beginning Wednesday, Nov. 14th. Untrimmed hats from 25 cents up, dress hats \$1 to \$2.50. Wings and feathers at reduced prices. 13-15-17

#### A statement in a morning paper

announcing that the St. John Law School would open its first session on Monday evening next.

#### In the school room of St. David's

Presbyterian church this evening the Y. P. A. will hold its first meeting of the season. After a musical programme refreshments will be served.

#### The condition of Miss Ethel Guy

who is suffering with small-pox, is reported to be unchanged. Her case is a mild one and no serious results are anticipated.

#### The new Eastern Liner Governor

Cobb arrived in port this morning at eleven o'clock with a fair fresh wind and passenger list. The steamer had a rough passage down from Boston and Maine ports, but made excellent time.

### THE CALVIN AUSTIN

#### IN A BAD SMASH

### Ran Into the Wharf and Caused a Lot of Damage.

The Eastern Line steamer Calvin Austin, which sailed from here on Monday morning for Boston, had rather a serious time it at the wharf. The strong current, or something going wrong, resulted in the big passenger steamer plunging into the wharf cutting in deep, and it is said carrying nearly the entire wharf and warehouse away. It is said that the steamer was left a wreck when the wharf was backed away clear of it, and it will be some days before the wharf can be put in shape again.

The Governor Cobb, which arrived at Lunenburg early this morning, could not land freight there owing to the fact that the dock was so badly damaged. It was the Austin's last trip on this route for a time, as she was to go on the Boston-Portland route this week. It is not reported whether the steamer was badly damaged.

The local representatives of the company when asked stated that they have nothing to say on the matter, that it has not officially been reported here.

### UNUSED BARNS THE HAUNTS

#### OF BOYS AND GIRLS.

### Complaint Made of the Conduct of Young People on I. C. R. Property on Gilbert's Lane.

The complaint has been made by a prominent citizen that a number of barns in Gilbert's Lane, now the property of the I. C. R., are the resort of a crowd of young boys and girls. It is said that anywhere from twenty to thirty young fellows may be found there regularly in the evening, and on Sundays, indulging in all forms of amusement and in general making themselves a nuisance to the people in the vicinity. These barns are quite a distance out from the Gilbert's Lane crossing, and are in the direction of new roundhouse. They are not used for anything and will undoubtedly be torn down at some time or other when further extension to the yard facilities is required.

These boys are continually making a racket, shouting around the road and annoying passers-by. It is said that the police very seldom go out in this direction, and the lads, who appear to be forming in another tan yard gang, are practically undisturbed.

### BEATEN TO A STANDSTILL

Every business or professional man who has examined the methods of the Currie Business University, Ltd., will admit that you can learn more about business and commercial methods from this school than anyone can possibly tell you. Some may think that they can get just as valuable information elsewhere; but one week's trial of this school's methods has been sufficient to convince the most prejudiced college graduate or experienced office man that this school has all text-book and stereotyped systems beaten to a standstill. This institution secures its information from a higher and more intuitive source, namely, the expert. Its representatives are in consultation with the ablest business and professional experts almost daily.

### FUNERALS.

The funeral of William W. Wetmore took place this morning from his late residence, Exmouth street. The remains were taken to the cathedral by Mr. Raymond conducted the services.

The funeral of Nicholas Stevenson took place from his home at Golden Grove. The funeral service was conducted by Rev. Mr. Hoyt and interment was made in the Episcopal cemetery.

The funeral of Mrs. Strong took place this morning from Erin street. Service was conducted at the cathedral by Rev. Father O'Keefe. Interment was made in the new Catholic cemetery.

## NEW YORKERS BUY WEST GORE MINES

### Syndicate Secures Controlling Interest from Nova Scotians

### Local Stockholders Well Pleased With the Work Which is Being Done and Hope for Good Returns.

For some years the Dominion Antimony Company's property at West Gore, Hants county, N. S., has been in the stage of development. A considerable amount of money has been put into the mine by the owners, among whom are a number of prominent St. John men, and while there has been a certain amount of return the methods employed in extracting the minerals have not been such as gave what could be regarded as a reasonable profit. However, the directors were full of confidence that the mine was a very rich one, and persistently continued their efforts to find a suitable method of reducing the ore. Several new schemes were proposed, and at one time a Scottish expert was engaged, and with the assistance of one of the staff of Mt. Allison, reported on a plan which, however, it was found would prove rather costly.

Some two or three months ago, Alex. McNeil, of Halifax, who was largely interested in the mine, negotiated a deal whereby a New York syndicate obtained a controlling interest in the property. Mr. McNeil sold out the larger part of his own stock and the St. John shareholders and others in New Brunswick declined to part with what they had. This New York company has energetically gone about the work of development, and an expensive concentration plant is now in course of construction at West Gore, along with several houses for the foremen employed and a large boarding house for the laborers. It is strongly believed that the mine is a very rich one and the problem which heretofore confronted the management, that of extracting the minerals at a reasonable cost, has at last been solved.

### MAY SINK ANOTHER

#### CRIB TOMORROW

### Soundings on No. 3 Site Show That Only a Little Cleaning Up Has to be Done.

G. S. Mayes received the soundings taken at No. 3 crib site this morning. They were taken by Engineer Scamell, and are very satisfactory indeed. There are a few spots where the required depth was not found, but Mr. Mayes this morning stated that he was very well pleased with the results. He said that the spots named in the report were simply skipped.

The civic officials are also well satisfied with the work done on No. 3. Mr. Mayes is confident that any mud which remains on the site will be due out in an hour or two, providing that no more earth falls in from Union street.

The sinking of No. 3 crib will take place as soon as Contractor Clark receives orders. These will probably be forthcoming at once, as more earth is apt to slide into the site at any moment. The crib may thus be sunk tomorrow.

The Beaver will in all probability commence work at No. 4 site tomorrow. It is expected that No. 4 can be finished in at least eight days.

The Orange Pool and city dredges continue doing good work at Sand Point. The bucket, belonging to the Beaver, which was knocked off a scow on Saturday, has not yet been recovered.

### DEVELOPING THE

#### AROOSTOOK FALLS

### Contracts Have Been Given to Canadian Firms for the Heavy Machinery

The Maine and New Brunswick Electric Power Co., who are developing a water power at Aroostook Falls, N. B., have awarded contracts for the necessary equipment. The turbine plant will be built by the Jencks Machine Co., Sherbrooke, Que., and will be composed of two 800 horse power units each, consisting of a pair of special 21-inch cylinder gate crocker turbines, each pair mounted on a cast iron draft tube discharging centrally, set in concrete flume and running 600 r. p. m. under 72-inch head, developing 80 per cent. efficiency at full gate. The turbine runners are cast bronze and the construction throughout is of the most substantial character. One Lombard type "P" water-wheel governor will be attached to each unit. A steel penstock, six feet six inches in diameter by seventy-five feet long, conveys the water from forebay to each unit. Each unit will be direct connected to a generator, the order for which was placed with the General Electric Co., of Schenectady, N. Y. The headquarters of the Maine and New Brunswick Power Co. are at Presque Isle, Maine, and the order for the turbine plant was placed in Canada only after the most thorough investigation and comparison with the product of American turbine makers who were tendering.

### THIS EVENING.

Ellis Company at the Opera House. Lecture, entitled, "Ocean to Ocean," by Rev. D. Hutchinson, in Leinster St. Baptist church.

Farwell of Rev. D. Long in Victoria United Baptist church.

## Come Here For Overcoats

Wisdom always pays, but it pays better to be wise beforehand than afterward. Buying overcoats offers ways in which "ignorance may be bliss," but the later knowledge that the clothes are not as good as they looked, embitters the bliss of getting them at a cheap price. We combine high quality with a moderate, reasonable price, and we guarantee our overcoats to give satisfaction.
