USE THE WANT AD. WAY

WASSONS DRUG STORE

Show The Way Again

Reliable Remedies Now Obtainable at Moderate Prices

The public is now so well acquainted with the evils of quack patent medicines that many preparations of real merit are regarded with suspicion. The one sure way of knowing whether a medicine is safe or not is to be sure of the maker and then to look for the composition on the label.

Several good lines of proprietary medicines are now on the market, but they are, without exception, sold on the "Price Protection" basis that is, the retail dealer is bound, under heavy penalty, to sell such goods at a price fixed by the maker. Almost invariably this means that the consumer pays much more than the real value of the article. The consumer pays the long price and the retailer is bound to charge the price as dictated.

The well-known drug firm of Wasson's have pioneered another scheme which the people of St. John have found to be greatly to their advantage. Wasson's have had prepared by the most reliable manufacturing chemist in Canada, a line of medicinal preparations that meet the needs of the common ailments to which all mankind is subject. These preparations are of proven merit. Nearly every one has the complete formula printed plainly on the label, none are cure-alls, but each is a specific for some ill.

One of the most popular appeals of this line of remedies is the price. They may sell them at cost or give them away if they wish. Everybody knows Wasson's reputation for prices. They are always low.

Twenty-five cent lists are priced 14c, 17c, and 19c.

Fifty cent goods at 29c, 37c, and 39c.

Dollar lines at 67c, and 69c.

Remedies for Coughs, Colds, Croup, Whooping Cough, Headaches, Neuritis, Neuralgia, Rheumatism, and other ailments. The medicines are included, also Ointments, Talcums, Dentifrices, etc.

A positive guarantee by Wasson's to refund the price paid in any case of dissatisfaction makes the buyer sure of his money at all times. Adjustments of this kind are so easy that a person may buy a bottle of Wasson's Corn Remover and not get the desired results, all that is necessary to get a refund is to return the empty bottle. No sending away to some far away office; no red tape; just a person's satisfaction that they are not satisfied and the price paid is immediately and cheerfully refunded. The same applies to the entire line of medicinal and toilet preparations.

Wasson's also has special propositions for the goods in general. They do claim quality and reliability for their goods.

"You don't have to pay the long price for Wasson's Remedies," is a statement worthy of your attention. A visit to Wasson's Drug Store at 711 Main (the only store now operated by them) or an inquiry by phone (Main 510) will give you information desired for the best remedies in Canada at the lowest prices.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty foods, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you like, in moderate amount, taking immediately afterwards a teaspoonful of bisulphated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisulphated magnesia is doubtless the best food corrective and antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining. It does more than this, possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of using an inflamed and irritated stomach with drugs in addition to getting rid of the acid—the cause of all the trouble. Get a little bisulphated magnesia from your druggist, eat what you want at your next meal, take some of the bisulphated magnesia as directed above, and see if I'm not right."
