Fredericton Globe. A. J. MACBURN, Publisher and Proprietor. FREDERICTON, N. B., JULY 11 1891.

THE MCGEVEY SCANDAL. What seems to be an extraordinary proceeding at Ottawa, in regard to the great talk of scandal, is that the committee of investigation should deem it necessary to call in the aid of the legal profession in order to sift the business and get at the facts, or to try and destroy them by opposing counsel, as if the committee room had resolved itself into a Court of Justice.

At Edinburgh, where some of the students whose ways were for a time a puzzle, the one who had been a convert to the millennial theories, was committed to an asylum, a hopeless man, but the study of Totten's theories proved too much for him and toppled his reason. Such is the history of all attempts to interpret prophecy or to convert the times and numbers of the scriptural predictions into a concrete form. It has not unfrequently happened, that the prophet himself has maintained his mental balance, at least to all outward seeming, while the disciples have lost their wits and become stark, staring lunatics.

YORK COUNTY COUNCIL. The session of the municipal council which took place this week has brought to light the peculiar manner of financing which is possessed by some people in the handling of large sums of money which are placed in their keeping. The late Secretary-Treasurer, Mr. Wilson, it would appear from his own observations, had been, altogether to easy going in the handling of the county funds and by some peculiar method of his own he finds that certain amounts which he had owed parties on his own private accounts, were paid out of the funds of the county.

Installation of Officers. Tuesday evening at a regular meeting of Victoria Lodge No. 13, I. O. O. F. the following officers were installed into office for the ensuing term by J. Fred. Richards D. D. G. M. assisted by Grand Lodge officers: W. A. Quinn, N. G.; A. G. Robinson, V. G.; W. L. Reed, R. S.; C. A. Sampson, (P. G.); P. S.; H. Clark, (P. G.) treas.; J. H. Tabor, W. treas.; A. S. Fowle, com.; E. B. Staples, I. G.; F. W. Nicholson, (P. G.); O. G.; J. F. Richards, (P. S.); R. S. G.; S. Mackay, L. S. N. G.; J. D. Fowler, (P. G.); R. S. V. G.; A. D. Macpherson, (P. G.); L. S. V. G.; S. Brown, (P. G.); R. S. J.; A. McVew, J. P. G.

LOCAL OR STANDARD TIME.

We see it announced from time to time by railway companies that the trains will start or arrive on Standard time. Now why not connect it with the local time for very few people understand how to allow for the difference and those who do, have to stop and puzzle a little in making up the real time. It is a great pity that time should not be measured by one scale as formerly; it may be more convenient for the railways to have a time to suit them, but locally the change throws everybody out of kilter, especially as the true time—which we stick to—is to be dated from the moment the sun appears above the horizon—if for instance it is four o'clock it is contrary to the natural law to call it half past four in order to be up to Boston.

END OF THE WORLD.

Lieut. Totten, United States Army, who occupies a professional chair at New Haven, has attached considerable attention recently by the publication of his theories regarding the proximity of the end of the world. Lieut. Totten accompanies his articles by the most formidable array of figures and mathematical calculations and proves to his own satisfaction, at least, that the world will end in a very few years.

The enormous commercial development of the United States can be inferred from the growth of the Post office business. Take for instance the New York Post Office. Its receipts during the year ending March 31st, last, were \$6,265,283, an increase of \$515,210 over the preceding year; Chicago's receipts were \$3,422,400, an increase of \$398,965, while Philadelphia, Boston, St. Louis and Washington showed increases respectively of \$189,972; \$125,136; \$106,419 and \$103,200.

Jack the Ripper has been heard from again and threatens to perform another of his characteristic operations. The London police are naturally in a state of excitement over the warning, and their discomfort is only partially allayed by the information contained in the last note that the atrocious criminal has been nearly caught twice. The popular belief in the efficacy of a third trial may, however, make the police less wary, so it is not well to build too much on the probability of Jack being captured.

At the close of the meeting the officers and members were invited by the noble and vis grand to J. H. Tabor's, where strawberries and cream, ice cream, and fruit were served.

NOTES AND NOTIONS.

Running Comments on Passing Events. Sundrv Ebullitions in Prose and Rhyme. How the Domestic, Social and Literary Magazines.

Patients in this country, even the boldest and strongest, tremble at the sight of a dental surgeon's instruments. Japan has the advantage of us in this respect for a Japanese dentist never uses anything but his fingers when extracting a tooth. This may seem incredible, but the reader will understand this when he learns how Japanese practitioners are trained for their profession.

A number of holes are bored in a small plank of soft wood and pegs loosely inserted in them. The plank is laid on the ground, and the aspirant to dental honours is directed to pull them out one by one with the finger and thumb of his hand, without disturbing the plank.

At Edinburgh, where some of the students whose ways were for a time a puzzle, the one who had been a convert to the millennial theories, was committed to an asylum, a hopeless man, but the study of Totten's theories proved too much for him and toppled his reason.

Decidedly the watch is a very queer thing. It possesses some unaccountable peculiarities. Some time ago, when there had been a succession of fine displays of the aurora borealis, it was estimated that in a single day in New York the main springs of not less than three thousand watches broke.

There are occasions when it is a very serious matter to have your watch magnetized. The captain of an Atlantic steamer, before putting to sea on a recent voyage, was invited to inspect a dynamo machine, and examined its parts closely.

It is a well known fact among horologists, that no watch will keep the same time with two people. The cause has not yet been definitely ascertained, but it would seem that in some mysterious way a watch is affected by the temperament of the wearer. The mere physical difference in gait and movement between the two is sufficient to account for all the variations that have been observed.

There You Have 'em!

Notice of Sale. To Samuel L. Dow, of Canterbury, in the County of York, Nelson, his wife, and all others whom it may concern: Notice is hereby given that under and by virtue of a power of sale contained in a certain indenture of mortgage bearing date, the twenty-second day of October, A. D. 1887, made between George A. Grant, of Canterbury, and Olive A., his wife, of the first part, and Kevin Evans, of Douglas, of the second part, and recorded in Book 7, of the York County Court House, in the City of Fredericton, in the said County of York, the lands and premises mentioned and described in said indenture of mortgage as follows: "All that certain piece or parcel of land situate in the Parish of Canterbury, above-said, and bounded and described as follows: Commencing at a pine stump standing on the bank of Four Mile Brook, near the line between the said lot and land granted to David Dow, following said line to the east line, then at right angles, along rear line, twenty rods, thence a side line course through the centre of said lot until it comes at right angles to said pine stump, thence to said stump, containing thirty-five acres more or less, being part of Lot No. 2, block 'B' in the plan of the said lot, granted to John H. Lattick, and conveyed by said Lattick to said George A. Grant, under the name of George Grant, by indenture, bearing date the seventh day of February, in the year of Our Lord, one thousand eight hundred and seventy-nine, which conveyance is duly recorded in Book 7, 3, pages 163 and 164 of the York County Court House."
