

IV. APRIL.

That, ever-busy, wheels the silent spheres;
Works in the secret deep, shoots, steaming, thence
The fair profusion that o'erspreads the spring:
Flings from the sun direct the flaming day,
Feeds every creature, hurls the tempest forth,
And, as on earth this grateful change revolves,
With transport touches all the springs of life.
Nature, attend! join every living soul
Beneath the spacious temple of the sky,
In adoration join, and ardent raise.
