TWENTY-FIVE YEARS AGO

From THE CHRONICLE
Ingersoll, July 31, 1884.

What will our taxes be this year?
* * *
Those Poles.—While other towns are talking about the gaudy appearance of their telephone poles, after their coatings of paint ours still stand out in all their native glory and beauty.
* * *
Model School.—The County Model School open on the second Tuesday in September. It is proposed to allow Boards of Trustees to charge a fee of not more than \$5.00 on every model school student. The only change in this regulation is that heretofore the fee was imposed by the County Board of Examiners.

A Mean Thief.—On Friday evening

last some evil disposed person stole from Mr. Peter Stuart's residence, a beautiful "Heather Range" plant which this gentleman prized very highly. It is evident the party who took the plant had an eye to the beautiful as he picked this out from many which were within reach. The plant has only recently come to flower possessing large white roses.

hearers by their exquisite playing. The 22nd Battalion Band was also present and rendered several selections during the evening. The refreshment and flower booths were tastefully decorated and liberally patronized. There were 400 people present and an enjoyable evening was spent. The gross receipts were \$130 leaving \$85 after expenses are paid.

REVOLUTION GROWS

Refugees and Travelers Say Spanish Situation is Worse.

OFFICIALS SAY OTHERWISE

Reports of Authorities Declare That Barcelona is Quiet, But Revolutionists Are Said to Hold the Suburbs and to Be Cutting Off Communication—General Strike Mooted in Madrid—News is Scarce.

Paris, Aug. 2.—Although official Spain minimizes the Catalan insurrection and insists that the revolt has been crushed, a far different story emanates from the frontier.

Refugees and travelers declare that the revolt is still rampant, and that desperate combats continue at Barcelona, where 50 revolutionists are reported to have been wounded in a conflict which occurred as late as Saturday night.

Information concerning the actual situation in Barcelona and the rest of the province is rarer today than ever before. Although some of the news from the frontier is from revolutionary sources, and, therefore, open to suspicion, more reliable intelligence leads to the belief that although Barcelona is calmer, the insurrectionists have taken to the suburbs and the outlying country, where they are sowing the seeds of revolt and inflaming the populace to maintain the struggle to the bitter end.

Barcelona Province is in the hands of proving hands of workmen, heavily armed, who occupy the railroads and highways to prevent communication, and who refuse entrance to new comers. Cassan de la Selva is in the hands of revolutionaries, and at Palamós, where the monastery was fired upon and the monks tortured, the situation is described as critical and the lives of foreigners endangered.

The opinion in semi-official circles here concerning Spain's internal condition is pessimistic and the belief is expressed that the trouble is not yet over. Official Madrid announces that Barcelona is tranquil, but qualifies this statement with the words, "This is especially so in the centre of the city."

From Melilla comes the news of another Spanish convoy being ambushed and several of its officers being wounded before the troops succeeded in extricating themselves from the attack of the tribesmen.

Rumors are doctored that a general strike will be launched to-day at Madrid, and that strike is being organized in the Biscayan region. All persons subject to military duty are forbidden to leave Spain under penalty, and elaborate measures have been adopted to forestall a possible outbreak in the other provinces of the country.

Official denial is given to the report that the temper of the Madrid garrison is hostile. Another official statement says that the number of victims of the fighting at Barcelona is unknown, but frontier reports, one of them of alleged authoritative inspiration, declares that the killed or wounded will aggregate 3,000 and that the number of insurrectionists summarily shot as between 40 and 120.

Official Version
Madrid, Aug. 2.—An official statement issued yesterday says that the latest rumors from Barcelona are to the effect that order reigns, especially in the centre of the city, where the public is circulating and a majority of the stores are reopened. Work has been commenced again in several factories. The newspapers probably will reappear to-morrow. A French torpedo boat is awaited to take official correspondence. The number of victims of the outbreak according to the official note is not known exactly. Troops are actively engaged in clearing the streets and demolishing the remaining barricades erected for the revolutionists.

Large Hailstones.
Morden, Man., Aug. 2.—A hail storm on Friday wiped out an area six miles wide extending to the boundary. Hailstones were reported to be seven inches in diameter. Some were picked up one hour after the storm one inch in diameter.

Turret Bell is Raised.
Charlottetown, P.E.I., Aug. 2.—The freight steamer Turret Bell, stranded three years ago, on the north side of the island during a big gale, which wrecked several other vessels, was towed into this port yesterday afternoon.

Omaha, Neb., Aug. 2.—The annual spectacle of snow falling in July in Omaha occurred during an early storm Saturday night, which followed an extremely hot day. The flakes fell intermittently for nearly ten minutes.

OSAKA BURNED OUT

Japanese City is Swept by a Disastrous Blaze.
20,000 BUILDINGS ARE GONE

Largest Buddhist Temple in the World and Many Beautiful Public Buildings Are Destroyed—Thousands of Homeless Face Starvation—Firemen, Troops and Citizens Fought the Flames.

Osaka, Japan, Aug. 2.—Confusion still prevails here as a result of Saturday's disastrous fire. Thousands of persons are homeless, and hunger is staring many of them in the face.

A system of relief has been organized by the municipal authorities, but it is inadequate. Outside cities and towns are assisting.

The number of casualties has not yet been determined, but hundreds of injured persons are crowding the hospitals.

The latest estimates are that 20,000 buildings were destroyed, including banks, the stock exchange, the museum, Government edifices, and factories.

Losses are given roughly at several million yen. It is feared that consequently some of the insurance companies will fail.

The conflagration lasted more than 25 hours. The streets of the city are very narrow, and the houses mostly of wood construction.

Under a strong breeze therefore the buildings were easy prey for the flames. The firemen fought valiantly against the odds of lack of water and wind, and many of them fell unconscious.

The belongings of the people who were able to save anything from their burning homes are piled in great heaps along the railroad tracks from Osaka to Kobe, where they were removed early Saturday morning when the fire broke out.

All day Saturday and far into the night the male populace assisted firemen and the troops in quenching the conflagration. An area of over four miles square, containing some of the city's handsomest structures, including the Buddhist temple, the largest in the world, was burned over before the fire was controlled. The stock exchange, one of the most important of this country, was entirely destroyed.

This loss, it is believed, will tend to dislocate the business of Osaka, which, with its manufacturing concerns, is one of the chief commercial cities of Japan.

The Emperor is deeply concerned over this disaster.

Ten Dead in Wreck.
Spokane, Wash., Aug. 2.—Ten persons were killed and at least thirty were injured in a head-on collision of two electric trains on the Spokane and International Railway late Saturday afternoon.

The wreck occurred at Coldwell, Wash., a station between Couer D'Alene, Idaho, and Spokane. Both trains were going at the rate of about 15 miles an hour. They crashed together without warning.

The heavily laden coaches were crushed, and the men and women in them were thrown from their seats, some being hurled to the tops of the coaches, while others were sent flying through the windows. Several coaches left the tracks, and passengers were caught under the pile of broken wood and steel.

A partial list of the dead includes: Will Allen, Wenatche, Wash.; Walter Lalouist, Selma, Tenn., an attorney of Memphis, Tenn., and an unknown woman and son.

Sharetti Off for Rome?
Montreal, Aug. 2.—It is learned to-day that the rumor to the effect that his excellency Mr. Sharetti had gone to Rome on an official mission is to say the least premature.

One thing is certain the papal delegate did not give it to be understood that he was leaving for the city of the Pope, and that it was only supposed that he had taken his departure for the eternal city. A well-posted gentleman in ecclesiastical matters observed yesterday if the delegate has really gone to Rome he certainly never intended to come home of either high or low estate that such was his intention.

Comic Editor Shot.
Havana, Aug. 2.—Postmaster General Nodarse Saturday night entered the home of Senator Torrente, editor of an illustrated weekly, Policia Comica, and fired several shots, seriously wounding Torrente. Nodarse then escaped.

The cause of the attack is said to be rumors concerning the relations of a certain high Government official with Nodarse's wife. The publication of a scandalous cartoon Saturday is believed to have induced Nodarse to attack Torrente.

Swept Out to Sea.
Avalon, N.J., Aug. 2.—Swept out to sea in a disabled sailboat, Dr. A. A. Sargent, his wife and two children and three friends, all of Philadelphia, were rescued late Saturday night by the Avalon life-saving crew, who found the party drifting helplessly on the ocean.

The life-savers went out twice in search of the disabled boat, finding the party on the second trip drifting up the coast off Sea Isle City.

Miners Adjust Differences.
Pittsburg, Aug. 2.—There will be no further suspension of work in the mines of the Pittsburg Coal Co. All the differences were amicably adjusted at the conference between President Levy of the U.M.W. of America and the operators.

French Element is Pleased.
Montreal, Aug. 2.—Naturally the French-Canadian element are elated over the new Senatorial appointment from the west replacing Senator Perley.

It was at first announced that a Mr. Price had been appointed, but the man who really got the job is no other than the Hon. Benjamin Price, a French-Canadian from the Province of Quebec, who went west and grew up with the country. He was formerly a member of the Northwest Assembly and a Conservative, but went over with a good many of his compatriots in 1893.

He is well and favorably known here, and should, with Senator Roy from Edmonton, make a good French-Canadian team from the west in the Upper House.

Stricken in Church.
Fergus, Aug. 2.—During church service yesterday morning, James Pattison, a leading merchant of Fergus, and a member of St. Andrew's Presbyterian choir, took a hemorrhage of the stomach and was carried from the choir in a dying condition, passing away almost instantly.

Several in the congregation fainted and the service was discontinued. Mr. Pattison is the only son of a widowed mother. He was at one time a member of the council, is a director of the Fergus Horticultural, the Agricultural Society, a prominent Mason, and leading Conservative.

COOLNESS! PLENTY OF FREEDOM! LIGHTWEIGHT!

THESE are the essential features that make our "loose fit" underwear so desirable. Made from pure white yarns, in porous weave, it is the most healthful, being short sleeve and leg, and loose fitting body, gives plenty of room for free movements. It is also knit from very fine woven yarn, giving it a very desirable light weight.

Its the only real, cool, comfortable for August weather.

More Sharp Shooters.
Berlin, Aug. 2.—Nearly two and one-half millions of trained, disciplined sharpshooters have been added to the defensive forces of the German empire last week by the Imperial Chancellor, Dr. Bethmann-Hollweg. The chancellor has taken this far-reaching step by given permission by decree to 2,402,644 members of 97,676 veterans' societies to practice rifle shooting on the military rifle ranges throughout the country, with army rifles at an annual charge of 87 cents a piece. Cartridges will be supplied to the shooters at 62 cents a hundred.

Heretofore all requests made by the veterans' societies in this direction have been refused.

The Premier's Holiday.
Ottawa, Aug. 2.—Sir Wilfrid Laurier left yesterday for a three-weeks' holiday. This week he will be the guest of the Shawinigan Fish and Game Club near Charlotte Mills, Quebec, and the following two weeks will be spent with Lad, Laurier at the Premier's old home at Arthabaskaville.

During Sir Wilfrid's absence from the capital Hon. Charles Murphy and Hon. Mackenzie King will be left in charge of affairs.
