DECISION ON THE BLOCKADE

Important Action by League of Nations Assembly.

Amendment to Article 16 of Covenant—Some Smaller Members Gain a Point—The Hon. C. J. Doherty's Amendment Goes Over.

Geneva, Oct. 5.—The assembly of the League of Nations took definite action yesterday on two important matters. It unanimously adopted an amendment to Article 16 of the league covenant relating to the blocking of any member resorting to war in disregard of the provisions of the covenant...

Switzerland, the Scandinavian countries and other smaller members gained a point in the amendment of this article which leaves a way out of obligation to blockade when the council may give a counter-banking state puts it in peril.

What is characterized as "the slow and sure" policy was applied to Argentina's proposition to make all sovereign countries automatically members of the league and in the case of the amendment proposed by the former Canadian minister of justice, Hon. Charles J. Doherty.

The assembly rejected a Czech-Slovak amendment to Article 21, which recognized the Monroe Doctrine. It was decided that the article as it stands authorizes such regional agreements as a Czech-Slovak amendment had in view.
