Death Threat by Reds for American Officer

He Has Been Openly Denouncing The Radicals—Legislation That Promises a Hard Labor Fight

(Special to Times.)
Boston, Nov. 19.—In Boston the Reds are working under cover. Edwin H. Cooper, a Yankee Division captain in France, has been threatened with death as a result of his bitter denunciation of Americanism and law and order. Messages that threaten to silence the officer forever have poured into local army headquarters by mail, telegram and phone and great excitement prevails in the military department of the north-east.
Captain Cooper says he noticed that he has been followed in several cities he has visited. He was called to the telephone yesterday and threatened with dire results if he did not lay off on his dire results if he did not lay off on his speeches. The captain wanted the man's name but got this reply: "Never mind who I am. If you don't shut up you'll get what will make you stop forever."
The army authorities are now helping the federal and police officials to run down the radicals but it is evident that the few arrests of late have driven them to hiding places.
Following the move in congress to invest the new railway measure with anti-trust teeth the state special commission on street railways has advocated like action here. For that reason fifty-four legislative committees in Massachusetts have been summoned to Boston to prepare for the hardest fight in which they have ever engaged. The proposed law would affect only the Boston elevated and the eastern Massachusetts street railways, these systems being under state control. The leaders of the law fear that with the enactment of the law in a short time to control the railroads then to the employees of all public utilities. The decisive blow dealt the unions by Governor Coolidge's election has caused apprehension in their ranks and they are now weak-kneed have gained courage to speak out, be aggressive and not yield at every demand.

The major and his wife are to reside in Florence, Italy.

King street this morning a car owned by a company operating in the suburbs, stopped outside a bank building. One of the car staff went to the bank, the driver remained in the car. An oblong parcel lay on the seat beside him, in shape not unlike a "long-neck" and attracted the eye of a policeman passing, who promptly demanded to know the contents. The package was opened and found to contain a large sheet of blotting paper, which the driver, somewhat abashed before several people standing by, excused himself hastily and withdrew, though, without any word on the subject, asking how chances were for "a wee drop from his fountain pen."

ASTOUNDING AT WHAT CANADA IS DOING FOR RETURNED MEN.
Montreal, Nov. 19.—An amply substantiated report is being done in this country for returned soldiers.

This was the verdict yesterday of the Hon. Robert Hunter, of Queensland, a minister in the Hughes cabinet, who is in charge of the land settlement and re-establishment work for that country. Mr. Hunter is in Canada studying its system of dealing with returned soldiers.

Mr. Hunter stated that so far as Australia is concerned, she was amazed at what is being done in this country for returned soldiers.

The Fredericton Labor Council at a special session last night further considered the proposition to establish a retail grocery store here on the co-operative principle. It was announced that the proposition was not sufficiently advanced to give the necessary impetus.

It is said that members of the New Brunswick Fruit Growers' Association are making preparations to develop package trade in apples, particularly in the New Brunswick market. The success attained in bulk shipments to the four trade markets has made the fruit growers believe they can develop a trade particularly for the retail branch. This would meet especially the competition of the Pacific coast fruit, which has been marked success and profit.

SAID TO BE AWAY.
No trace of William Webber, 71 Orange street, has yet been found. It was said he left the city yesterday previous to the liquor raid, which was made on his premises, and has not been heard from since.

HUN DELEGATES WILL NOT BE AT CONFERENCE.

CONSULTING OVER TRIAL OF KAISER

Hope For a Definite Step in The Matter by Christmas

London, Nov. 19.—The Daily Telegraph's parliamentary correspondent says that the attorney-general and the solicitor-general are now in Paris for a consultation with the Allied council in reference to the trial of the ex-Kaiser. It is hoped that a definite step in the matter will be taken by Christmas.

CANADA LIKELY TO WIN POINT AT CONFERENCE

(Continued from page 1.)
But Canadian employers are less successful. The six employers' representatives on the governing body, so far as at Britain, France, Belgium, Italy, Czechoslovakia and Switzerland. Strong representation was made by the Canadian employers' group, supported in this by the employers' group from Great Britain, that Canadian employers should be included among the six. The point was taken that the six employers' representatives nominated by the general employers' group will include no representation of employers either of the whole American continent or of Asia. But the representatives have so far been unsuccessful. The general workers' group expressed their opinion as to how they thought the matter should be worked out.

Eight-Hour Day.
Compromise on the eight-hour day has apparently been reached, although the special committee continues its labor. Nor has the present stage in the committee's work been reached without heart-burning and angry scenes. Two labor delegates from continental Europe at one point flung themselves out of the committee room. They heatedly declared they would have nothing more to do with the conference. But under the counsel of British and Canadian labor groups they returned to the committee room and were eventually successful in the reopening of the discussion on the forty-eight hour week. The compromise which it is understood, has the support of the majority, both of employers and of the workers, is an extension of the suggestion made by Senator Robertson, Canadian minister of labor, a few days ago. It provides for an eight-hour day and a forty-eight-hour week, with these exceptions:

1. The convention is not to apply to persons holding positions of supervision or management or employed in a confidential capacity, who are not usually employed in manual labor.
2. Whereby law, custom or agreement between employers or workers' organizations the hours of work on one or more days of the week are less than eight, the limit of eight hours may be exceeded on the remaining days of the week by sanction of the competent authorities or by agreement between employers or workers' organizations. But in no circumstances is the work day to be of more than nine hours.
3. Whereby law or custom persons may be employed more than eight hours a day and forty-eight hours a week, if the average number of hours over a period of one week or less does not exceed eight per day and forty-eight per week.
Formal motion to this effect was submitted by Dr. Nolens, of the Belgian delegation, who is a member of the League delegation.

KEEP IDENTITY OF DAYS OF WAR

Would Mean 26th Parent Unit of Five Infantry Battalions in Province—The Other Branches

As a result of yesterday's meeting between the officers commanding local militia units and the visiting board from Ottawa, a tentative scheme of organization with the idea in view of perpetuation of the overseas units will be submitted by the commission headed by Major General Sir William D. Otter, K. C. B., C. V. O. Nothing definite was decided upon yesterday any more than that different officers and others interested in the re-organization scheme expressed their opinions as to how they thought the matter should be worked out. The recommendations of the commission will not be presented until all arrangements advanced at yesterday's meeting have been thoroughly considered, but from what was said it seemed that the favorite idea was to perpetuate as much as possible the units which had served and made great names for themselves in France. General MacNaughton, a member of the commission, said this morning that in all the provinces they had visited the feeling seemed to exist in favor of this and overseas battalions of infantry, batteries of artillery, mounted units and others were desirous of keeping up the traditions of the units which they had served in. The scheme is followed here, and the expectations are that it will be the parent unit of the five infantry battalions in the province, the 62nd, 67th, 71st, 78th and 74th, in other words almost like a brigade with five battalions composing it. The artillery would have the 6th regiment artillery as its parent with the same numerals as those which served in France, composing it. The 6th Mounted Rifles will probably be the name by which the cavalry will be perpetuated, embracing the 8th Princess Louise Hussars and 28th New Brunswick Dragoons. Recommendations as to other branches of the service will also be made. General MacNaughton said that if any militia units in other parts of Canada had the same name as those which had been in France the idea would be to have them give way in favor of the overseas unit.

BY TRUCK FROM ST. JOHN.

(Moncton Transcript.)
The liquor seized yesterday afternoon in the Sunny Brae rink is said to be valued at \$1,200. The contents seized were as follows: Ten cases of Canadian Whiskey, four cases of the best brands of gin and forty-four separate bottles of Campbell's Special Scotch Whiskey. One bottle of whiskey in one case was missing, and two of the bottles of gin. The police report the booze was collected in quick fashion when the corks were engaged on a sewerage contract.
