LEAKE GIVES HERD **ONLY THREE HITS**

Leafs Win Final Game of Series After a Poor Start.

After a poor start the Leafs came from schind and gave the Bisons a sound beating in the last game of the series at the island yesterday. The score was 7 to 4. and was all our way after the first

to 4, and was all our way after the first inning.

Al Leake, sfter making a poor start, pitched a sterling brand of ball and only allowed the visitors three hits. Three of their four runs came in the opening inming, but they were practically helpless before the good offerings after this. The Leafs hit in clusters and fielded like lengue leaders. It was a mighty smart looking ball club.

Lena Blackburne again had a telling day with the war club. He exploded three base raps, one of them a double, and drove in two runs. Joe Schultz clubbed three singles, one of these chasing ever two runs in our big inning. Altendering was chased out of the game in the fourth inning for protesting when called out at the plate on the double steal. It was a hair-line decision and merited a kick. Thompson finished the game in right-field.

Leake was real wild in the first round, and made a barrel of trouble for himself. He issued three bases on balls, and Jackson came along with a two-base rap that cleared the sacks. He was in great form after this and the fifth was the only inning that the Bisons could hit him safely. They put over two hits here and their other run. The rest was a row of ciphers as far as hits and runs were concerned.

It was an up-hill battle for us. That

lt was an up-hill battle for us. That three-run lead that the Herd secured in the opening inning looked huge. Our boys went right to work and cut the lead hy one in the first inning. Truesdale walked and Jacobson singled to centre. Lajoie supplied the needed long fly to let the run over.

INFLUENCE OF THE MOTOR CAR.

Good roads always had a "commercial value." but it was left for the automobile to make them a commercial necessity for the town or city that hopes to keep pace with the progress of its rivals. For the automobile 20 miles over a good road makes a shorter distance than 10 miles over a bad, or even an indifferent one. The automotile will make the 20-mile trip over a good road more economically than it will the 10-mile trip over a had or indifferent one; more econorival. HOW CANADA WILL SAVE FOOD.

Peefless and baconless days, as well as other economies, are soon to be introduced in Canada, in an effort to reduce the consumption of foods needed in Great Britain. The regulations to be enforced in public eating houses, which have been prepared by the food consumption control committee of the Dominion, call for the elimnation of beef and bacon on Tuesdays and Fridays, no bacon except at breakfast on other days, a substitute for white bread at every meal on ail mically as to time and expense in days, as large use as possible of green wear and tear of the machine. THE PARIS CONFERENCE.

The best proof yet offered that the United States has not joined the entente as a member in full and for-mal standing is the president's decision not to accept the invitation to be represented at the coming conference of the allies in Paris, which will deal mainly with the military and diplomatic problems of the Balkans. The decision is, in effect, that the United States has no interests n the Balkans important enough to warrant participation in such a gathering. In view of our present relation to world politics, the president acts conservatively.—Springfield Republican.

The Finn is a Mongolian type, closely allied with the Japanese and Chinese, During one of the periodical migrations from the east he was left behind with the ebb and foreign races with foreign tongues closed about him. The Finns' civilization is their own, dating from the fourth century. For a long time they were under the sway of Sweden, but about 100 years ago they were ceded to Russia with the stipulation t'at certain rights of home rule would not be abrogated. The Romanoffs broke their promise as soon as they made it, and Finland became a serf province, ruled from Petrograd as an enemy land would have been ruled. Carnahan and His Rennies Look the Best.

Special to The Toronto World. Buffalo, N.Y., July 31 .- The ser finals in the trophy at the international lawn bowling tournament will be played tomorrow morning at eleven. Carnahan is picked for the winning because with the Rennies on board he is going along like a house aftre. Euler of Kitchener and Seagram of Waterloo were both defeated today, the former with the last bowl by Hutchinson of Balmy Beach. The sun shone down like a blast furnace this afternoon, seriously handicapping the old bowlers especially. The only thing that saved prostrations was the breeze which occasionally swept the green. The final for the trophy will likely be set for Thursday, and the Frontier Cup Friday. Today's scores:

RUSSIAN WOLVES COMMON ENEM

During Winter Russian and German Soldiers Forced to Fight Them.

In the course of last winter's cam paign the wolves of the Polish and Baltic Russian stretches had amassed to such numbers in the Kovno-Wilna Minsk district as to become a veritable plague to both Russian and Gérman fighting forces. So persistent were the half-starved beasts in their attacks on small groups of soldiers that they became a serious menace even to fighting men in the trenches Poison, rifle fire, hand grenades, and even machine guns were successively tried in attempts to eradicate the nuisance. But all to no avail. wolves-nowhere to be found quite so large and powerful as in Russia—were desperate in their hunger and regardless of danger. Fresh packs would appear in place of those that were killed by the Russian and German
