LAUNCHES, BOATS, YACHTS, TENDERS, DORIES. Price Low GANDY & ALLISON 16 North Wharf

FINANCIAL WORLD

A SLOW DECLINE IN THE STOCK MARKET

New York, July 28.—The reactionary tendency which has characterized operations in the stock market the latter part of the week was again displayed today, though to a lesser degree than on the preceding two days. The lines moved irregular in the early session, during which time there was several incipient bear raids. Opening prices were generally higher, gains in many cases being a point or more over yesterday's close. This was a natural sequence to the higher range for American securities in London, where less alarm seemed to be felt as to the outcome of the Moroccan negotiations. This better feeling was confirmed by International Bankers, whose advices from various continental sources were mostly by noon nearly over the apparently lessening of tension among the European powers was reflected chiefly in relaxation abroad. London's transactions here fell to a much smaller basis, purchases and sales evenly distributed. Conditions at home were virtually unchanged except that there was a greater degree of uncertainty over the political outlook, which was emphasized by the congressional steel inquiry in this city. In some quarters there is a disposition to attribute the markets present trend to this and other forms of political activity, which are such as to arrest financial projects of importance. New resolutions aiming at the investigation of corporations and uncertainty with respect to the tariff legislation are among the factors which are believed to act as a deterrent to market activity. On the other hand, confirmation of the report that the Vanderbilt lines contemplated financial unification of all the roads in that system accepted as proof that substantial banking interests are not especially apprehensive regarding the general situation. News of first steps toward reorganization of the American Tobacco Company in conformity with the Supreme Court interpretation of the anti-trust law roused only moderate interest here, as reason that no limitation was given to what plan of reorganization would be finally adopted. The preferred stock gained 2 points and the bonds improved slightly. The tone of the money market was somewhat stronger today, bearing out recent indications that the tendency was toward a moderately higher range. Rates for time loans are slightly above those of the end of last week. The recent change in the tone of the market is reasonable, in the light of an expected earlier movement of the crops this year, and in an increase in the demand for accommodation from financial interests and from the mercantile community. Bonds were steady. Total sales, par value, \$1,859,000. United States bonds were unchanged on call.

CLOSING COTTON LETTER.

By direct private wires to J. C. Mackintosh & Co. New York, July 28.—Market opened steady at advance of 5 points on July 17th, and was 18 points lower and other months from 4 to 8 points lower. The market was active and irregular after opening new low records for the season being made. There seemed to be no particular reason for the fresh start, but it was accounted for by the fact that the market had been practically reached and some of the people who were predicting 11 cents now consider the market at 11 cents a fair price. Weather reports are still of the most favorable nature and it cannot be denied that the crop is progressing brilliantly. However, Aug. and Sept. are usually months to be considered as far as crop is concerned and it might be prudent to act cautiously on either side of the market until we are a little further advanced.

JUDSON & CO.

Belding Silk Corticelli Paul 5 p. c. Debentures

Due 1st May, 1915. Denominations, \$20, \$100, \$200. Total issue bonds \$750,000 (£154,110). First mortgage on assets of \$1,604,500.
