CALL MONEY'S RISE APEX IN DEMAND STULTIFIES STOCKS

New York Market Closes Heavily After Early Period of Strength.

GAINS IN FORENOON

xchange on Central Powers Reaches Lowest Point Since War Begun.

New York, Nov. 27 .- Vague rumors of lest rate except once this year, con-uted to the heavy closing of today's ket after an early period of strength

Heavy all-round realizing occurred, the Toronto Stock Exchange yesterday and this was apparent even before the reaction on Wall Street started. The truth of the matter seems to be that buying power particularly in vari-ous specialties has become exhausted and those who are seized of this are getting out before the selling becomes general. General Electric was a surprising disappointment, the shares fall ing off 5 points from Friday's high. Weakness of this kind in an old and tried security does not leave much hope for Steel of Canada holders, when the frightened out in a general reaction will be quite acceptable. The Montreal pool struggled with Steamships again to other issues and that they offer unusual speculative prospects.

an adverse market. Except for the stocks mentioned the listed issues were dull and somewhat easier. Shares of the big pulp holding company were in plentiful supply and could be had without trouble at 13. The market as a whole closed soft and unless the pools continue to stimulate their specialties further sagging in the speculative stocks is inevitable.

PERE MARQUETTE IS TO BE REORGANIZED

Lansing, Mich., Nov. 27.—The plan to reorganize the Pere Marquette Rall-road, which has been bankrupt for several years, and operated by a receiver, was today submitted to the state railcommission for final action. It was announced that the plan has been approved by a majority of the credi-

The plan as submitted to the rail-road commission provides for the issu-ance of new securities amounting to more than \$99,000,000. These assets, with securities which the railroad is said to own, would make the capitalization of the new company \$105,000,

It is claimed that the road will have a cash balance of \$16,000,000. after the indebtedness, most of which has long been outstanding, has been paid

AT HIGHER PRICES

Reopening of Property Attracted Buyers-Newray Up a

The mining stock market continued active yesterday at the Standard Stock Exchange and stocks generally had a firm tone. Newray and Schumacher made new high records, the former at 121 and the latter at 89 and Apex, which has not featured largely in the trading for a long time, came into prominence, advancing to 12 on heavy buying.

The activity in Apex stock was due to the fact that the property is about to be reopered. Sound financial basis has been given to the company by the reorganization and diamond drills will very shortly be at work proving up the company's ore bodies. Higher trices are being talked for the stock. Newray advanced a point above its trices are being talked for the stock. Newray advanced a point above its former high level of 120 made on Saturday and this figure was bid on the close. This stock has a very large following and higher prices yet are liable to be seen. Inspiration was stronger again, going up to 31.

The McIntyre stocks continued the even tenor of their way undisturbed by the amalgamation talk. Inclintyre held quietly around 175 to 176, McIntyre Extension sold at 50 to 50 1-2 and Jupiter at 28.

Schumacher, as has already been mentioned, went up further to 89, an advance of approximately 40 points for this movement. Altho the movement was due primarily to the making of a speciacular strike on the property, the upward move has been augmented by the covering of a large short interest.

delphia Co., Industrial Alcohol and other miscellaneous issues reflected the activities of pools or cliques, but yielded to moderate pressure.

Italis were in no sense a fector marketwise, the only noteworthy movement in that quarter beling the temporary strength of Reading and other coalers and the consistent heaviness of Canadian Pacific. Mexicans followed the upward rend of the first hour, but were among the first to lose ground. Total sales agreeated 1.520,000 shares.

The most interesting development of the day in its broader implications was the destine of exchange on the central powers to the lowest rates quoted since the outbreak of the war. In point of fact, offerings of bills on Germany and Austria were barely nominal, so that today's depreciation was sentimental, auther than actual.

Gold imports on a large scale from England, by way of Canada, were regumed and further moderate exports of the metal to South America were made. Bonds were irregular, with Paris 6's at a new low quotation. Total sales, par value, \$5,340,000.

ent.

Timiskaming was strong on the close at 66 1.2, and Beaver sold up to 47 again. Chambers Ferland showed signs of strength at 18, Great Northern held firm around \$ 3.4. Ophir was active, selling up to 14 and closing at 13. Shamrock was steady at 16 1.2. Lorrain changed hands at 50. Nipissing sold at \$9.00 to \$9.10.

BUSINESS IN APEX

Over Fifty-Five Thousand Shares Changed Hands at Local Exchange.

Apex came in for unusual attention on the Standard Stock Exchage yesterday with no less than 55,000 shares changing hands. In the early days of pool ceases activities and buyers have to be found for the vast volume of the took now carried on margin. Dominton Steel and Nova Scotia Steel occupy a position of their own, are not govaluments. The target and target and the target and the target and the target and the target and target and the target and the target and the target an erned by any topheavy speculative long diamond drilling will be made this week interest and any shares that might be by two of the directors who have gone north. Those who are buying believe that the shares are cheap in relation

OF NEWRAY STOCK

Americans Reported to Be After

Shares Around Present
Prices.

The almost remarkable strength of Newray stock, which made another record yesterday at 121, was partly explained by the rumor that a syndicate of American capitalists had offered to purchase several thousand shares at the current market price. fered to purchase several thousand shares at the current market price. It is understood that this offer was and after a careful examination of the Newray property by an engineer of high standing. The members of the Standard Stock Exchange are going to Porcupine this week, and will make a special visit to the Newray mine, which has demonstrated such excellent deep ore values within the last few months.

MILLER INDEPENDENCE ANNUAL

At the annual meeting of the Miller Independence Mines, recently held in Dayton, Ohio, the following officers were elected: George J. Miller, president and general manager; N. W. Kirkpatrick, Dayton, vice-president; J. C. Schaeffer, secretary; Ed Rettick, treasurer, and Judge O. B. Brown, N. W. Kirkpatrick, J. A. Read, Dr. Ed bk, Adam Begard, J. C. Schaeffer George W. Miller, directors, forts from the mine were satis-ry and hopes were held out for nine becoming a producer in the

Points Before Reacting at Chicago.

Vervousness to Chicago Trade Comes From Pro-German Activities.

back of \$%c a bushel in the wheat market today, prices made something of a rally owing to an unexpected decrease in the U.S. visible supply total. Possibilities of an armistice, of submarine hostilities near the U.S. and of an embargo on export shipment of foodstuffs were all factors in bringing about the smash in values. The close was weak, 34c to 44c net lower, with December at \$1.73\%, and May at \$1.80 to \$1.80\%. Corn finished 1\%c to 2\%c down, oats off \%c to 1\%c, and provisions varying, from 52c decline to a rise of 30c.

chance that an armistice, if declared, would lead to peace. At first, the, neither peace reports nor contingencies regarding threatened hindrances of shipments to Europe seemed to be taken seriously by the majority of traders. It was not until a few prominent houses began to sell with a free hand that a general stampede of holders took place. The recent vigorous moves for an embargo appeared to have left the market almost bare of orders to purchase, and in no shape to withstand the flood of stop loss unloading that sudderly swept the pit. Attempts to rally the wheat market met with no lasting success until the final hour of the session. The U. S. visible supply total was then shown to have diminished 802,000 bushels in a week, whereas during the corresponding time last year the domestic store had gained 6,176,000 bushels. The contrast was too striking to escape widespread notice and was emphasized by signs that the break in prices today had been the occasion of a renewal of export business. Stimated later at 1,000,000 bushels. Even under such circumstances, however, the market was again on the downgrade in the final 15 minutes.

Hoof and mouth disease reported in Nebraska, Kansas and Missouri had a bearish effect on corn and so, too, did ains in Argentina. Most of the weakness in the corn market nevertheless was ascribed to the fall of wheat values. Oats dropped with other cereals. Big stocks on hand counted also against the bulls.

Provisions for the most part went up-

Boston and New York Show

H. H. Sutherland of F. C. Sutherland & Co., brokers, Toronto, has returned from a ten-day business trip to Boston and New York in connection with the firm's mining enterprises. He reports that business is very active in the financial districts of the big American citles, and that a widespread interest is developing in Canadian mining, particularly with reference to Cobalt and Porcupine.

Mr. Sutherland states that a great deal of American contral is going into the

BRAZILIAN EXCHANGE AT NEW LOW. Brazilian exchange on London yesterday was quoted at 11 15-16d to the milreis, being a dectine of 1-16d from Saturday's level at a new low level for the month and a new low since May. It compares with a high since then of 12 27-32 in July.
