BY SPECIAL LICENSES

BY SPECIAL LICENSES

CANNOT BE EXPORTED

CANNOT BE EXPORTED

Such Is the Meaning of Order-in-Council

Just Passed by the Provincial

Government.

A very important order in-council has been passed by the provincial government which should beneficially affect the humber industry of the province. It is to the effect that no timber cut on provincial lands under authority of licenses shall be exported. This was advocated strongly by a number of members during the last session of the legislature.

The notice which appears in last evening's Provincial Gazette follows:

"Notice is hereby given that His Honor the Lieutenant-Governor in council, in pursuance of the provisions of section 50 of the 'Land Act,' has been pleased to order that all timber cut from the montil timber cut from session of the forces at the molecular of the provisions of section 50 of the 'Land Act,' has been pleased to order that all timber cut from is also to proceed shortly. On the common and distribution of the huge south Africa and distribution of the huge south Africa necided by Lord Kitchener that the order of homecoming shall be as follows: Imperial Yeomanry (1900 and 1901); volunteers; milita battalions; reservists; Foot Guards; Imperial Yeomanry, 1902, Force and regular force.

It is estimated that of the four first mentioned there are eleven, eight, twenty-one, and forty thousand respectively, making a total of eighty thousand troops to be sent home before the time-serving regulars can be thought of.

With the extra transports that have been ordered the admiralty are in a position to bring these men home at the rate of three thousand five hundred a week, so it will take about five months for their transport. By that time the garrison of South Africa and troops for the colonies will be definitely chosen, and the regin ments for home finally prepared for embarkation.

The colonial corps will in the meaning be transported by the admiralty to their respective homes, and certain of the batteries of horse, field, and garrison artillery, whose

cil, in pursuance of the provisions of section 50 of the 'Land Act,' has been pleased to order that all timber cut from special licenses heretofore issued, or provincial lands, under authority of special licenses heretofore issued, or controlled by the controlled by the pursuant of the forces at home is also to proceed shortly. On July 31st the general issue of the special war gratuity will be made at home and abroad.

Lord Kitchener is ser ding home all expected by the provision of the forces at home and abroad.

provincial lands, under authority of special licenses heretofore issued, or which may hereafter be issued, shall be manufactured within the confines of the province of British Columbia, otherwise the timber so cut may be seized and forfeited to the Crown and the license concelled."

The following companies have been incorporated: Butler Shingle & Manufacturing Co., Ltd., capital, \$20,000; Chicago & B. C. Mining Co., Ltd., capital, \$20,000; Chicago & B. C. Mining Co., Ltd., capital, \$100,000; Mutual Fire Insurance Co. of British Columbia, head office in Vancouver. The American Benevolent Association has also been incorporated. Its time the settlement of South Africa and committee of representatives of the colonial office and the war office will shortly assemble to consider the transfer of authority from the military to the civil officials. They will also decide the question of transfer of railways, concentration camps, and kindred questions. The following companies have been incorporated: Butler Shingle & Manufacturing Co., Ltd., capital, \$20,000; Chicago & B. C. Mining Co., Ltd., capital, \$100,000; Mutual Fire Insurance Co. of British Columbia, head office in Vancouver. The American Benevolent Association has also been incorporated. Its objects are: "Mutual protection by means of contributions, subscriptions, donations and otherwise, with a view to forming a fund for providing relief and aid to members and their families and blood relations, fiancees and widows and orphans of deceased members, and without reference to religious creed or faith, blood relations, fiancees and widows and orphans of deceased members, and without reference to religious creed or faith, or politics; to benefit and elevate the members of the association, morally and intellectually, by providing means for the assembling of honorable and upright white persons in local or subordinate assemblies, and to promote their interests by encouraging temperance in habit and uprightness and justice in practice."

The Hazelmere Mill Company, of Blaine, Washington, has been registered an extra-provincial company. The capital is \$10,000. The head office of the company in the province is at Hazelmere, and Henry T. Thrift is attorney. The company is making application to the government for permission to improve Campbell creek, Westminster district, so that lumber can be driven down it. The rate of toll proposed to be charged to persons using the improvements is 25 cents per thousand feet for all timbers, saw logs, spars, fish trappiles, poles, ties or other material of like character, and five cents per cord for all shingle bolts or cordwood floated down or over or through the improvements, or any of them.

Hon, J. D. Prentice, minister of force Provisions of Law in This Respect—What Pretautions to Take.

A few evenings ago an interview with Forestry Superintendent E. Stewart appeared in these columns, showing the steps being taken by the Dominion government for permission to improve Campbell creek, Westminster district, so that lumber can be driven down it. The rate of toll proposed to be charged to persons using the improvements in 25 cents per thousand feet for all timbers, saw logs, spars, fish trappiles, poles, ties or other material of like character, and five cents per cord for all shingle bolts or cordwood floated down or over or through the improvements, or any of them.

Hon, J. D. Prentice, minister of force and within the railway belt in the province of British Columbia, and any persons violating in any way the

down or over or through the improvements, or any of them.

Hon J. D. Prentice, minister of finance, has been deputed to execute marriage ficenses, money warrants or commissions under any statute of the legislative assembly of British Columbia, during the absence of His Honor from the seat of government.

The Dominion government have granted certain lands in New Westminster district to the Vancouver Power Company and the corporation of New Westminster for proposed improvements to the former's power plant and the latter's water works system.

Messrs. Morley & Laing, stationers, of Nelson, have dissolved partnership. The Nelson, have dissolved partnership. The Morley Company will continue the busi-

nest.

There will be vacations in the County courts of Kootenay, Yale, Westminster and Vancouver from August 1st until October 1st.

MR. KILPATRICK'S FUNERAL.

ed:

1. In building a camp fire, choose a place that is sheltered from the wind, and clear away any moss or inflammable material surrounding it.

2. Be sure thoroughly to extinguish your camp fire before leaving it.

MR. KILPATRICK'S FUNERAL.

Took Place in Nanaimo on Wednesday and Was Largely Attended.

"The esteem in which the late Robt."

"The esteem in which the late Robt."

"The esteem in which the late Robt. Kilpatrick was held was shown by the attendance at the funeral this afternoon, which took place from the residence of Mr. E. M. Yarwood," says Wednesday's Free Press. "The train from Victoria bearing on board the body of deceased was over three-quarters of an hour late, so that the funeral was delayed somewhat. and log heaps in clearing their land, must do so at proper seasons of the year, and not allow the fire to escape from their premises.

5. All employers of labor should see that their employees whose work is in the open air are furnished with copies of the act respecting prairie and forest fires, or other instructions in regard thereto, as such employers are responsible for any violation of the law caused by their servants.

As every person in the community is liable during the dry season to suffer more or less by prairie or forest fires, and as it is an undoubted fact that in most cases these are started through carelessness, it is hoped that these suggestions will be observed.

Settlers are therefore earnestly requested to co-operate in every way possible with the officers of the government with a view to the prevention of fires, and the strict enforcement of the law in that behalf.

what.

"On the train there arrived also many members of the I. O. O. F. Harmony lodge, No. 6, Wellington, of which deceased was a member, and from its ranks the pall-bearers were drawn. These were Bros. Andrew Robinson, Martin Dunsmir, David Haggart, Albert Buckle, Thomas Cowan and Dan Nicholson. There were about 35 members of Harmony lodge present. A number of visiting brethren from other places also joined with them. The local lodges, I. O. O. F., Black Diamond and Centennial turned out in a body also. "Accompanying the corps were many rich floral offerings from Victoria, Ladysmith and other points on the E. & N. railway." and other points on the E. & N. railway.

These were supplemented in this city by many additional tributes, so that there was at the funeral a specially large collection of these evidences of love and esteem for the departed.

The funeral services were conducted by Rev. M. Van Sickle of this city."

THE IRON INDUSTRY.

Minister of Mines' Reply to Communica tion From Voters' League.

The following is the text of the reply of the Minister of Mines to a recent communication from the Voters' League, perticulars of which were published in

Department of Mines, Victoria, July 19, 1902. Victoria, July 19, 1902.

Sir:—I have the honor, by direction the Henorable the Minister of Mines, acknowledge the receipt of your letter the 16th inst., enclosing a series of resoltions adopted at a meeting of the Voter League, with a view to the development and advertisement of the iron and steel r sources of this province, and further eclosing an excerpt from the Mines Act the province of Ontario, in connection withis subject.

The Minister of Mines directs me to as The Minister of Mines directs me to say that the above will have his immediate at

tention.

I have the honor to be, sir, Your obedient servant, MALCOTT RICHARDSON,

J. Mor'ev. Esq., Secretary Voters League, Victoria, B. C.

LENORA SENDING TO TACOMA AND CROFTON

The Possibilities of the Last Named Point as an Industrial Centre for the Island.

The management of the Lenora mine on Mt. Sicker are now shipping ore not only to Osborne Bay but to Tacoma as well. About 60 tons daily are going out via Westholme, the E. & N. and Ladysmith to the latter place, and will continue to be shipped until the contract with that smelter is filled. Thereafter the ore will be sent to Crofton only. A slight accident on the Lenora and Mt. Sicker railway last week has interfered somewhat with traffic, but in a few days the road will be restored, and Mr. Croft expects to have three instead of two engines on the line.

of two engines on the line, Regarding the possibilities of Crofton as an industrial centre, the Crofton as an industrial centre, the Crofton Gazette says:

"The sampling works at the Crofton smelter have been opened, and the real work of ore reduction will commence in a week or two. This industry has been the making of Crofton, and will probably remain the mainstay of this new town. Not only that, but it will certainly be an impetus to mining development on the Not only that, but it will certainly be an impetus to mining development on the Island, and in the Mount Sicker district in particular. Vast strides have already been made with the mining industry on Mount Sicker and Mount Brenton and neighborhood, thanks to the energy of Mr. Henry Croft and a few others, but this is nothing compared to the possibilities that await further development. The untold wealth that lies hidden beneath our feet is a dream for the imagination and a problem for the the imagination and a problem for the future, but the products that lie ready to hand—the minerals, the timber and the natural products of this portion of the Island—are so vast and varied that surely here we may some day find a manufacturing and commercial centre.

become a great mining centre, and to mention but two more industries—a lumbering and fishing centre.

"With regard to lumber, we have in the interior enormous limits of admitted ly excellent timber. From the Cowichan valley alone enormous enounts have been concerned, on July 4th. Mr. Eberts left on June 21st, so it was quite impossible for him to reach the Old Land in time to be of any service in arguing the case. Hon. Mr. Prentice, in addition to the grave responsibilities of administering all the departments of the government, it is also charged with some of the exalted functions of the Lieut-Governor, in responsibilities and other states which once boasted magnificent forests. To-day they are sawing with profit logs that we in our luxury of nature's bounty would not use on our skid-roads. We waste our opportunities because we think if we cannot get rich quickly by investment of our capital, we had better keep what we have lying idle in the banks. Foreign capitalists come in and see further than us, and our opportunities are let slip. It is the same way with the fishing industry on the east coast here of the Island. Excepting salmon, this industry is almost non-existent. The cry is that there is no market. Let capital and enterprise find a market. There is no better locality on the coast than this for cod. Dogfish, too, which are invaluable to the mills and factories, for their oil, abound in these waters, and are hardly fished at all.

"Crofton as a lusty young town has every advantage of situation and nature"

Seattle men are at home to-day after a brief imprisonment at Harrison to see. The premier, it is said, will resolve the coast than this for cod. Dogfish, too, which are invaluable to the mills and factories, for their oil, abound in these waters, and are hardly fished at all.

"Crofton as a lusty young town has every advantage of situation and nature in the properties of the properties in the coast than the coast than the following the case.

Hon. Mr. Prentice, in addition to the grave responsibilities of administering all the departments of the capture responsibilities of administering all the departments of the capture responsibilities of administering all the departments of the capture responsibilities of administering all the departments of the capt and any persons violating in any way the said provisions will render themselves liable to the utmost penalty provided in Special attention is called to the accessity for the greatest caution being observed in the use of fire by settlers, campers and others during the dry summer months, and to the penal-ties imposed for violation of the provis-ions of the law in this regard.

These penalties vary from \$5 to \$200, besides any that may be imposed by civil action for damages caused by such fires.

disease can cause more severe and greadful pain than Gravel. Reuben Draper, of this place, was taken ill with this awful trouble about five years ago. He was cured and so many have asked him now it was done that he has decided to how it was done that he has decided to give the whole story for publication.

"About five years ago I was taken ill with the Grave!. I suffered great pain, so I sent for a doctor. He gave me some medicine and came to see me twice afterwards, but my disease was not gone, and in a short time I had another very had attack.

bag attack.
"This time I sent for another doctor with about the same results, only I was getting weaker all the time.

"Then a man advised me to try Dodd's

Bladder.
What has cured this gentleman and hundreds of other very bad cases should cure any one, and those who may be afflicted as Mr. Draper was should try Dodd's Kidney Pills.

Details Regarding the Drowning Accidents

in the Fraser River on Thurs-day Night. The News-Advertiser gives the following articulars of the drowning of two men in the Fraser river on Thursday, brief mention of which was made in last night's

"Two Indians canceling down the Middle Arm of the Fraser on Thursday evening discerned an upturand sisting boat, with a man clinging to its side, floating down the centre of the stream. Hastening to the rescue they found the man partially supporting himself on the floats of his fish net, which was lying in a tangled heap in the water, as if the boat had evidently capeised. The Indians succeeded in getting the man into their cance, and padding quickly ashore did their utmost to bring film round. The unfortunate felow was, however, in such a state of exhaustion that he was unable to speak articulately, and his efforts to make himself understood revive him, he did not the city shortly after midnight. At that time his identity was unknown, but Polleenan D. D. Melntosh and Detective Jackson, who chanced to view the corpse, recognized it as that of Fritz Fablen, a ship carpenter, who for some years has lived in the east end, near the water mad better send in their applications immediately and have a particular spot they would like to obtain for the purpose had better send in their applications in their applications in the research of the stand Detective Jackson, who chanced to view the corpse, recognized it as that of Fritz Fablen, a ship carpenter, who for some years has lived in the east end, near the was preparing to make a start when the action with the standing on the Fraser, and it is supposed that he was preparing to make a start when the action the proposed that he was preparing to make a start when the care and the special prizes are coming in in large unmbers, and those who exhibit foreign manufactured ware are charged a neerely nominal fee.

Tour-Hon, Mr. Prentice is the "Whole Thing." manufacturing and commercial centre. Here we have perhaps more of the raw material of which industries are built than is present in any other part of the coast. Few people think of Crofton as anything more than a mere smelter city, existing on a single industry. This the new town will certainly be, but with energy and enterprise there is every natural indication that the new town may become a great mining centre, and to mention but two more industries—a lumber of the soundary and Kootenay country are preparing a very warm reception for the mine minister.

mine ministor.

Hon. Mr. Wells is in the Kootenays and expected to reach Rossland to-day.

Hon. Mr. Eberts is in London deeply engrossed in the Tomey Homa case. It is regarded as unfortunate that his visit to the world's metropolis is timed to fall at a time which is regarded as the "silly live excellent timber. From the Cowichan valley alone enormous amounts have been cut—more indeed than most people have any conception of, the Victoria Lumber Company alone having been utilizing during the past four years nearly 500,000 feet a day. And yet there are still thousands of acres, nay, millions of acres, which have as yet been untouched by the axeman. Some persons will doubt whether much of it is worth cutting, but compare even the worst of it with the timber that remains down in Eastern Canada and in Michigan and other states which once boasted magnificent forests. To-day they are sawing with profit logs that we in our luxury of nature's bounty would not use on our skid-roads. We waste our opportunities because we think if we cannot get rich

of apples grown on trees originally from Layritz nursery; G. E. Wilkerson, \$10 for the best dozen and \$5 for the best half dozen blooms of cactus dahlias from plant secured from G. E. Wilkerson In this connection special mention might be made of a prize presented by the Lake of the Woods Milling Company, of Keewatin. The secretary received a that they had decided to offer a single prize of \$50 for the best home made bread made from their flour. Mr. Boggs is of the opinion that a special judge will have to be engaged for this class, and probably increased accommodation arranged for the large number of entries likely to follow the above announcement.

The American Oxford Down Record Association, with whom the secretary communicated, has also dealt very libe ally towards the Victoria exhibition, as will be seen by the following: \$30 in special prizes in the Oxford Down class, the money to be divided as follows: Best the money to be divided as follows: Best yearling ram, first prize \$8; second \$4; best yearling ewe, first prize \$6, second \$4; best pen of four lambs, of either sex, first prize \$6, second \$4. All stock competing for these prizes to be bred competing for these prizes to be bred and owned by the exhibitor in the province of British Columbia.

INTERESTING EXCURSION Arranged By Hudson's Bay Company and the C. P. N. for the North.

The Hudson's Bay Company have ar-The Hudson's Bay Company have arranged what promises to be a very interesting excursion in connection with the C. P. N. Company, The excursion-asts will leave here on the Princess Louise on Thursday, the 31st inst., and proceed to Port Essington, where the new river steamer Mount Royal will be awaiting them to carry them up the Skeena. The return journey will be made on the Princess May, which should reach Victoria about the 12th prox.

The excursionists will have a good reach Victoria about the 12th prox.

The excursionists will have a good opportunity of seeing the canneries along the coast in full operation, and if they so desire they will have a stop at Trout river, where the trout fishing is splendid, and also a day at Kitsilaas canyon—a beautiful district in which there are some rich mining properties. The attractive settlement at Nanschkinischt, Hazelton and other points will be visited.

The secenery along the Skeena river is in itself worth the trip, while being under the auspices of the Hudson's Bay Company and the C. P. N. is sure to be managed in the most satisfactory way.
