

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

News Summary.

DOMINION.

—A Halifax paper says: J. L. Olive has been awarded the contract for erecting the Tabernacle church building. The contract price is \$7,249, and work will begin immediately.

—More than an ordinary number of moose are being killed in the province of Nova Scotia this fall. A hunting party in Queens county the other day killed three, one of which weighed 700 pounds dressed.

—The powder magazine at the Ford pit, Stellarton, N. S., exploded last Wednesday night. The shock is said to have been felt nearly all over Pictou county. At Stellarton station, a mile from the magazine, the shock was so great that the telegraph operator was thrown from his stool. Wonderful to say, there was no loss of life.

—Mr. MacDowell, M. P., is in Ottawa. He states that a short time ago a delegation from Dakota representing 300 people, visited Prince Albert, looking for land on which to settle. When they have made their selection they will have houses built the coming winter so that their families can move into them in the spring.

—It is reported that smallpox is spreading in Northern New Brunswick on the Quebec boundary. A second case has broken out at Dalhousie and at St. Moise, on the line of the International 75 miles above Campbellton, there are two cases. The Provincial Board of Health has taken action, and every necessary precaution is being exercised to prevent the spread of the disease.

—A Washington despatch says: Additional representations have been made to the Treasury department relative to the smuggling of opium over the Canadian border. The charge is made that over \$1,000,000 worth is annually brought into the United States from British Columbia, and that Chinamen are coming into the United States by the same route in droves. The precautions of the Treasury Department appear to have proved ineffective.

—A meeting of the Privy Council was held at Ottawa, on Tuesday, at the close of which it was announced that the Royal Commission to enquire into the management of the civil service promised by Premier Abbott during last session had been appointed. The members are George Hagne, manager of the Merchants bank, Montreal; E. Barbeau, manager of the Credit Foncier, Montreal; Judge Burdige, of the Exchequer court, and J. M. Courtney, Deputy Minister of Finance. The secretary is D. Matheson, chief of the money order branch of the Post Office Department.

—About two months ago, says the Montreal Star, John A. McCallum discovered a lead of gold quartz at Mount Lincoln, which has since proved to be a good find. Quite a quantity has been taken out since that time under the direction of Mr. McCallum, nine tons of which yielded about \$1,200 worth of gold. Mr. McCallum visited the place about thirteen years ago when he first started out prospecting, and has since travelled nearly all over Nova Scotia and New Brunswick, but has never met with as much success as has now crowned him upon his return to the starting place.

—Postmaster General Wananaker has written a letter to Postmaster General Haggart, at Ottawa, stating that the Louisiana Lottery Company is flooding the mails of the United States with circulars and tickets mailed at Toronto and Montreal. He states that the Treasury Department has decided that these lottery tickets are dutiable. He therefore suggests that the rules of the postal union, by which all letters suspected of containing dutiable matter are to be stamped at the mailing office, should be observed in relation to these letters, and which will insure them being opened at the office of destination in the presence of a customs officer, and if objectionable matter is found it can be destroyed.

—Frederick Gleason: Although nothing has as yet been made public several Frederictonians are actively employed in looking after a property in New York, known as the Logan estate, and valued at about \$100,000,000. It was settled by the Dutch, and the property has been held by lease for many years. Part of the property is occupied by one of the largest churches of the city, and the estate, which is large, covers the business part of New York. A lawyer has been employed here, and the proper steps are being taken. The number of heirs scattered over the United States and Maritime Provinces is fifty, and should their claim to the property be proved they will have the snug sum of \$2,000,000 each.

—At a meeting of the Presbyterian Council of Toronto, held last week, Rev. Dr. Parsons, pastor of Knox church, proposed as a subject for discussion, "The relation of church members towards organizations outside of the church." When asked to explain what he meant by organizations outside of the church, Dr. Parsons stated he meant all those who did not require their members to be members of an evangelical church. He said societies such as the Freemasons, Oddfellows, Foresters, and others of a similar character were formed with a grain of morality covering up a multitude of sins. He could not see how members of the church who gave themselves and all they had to Christ could consistently belong to the societies mentioned. The discussion of the subject proposed by Dr. Parsons will likely prove a warm one, as his ideas will, no doubt, meet strong opposition.

to the Straits of the Dardanelles would bring equally to Great Britain. In other words, Salisbury has publicly informed the Porte that if vessels of the Russian volunteer fleet are allowed to pass the Dardanelles Great Britain claims the same right for her "vindicator vessels."

—A despatch from St. Petersburg says the revolutionary secretary at Kieff is endeavoring to take advantage of the prevailing famine to excite a revolt. Scoury and typhus are raging in the wake of famine. The Novosti newspaper says famine prevails in thirteen different governments in Russia and that fourteen million persons are in great need of succor.

—Mexico is to have a trans-continental railway, which, it is claimed, will, when completed, furnish the necessary link in the shortest route between Australia and Europe. Palasada Bay, on the Pacific coast, will be the western terminus of the road, which will connect at the city of Mexico with the line already in operation to the Gulf of Mexico. —Montreal Star.

—Senator Bannoff estimates that 32,000,000 peasants in Russia are now destitute and must be provided for in the next six months. It will require 320,000,000 pounds of grain to feed them. The Americans in St. Petersburg have started a subscription list to relieve this mountain of misery. Prince Korsakoff, the head of a great family, lives on Kosonov road as an example for his servants and others to follow during the national affliction.

—A London despatch of Oct. 10 says: The Russian ambassador at Rome is making arrangements for the holding of an interview between the Marquis Di Rudini, the Italian premier, and M. De Giers, the Russian Minister of Foreign Affairs. The meeting of these high representatives of both countries is said to be held with a view of inducing the Italian government to modify the Crispioli policy, and not to go beyond the narrow limits of the Dreuband agreements.

—The policy of keeping Gibraltar completely isolated from the rest of Spain, which the Madrid papers advocate, would seem to be the very worst possible one to adopt by the British government. To isolate it is merely to make it more dependent upon Great Britain and to compel its people to maintain closer relations with the garrison and the British sailors in Gibraltar, and Spain is so wished to have no communications with Great Britain will hardly be induced to hand Gibraltar back by sentimental considerations, which are her only ones likely to appeal to her democratic monarch.

—Terrible storms have prevailed of late in Great Britain and Ireland, causing great damage to shipping and in some places to the stacked crops. A London despatch of October 15, says: London is being deluged with rain, being with fearful wind blast, shaken by thunder and started by flashes of most vivid lightning. Reports received from the Channel ports agree in saying that fearful weather is prevailing there. The St. James Gazette says: "Not within recent memory has such a terrific storm of rain, wind, and lightning, accompanied by such a heavy deluge of rain, been experienced in any part of the country and were it not that our houses are substantial, we might have to lament a disaster as terrible as that which attends the American cyclones."

—Another ten thousand barrel oil gusher has been struck in the McDonald field. The new well is on the Miller farm and fully one-half mile from the celebrated Greenwell and Forest wells, which is now doing 4,000 barrels a day.

—Benjamin A. Plimley has been sentenced to pay a fine of \$100 for the illegal sale of oleomargarine, and committed to goal. This is a test case, and involves the constitutionality of the act of the last Legislature, which prohibits the sale and export for sale of oleomargarine.

—A heavy earthquake was experienced at Napa, California, on Oct. 11, causing great excitement. Chimneys tumbled over and several buildings were shattered and badly shaken up. The State Insane Asylum patients became almost uncontrollable. It is reported the building was cracked and other damage done.

—The railway car stove must go. Railway companies in the State of New York have fought stoutly against the decree, but according to a recent decision of the supreme court of the state, the penalty for the stove is a fine of one thousand dollars and an additional fine of one hundred dollars a day as long as the law is violated.

—To dam Niagara has been considered one of the things which human skill could not accomplish, yet such is the means which Capt. J. S. Dunham, a well-known vessel man, would employ to procure deeper waterways on the great lakes. For several years the level of the water in the lakes has been steadily falling, and it is now fully two feet lower than it was eight or nine years ago. This steady fall in water has constantly tended to lessen the cargoes of the great lake boats, and they are now 5 to 10 per cent. less than they were half a dozen years ago.

—Albert Bushnell Hart, of Harvard University, contributes an article to the New England Magazine for November, in which he discusses the cause of the defeat of the Confederacy in the War. The nature of novel arguments are presented in his review of the situation, both before the shot of Fort Sumpter and after Lee's surrender. It is an article which is bound to interest both Northern and Southern readers, and is strictly judicial and impartial.

—Ladies who are suffering from suppressions, bearing down pains, nervousness, or any form of female weakness, will find Dr. Williams' Pink Pills are an infallible cure. Try them.

—K. D. C. A positive cure for dyspepsia. Send for free sample to K. D. C. Company, New Glasgow, N. S.

—Wm. McKelvie, machinist, New Glasgow, says: "I paid Dr. C. S. Sweet, of Boston, \$100 for six months' treatment for dyspepsia, besides cost of medicine. No cure. I then tried the late Dr. Cox Carpenter and the late Dr. O'Connor, all of Boston; was told I was past recovery; was induced to try K. D. C., have used four boxes; and have been well now nearly two years, can eat anything. I would advise dyspeptics to try it."

The Messenger and Visitor will be sent to New Subscribers from now till Jan. 1, 1893, for \$1.50.

RHINO.—At Brookfield, Queens Co., N. S., on the 1st inst., Bro. Jason Rhino, aged 88. Bro. Rhino suffered patiently for years, and in the full assurance of a happy hereafter. He leaves a wife and one young daughter to mourn their loss.

COLLY.—At Pleasant River, Queens Co., N. S., October 1st, Mrs. George Colly. She was supported during her long and severe illness by a calm faith in Christ, and resignation to the will of God, and was ready when the "Son of man" came.

WALLACE.—At East Port Medway, on the 6th of October, Miss Susan Wallace, aged 60, passed peacefully away. Her last illness was a brief one. The cause of her death was heart disease. She was an earnest Christian. She will be missed in the home from which she was taken and also in the Mill Village church, of which she was a member.

BALLEY.—Drowned while bathing at Mansfield, Mass., Sept. 25, Willie Balley, in the 20th year of his age. His body was brought home to his sorrow-stricken mother and two remaining brothers for interment at Westport, N. S. He was reserved but amiable, and was loved by all. The hope of meeting him in heaven takes away the keen smart of giving him up at such early years, and who so full of promise.

STONORAH.—At Margaretsville, N. S., Oct. 6, after a long and painful illness, Descon Anah Stonorah, aged 71 years. The Upper New Glasgow Baptist church, which held the deceased in high esteem, has lost a faithful deacon and strong supporter of the church. He leaves a widow, four sons and three daughters to mourn the loss of a kind husband and affectionate father. The bereaved have the prayers of the church and the heartfelt sympathy of the entire community. The religious services were conducted by his pastor, Rev. L. J. Tingley.

FOOD.—At Milton, Queens Co., N. S., on the 18th of August, of heart disease, Joseph Ford, in the 71st year of his age. Bro. Ford was an active man in the church, an earnest Christian and a true friend to the poor. Converted and

BREAKING UP OLD IDEAS.

MODERN METHODS are good enough for us. We do not resort to them until we know that they are right, and then we abandon old ideas without a murmur. The language of persuasion is not in our line. Our persuader is the largest possible value for the least possible money. We are selling our Clothing on terms that make it irresistible to purchasers. If you see it, you are sure to buy. The styles and prices do the whole thing, 2,000 pairs of Pants at half-price; but Overcoats is what you're looking after now. We start them at \$5.00 and run them up to \$15, with scores of prices in between. You want an Ulster. Well, you ought to have one; the winter's going to be cold, and they are cheaper than doctors' bills.

baptized when a lad of twenty he united with the Disciples. When Rev. Mr. Durkie was pastor he united with the Baptist church here. He has been a special friend to the young ministers. They will miss him now. We sympathize with the widow, who has lost a kind husband, and the children who miss an affectionate father.

—Seymour Thatcher, M. D., of Hermon, N. Y., says Wistar's Balsam of Wild Cherry cures a cough by loosening and cleansing the lungs and allaying irritation, thus removing the cause instead of drying up the cough and leaving the cause behind.

—The cranberry crop throughout the county was unusually large and of excellent quality this year and it was gathered in good condition. The price offered is not as high as in former years and cranberry growers are looking for new markets. It seems that England will in time prove a profitable place for marketing this berry. The London merchants that handle Nova Scotian produce say that the cranberry is very little known in England, and it is chiefly Americans resident there who buy cranberries. But if cranberries are sent to England the taste for them will soon develop, and thus a good market will be provided for this branch of Nova Scotian industry. —Kentville Chronicle.
