

VISITS CHICAGO

General Currie Declares the Heartiest Accord Exists Between Two Countries.

Gen. Sir Arthur Currie arrived in Chicago on Monday, accompanied by his wife, Lady Currie, and Col. H. Molson. The general was given a hearty welcome by Canadian officials and American officers.

"I have come here as the guest of the Canadian Club of Chicago," said the general, "and also to attend the reception given by the McGill University Alumni Association. McGill University of Montreal is one of the oldest in the country."

In reply to questions concerning the present and future relations of the United States and Canada, the general said: "There is no indication of anything but the heartiest accord between the two countries. I have never encountered any feeling of irritation or in tolerance of your citizens towards Canadians, or of Canadians towards the peoples of the United States."

Sir Arthur was asked for a statement of the Irish question.

"That is none of Canada's business," he added. "The Irish question belongs to the Irish, not to us."

On the League of Nations, Sir Arthur was a trifle more communicative.

"We feel in Canada," he said, "that the United States will eventually join a league of some sort. It may not be the present league, but it is hardly possible that it will stay out of some alliance with the rest of the world for the promotion of peace and national understanding. As to what league the United States enters, that is entirely your concern and nobody else's."

The McGill Alumni Association reception and banquet was held in the Morrison Hotel. Gen. Leonard Wood introduced the Canadian soldier. Members of the Daughters of the Empire and ladies of the Canadian Club entertained. Mrs. Currie, David R. Forgan gave a luncheon at the Chicago Club to which a group of bankers had been invited to meet Gen. Currie.

THE ST. JOHN PROTESTANT ORPHANS' HOME.

FOUNDATION WIDENS FIGHT ON DISEASE

Rockefeller Board Outlines Its Work in New Parts of South America and China.

Plans for carrying the war on hookworm disease and yellow fever into many new parts of South America and China are outlined in the annual report of the International Health Board of the Rockefeller Foundation. Work of the board since its establishment in 1914, and particularly in 1919, is reviewed.

"The regular co-operation plan of the board was enlarged during 1919," says

the report. "The board has been more and more frequently called upon to participate in public health and related matters and to furnish information bearing on these topics. Cities, towns, States and countries, as well as public or semi-public organizations and officials, are availing themselves of the facilities which the board has to offer."

"All of the work during 1919 was conducted in close association with governmental agencies. These activities were the chief features of the program."

"Demonstrations in malaria control through anti-mosquito measures were continued in ten towns in Arkansas. A program was developed, surveys were made, and a staff was recruited for extending the Arkansas type of demonstrations in malaria control (through anti-mosquito measures) to nine additional Southern States. DIAMOND DYES

Any Woman can Dye now

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye any old, faded garments, draperies, coverings, everything, whether wool, silk, linen, cotton or mixed goods, a new, rich, fadeless color.

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist will show you Diamond Dyes Color Card.

into the problem of malaria control through anti-mosquito measures at scattered farm homes was conducted in Hinds County, Miss. Special studies were made of the top mallow as a means of preventing mosquito breeding. Investigation of the feasibility of controlling malaria through the treatment of carriers was continued, under slightly varying conditions, in Sandflower County, Miss.

"Systematic efforts to eradicate yellow fever from Guayaquil, Ecuador, proved successful. Outbreaks of yellow fever infection in Nicaragua, Honduras and Salvador were suppressed. The etiology of yellow fever was subjected to further scientific study. Plans were matured for a comprehensive attack on yellow fever in its remaining endemic centres."

"The campaign against tuberculosis in France was extended."

"Measures were continued for the control of hookworm disease in twelve Southern States and in sixteen foreign States or countries. Anti-hookworm measures were begun in four new fields. The State of West Virginia, the island of Jamaica and the States of Minas Geraes and Parana in Brazil."

"Operations under a new public health program were begun in Australia."

"During 1919 the first steps were taken looking toward a comprehensive study of public health administration. Preliminary studies were made, dealing with the public health work done by the Children's Bureau, by the Bureau of the Census, and by the Bureau of Education of the Federal Government; a general study of public health administration in Massachusetts was undertaken with the assistance of the State Department of Health; a collection was made of the public health bills which have been presented to Congress, and of the reports of committee hearings and legislative debates on these bills; information on the organization of State, County, city and town health administration, and on the relationship between State and local health authorities, was gathered from the laws and regulations of the various States; data on expenditures for public health purposes by States, cities and countries were brought together; a special report on hospitals and dispensaries was prepared and published, and a report on infant welfare work in New York City was revised."

"The Responsibility of Monopoly."

(Baltimore Sun.)

The theory of monopoly, of the exclusive right to perform a public utility service, involves a corresponding obligation to render that service satisfactorily. If a monopoly cannot do that, the reason for a monopoly cannot be that there is no question of gratitude or of inherent right in the relations between a public service corporation and the people. It is a pure question of business. It is to the popular interest to facilitate the work of the corporation and to grant it such additional revenues as will enable it to do the special task entrusted to it. But if it cannot do this or will not do it without imposing too great burdens or too heavy costs upon the public then it cannot logically or legitimately object to such competition as may supplement its inadequacy.

Skin Troubles

Soothed With Cuticura

See, Ointment, Tablets, etc. each. Sold everywhere. Box, 50c; 10c, 5c, 2c, 1c. Cuticura, St. Paul, Minn., U.S.A.

Of Course, the Women Liked It

On special occasions, such as an afternoon tea, the new Red Rose Orange Pekoe Tea had its first introduction to many of the women of Canada.

And at such times its extra qualities could be discussed and enjoyed at leisure.

The women found that its aroma is delicate and delightful, that it has a bright sparkling amber color in the cup, that the flavor is of rare charm and distinction, while its strength is rich and satisfying.

The more cultivated your taste, the more you will appreciate Red Rose Orange Pekoe Tea.

Ask for it by the full name—Red Rose Orange Pekoe Tea.

Sold only in our new sealed airtight cartons.

Skin Blemishes

How to get rid of them

Skin specialists are tracing fewer and fewer troubles to the blood. They say more often, skin blemishes can be traced to the bacteria and parasites that are carried into the pores of the skin with dust, soot and grime. To clear your skin of blemishes caused by this insidious and persistent enemy, use regularly the following special treatment.

Just before retiring, wash in your usual way with warm water and Woodbury's Facial Soap; then dry your face. Now dip the tips of your fingers in warm water and rub them on the cake of Woodbury's until they are covered with a heavy cream-like lather. Cover each blemish with a thick coat of this soap cream and leave it on for ten minutes. Rinse very carefully with clear, hot water; then with cold.

In addition to this special treatment, use Woodbury's regularly in your daily toilet. This will make your skin firm and active. It will help the new skin to resist the frequent cause of blemishes. Before long your complexion will take on a new clearness and freshness.

Get a cake of Woodbury's Facial Soap and begin tonight the treatment your skin needs. You will find Woodbury's on sale at any drug store or toilet goods counter in the United States or Canada. A 25 cent cake will last a month or six weeks.
