A Conservative smoker was held at Cookstown, Simcoe County, on Mon-day night, which was attended by

day night, which was attended by Hon. Dr. Pyne, Hon. Frank Cochrane, Houghton Lennox, M.P., T. H. Len-hox, M.L.A., G. H. Ferguson, M.L.A., and J. S. Duff, the member for the riding. The brass band from Beeton and some musical talent from Toron-to supplied the entertainment between the bursts of eloquence of the dis-tinguished visitors. nates are clamoring for pure drink-ing water in a way that must encour-age the Dominion Alliance. Turning from water to watered stock they point to the money market and its between city hall this afternoon, for the pur-

point to the money market and its demoralized condition as a reason why the city should not attempt to finance A story comes from Kingston that E. J. B. Pense, M.L.A., for that city, may run in Frontenac for the federal house, and Mayor M. D. Mowat in Kingston for the legislature a cheap power scheme at present. It is no news to business men that occasionally the money market is tight.

are careful of their money and the city government is far more likely in such a period as the present to be careful about spending public money rate than when everyone is in the excitement of a buil market. The savival of trade and the recovery moving cir-FREDEF, ICTON. N. B., Nov. 19.-(Special.)—The Liberal convention at Fredericton to-morrow, to select a can-didate for the federal house, will be works of the tiberal voters had helped to place him in power, and fair play to the Liberals was to be looked for. Votes of confidence in R. L. Borden and J. P. Whitney were passed amid much enthusiasm. and Toronto and the province gener-ally should be ready for the revival. Nothing could more contribute to the of the province as a field

thorough good work with no injury to the clothes.

An examination will show the simplicity of construc. tion, noiseless operation, easy running and good finish By turning the handle attached to a large fly wheel the "Dolly" takes a forward and reversin motion, alternately. The handle can be turned in either direction, and the motion of the "Dolly" is the same. The gear is fitted on roller bearings and the ease in turning and absence of noise must be experienced to be fully realized.
