MARKET UNEASY OVER THE FOREIGN  
SITUATION MUCH GROUND LOST

Several Bearish factors including failure of number of Industrials to declare dividends—Sterling firm and sharp rally in francs.

New York, Feb. 4.—A very considerable part of the recent recovery in prices was relinquished today, when reports again indicating danger of a rupture of relations between Washington and Berlin caused extreme declines of two to seven points in a wide variety of issues. The speculative element was disposed to draw unfavorable inferences from the situation, and sold extensively.

To this was added a substantial amount of long stock, or closing out of bullish commitments, trading being the largest of any day of the week, except Monday, when the January decline culminated. There were other bearish factors, including the firm attitude of the coal operators against the demands of the anthracite miners and the failure of certain expected industrial dividends to come to pass.

A few stocks, notably Crucible of the steel producers, trading being the largest of any day of the week, except Monday, when the January decline culminated. There were other bearish factors, including the firm attitude of the coal operators against the demands of the anthracite miners and the failure of certain expected industrial dividends to come to pass.

CLOSING LETTER OF  
N. Y. MARKET BY  
E. & C. RANDOLPH

(McDOUGALL & COWANS.)  
New York, Feb. 4.—Prices failed to recover much from the break of the morning caused by the unfavorable news from Berlin except in the case of Crucible which sold up to a new high record at 86 1/2. The selling movement continued throughout the day, and a report on the floor said to emanate from an Austrian official, that Germany's attitude was not at all as reported in the news from Amsterdam, failed to have any effect on prices. The technical position of the market is such as to make it very susceptible to unfavorable developments, and we believe that irregularity is to be looked for, for a time. Today's selling movement has created a short interest which will be a sustaining factor in the market. Fundamental business conditions remain excellent, and severe breaks are opportunities for purchases. The railroad stocks showed no great rallying power, and with the wage controversy ahead for the roads, anything more than temporary advances in their shares, can hardly be looked for. Sales 900,223. Bonds \$5,089,000. E. & C. RANDOLPH.

**Winter in the West Indies.**

Not for many years has it been so important to Canadian people of delicate health that they should board a "Royal Mail" ship at Halifax and make a six weeks' cruise to the British West Indies. Three days out from port and the prospect is that all traces of gripe and influenza will be forgotten. Why should they stay at home and suffer when they so easily can be cured? Note the cost of tickets from various points:

From Halifax a return ticket costs \$125.00 (Rail trip, St. John-Halifax, \$5.00 extra).  
From St. John a return ticket costs \$125.00 (Rail trip, St. John-Halifax, \$5.00 extra).

From Montreal a return ticket costs \$140.00.  
From Toronto a return ticket costs \$144.10.
