMENDED

Decisions of Railway Committee Privy Council Valid as If Commission Had Not Been Created.

Ottawa, June 28.—(Special).—Three important clauses have been added to Mr. Fitzpatrick's bill to amend the railway act. The first, Mr. Fitzpatrick explained to the house today, is to give effect to the T. P. committee in the matter of division of receipts over the eastern division. This is to be apportioned by the railway commission, especially in the matter of apportioning thru rates as between the G. T. P. and other railway companies using the eastern division.

An amendment was added by the minister providing for an appeal by both parties to the supreme court. Mr. Fitzpatrick said he would be glad to have suggestions as to the better carrying out of the intent of this clause and to that end he would leave the list in committee for that purpose, until next Tuesday when it would have to come up again under arrangement with the member for East York.

Clause 2 was taken up. It provides that the majority of directors on any railway aided by the government, by subsidy, or otherwise, shall be British subjects, the last clause to come into effect until 1905 as respects any railway company, the majority of whose directors are not now British subjects.

A subsection was added to cover the case of the Yonge street crossing, Toronto. This subsection provides that the decisions of the privy council shall be as valid as if the railway commission had not been created.

Another, to have the provincial Sunday observance law apply to all steam and electric railways, wholly within a province, but having also a Dominion character.

"What about roads that touch the boundary?" asked Mr. Maclean. The minister of justice replied that this point had not been determined upon.

"It will be for the courts to decide," suggested Mr. Maclean. Mr. Fitzpatrick replied in the affirmative.

On the understanding that the bill would be taken up again on Tuesday next, when W. F. Maclean would have an opportunity of moving his amendments, the committee rose and reported progress on the bill.

AMENDS TARIFF CHANGES.

List Made More Elastic to Fit Certain Conditions.

Ottawa, June 28.—(Special).—The tariff changes announced by Mr. Fielding in his budget speech three weeks ago have already undergone amendment, and to-night in the house Mr. Fielding announced the alterations.

First, in the classification of metal plates and wire, the imperial standard gauge is substituted for the Stubbs gauge at present in use.

In the "dumping" clause it is provided that the minister of customs may by regulation exempt temporarily from the special duties any class which the minister is satisfied are only made in Canada to a very small extent, and are not therefore open to sale on even terms to all applicants. A strike, for instance, might limit the Canadian production of an article, and in this case it would be exempted from the special duty if imported.

The clause providing for the computation of duties on spirits in flasks is somewhat enlarged.

In the duties on coal oil, a change is made in the phraseology, but no change in the duty, which remains at 2 1/2 per gallon on refined oil.

The budgetist reduced the duty on window glass from Great Britain to 7 1/2 per cent. The government, having ascertained that the manufacture of window glass is a monopoly in Great Britain, proposes to reduce the duty on foreign glass from 20 per cent. to 15 per cent. The reduced duty of 10 per cent. on silk fabrics for the manufacture of men's neckwear is extended to apply to silk for the manufacture of all neckties, whether men's or women's.

The government has found that it made a mistake in the tariff schedule in the free list and has decided to restore the operation of that provision until August 1st, when the duty will be 10 per cent. It was formerly 20 per cent.

The reduced preferential duty of 15 per cent. on articles of porcelain in China tableware is restricted to those made of "white" clay only.

The free importation of machinery for beet sugar factories is extended up to April next.

In the item of molasses, which is placed on the free list when imported from countries enjoying the British preference, it is stipulated that it must be imported direct.

The only printing presses to be placed on the free list are rotary printing presses.

It is provided that in the case of goods actually ordered before the date of the budget, if they enter Canada on or before the last day of August next, they will be charged under the old rates of duty. This concession will, however, apply to large quantities of goods which were ordered from England before the duty was increased.

There was some criticism of the new duties. Mr. Armstrong of Essex, Ontario, pointed out that the new duty on crude oil was wholly in the interest of the Ohio producers as compared with the Canadian producers.

Mr. Armstrong also pointed out that Canada should have a protective duty on American products, as the United States charges on Canadian products.

MAY CALL STRIKE ON LOAN CO.'S BUILDINGS

To Enforce Employment of Union Bricklayers—Council May Formulate a Plan.

The District Labor Council will consider the question of calling out the union men employed on the numerous buildings being erected by the York County Loan and Building Society. This company has refused to consider the question of discharging the non-union bricklayers who are in its employment. Manager Phillips having refused to meet a committee from the metal trades section of the council, and two letters in reference to the matter having been left unanswered.

Excepting in this trade, the company has always employed union men, and an element in the Labor Council is in favor of calling out all the men and forcing the company to employ union bricklayers.

It may be in this connection that the Trades Council is seeking to formulate a scheme for a municipal loan system for buildings, just as in the brewers' strike it brought up the question of local option.

The question of the re-admission of the stationary engineers' representatives to the District Trades Council is not likely to come up again unless the engineers ask for reinstatement. The metal trades section last week brought the matter up, but no action was taken.

Many members feel that the union in the matter was very hasty and unjust, and would like to see it reversed, but the council at its last meeting refused to re-open the matter.

Elected Officers.
The officers of the Wood, Wire and Metal Lathers' International Union, No. 27, were elected last night, as follows: President, Albert Boston; vice-president, J. Brown; treasurer, George Penock; financial secretary, Charles Calhoun; corresponding secretary, George Coffey; sergeant-at-arms, William L. Johnston.

SIR WILLIAM FAVORABLE
To Nationalization of the Telegraph and the Telephone.

Ottawa, June 28.—(Special).—When the postoffice estimates were under discussion, W. F. Maclean asked for an improvement in the postal rate and parcel post systems. He gave the postmaster-general credit for improving the postal rate system, but pointed out that there was still a great deal to be done in the way of improving the parcel post and package service.

Mr. Maclean also asked if the postmaster-general would take into consideration his confidence in regard to the nationalization of the telegraph and the telephone.

Sir William Mulock replied that the question was a large one. He could not say that any great progress had been made, but the educational progress was going on. SIR WILLIAM SAID HIS OWN PERSONAL OPINION WAS ALONG THE LINE OF NATIONALIZATION OF THE TELEGRAPH AND THE TELEPHONE. He had some figures and had formed some views. He hoped the time might come when he would be able to communicate them to the house.

E. F. Clarke asked if the rate for drop letters could not be reduced. While it is argued that the United States mail is very cheap, very emphatically that he would not consider the proposition.

MAGGABEES MEET TO-NIGHT.
Supreme Commander Will Be Present—Division Seems Probable.

Dr. Hunter, registrar of friendly societies, believes that the meeting of the Maggabees to be held to-night should be of great interest to all the fraternal societies.

The Maggabees, as a United States order, is in a peculiar position, having to conform to the laws of Ontario and the supreme order desiring to adopt a policy which Dr. Hunter characterizes as practically one of repudiation, and which he refuses to permit.

While it is argued that the United States members are agreeable to the change Dr. Hunter holds that it is a mistake to have the association and he is prepared to grant incorporation to the 18,000 Ontario members should they find it necessary to secede.

The meeting to be held in St. George's Hall to-night will be attended by Supreme Commander Mackay.

DRAMA.
"Old Heidelberg," Princess.

Richard Mansfield has just given the theatre-goers of Toronto another of his magnificent versatility. The change from the portrayal of the tyrant in "Ivan the Terrible" to the shy, sensitive, and sensitive Prince of last night's performance, showed the actor's powers to great advantage.

The story of a young crown prince turned into a great university town after having lived in a rigid and conventional court life. At first he is ill at ease, but soon becomes the leader in the revels of his fellow-students.
