RAILS, SHIPPINGS AND MOTORS UP

Trading Marked by Moderate Dealings and Steady Advance Until Final Hour.

New York, Nov. 4.—Peace stocks had their inning again today, investment shares of various classes scoring substantial gains on Austria's capitulation and publication of the Allies' terms to that country.

Rails, shippings and motors, with occasional outbursts of activity in the oil group were the dominant features. Trading was characterized by moderate dealings, but an almost steady advance came in the last hour, when realizing for profits over tomorrow's holiday caused slight setbacks.

Gains among rails of the investment division ranged from 1 to 2½ points, the Harriman and Hill groups denoting absorption of an impressive character. Popular grangers, coalers and moderate priced issues of the western and southwestern sections were not far behind.

Atlantic Gulf featured the shippings, but Marine Preferred and minor issues such as American International and Pacific Mail were moderately active and firm.

Oils Active.

Oils manifested much of their recent activity and uncertainty, gains of 3 to 7 points in Mexican Petroleum, Royal Dutch, Texas Company and Panama Petroleum giving way to irregular impairment at the close.

Such issues as Baldwin Locomotive, Bethlehem Steel and New York Air Brake represented the heavy war stocks, while Industrial Alcohol's extreme break of almost five points and Sumatra Tobacco's decline of about 12 were believed to result from liquidation by professional investors. Sales amounted to 685,690 shares.

Bonds were strong on the largest turnover in many months, to which the new Liberty 4½'s contributed by sales of numerous blocks all at 95, railway bonds were 1 to 2 per cent. higher and Internationals, especially French municipals, made noteworthy gains.

Total sales (par value) aggregated \$17,010,000.

Old U. S. Bonds were unchanged on call.

PEACE STOCKS GAIN AGAIN

Southern Pacific Advances Within Fraction of Its Recent High—Sumatra Weak.

(McDougall & Cowans.)

New York, Nov. 4.—The leading peace stocks increased their gains in the afternoon with Southern Pacific advancing to within a fraction of its recent high and the shipping and motor stocks continuing strong. A number of individual advances were scored among low priced railroads. There was further weakness in Sumatra, and the remainder of the war group moved irregularly.

U. S. Steel rallied from the low of the afternoon. This stock continues to defy classification as a war or peace stock, and meanwhile moves only within a small range. Wall Street is awaiting an answer to the question of whether the Steel Corporation and the Steel Industry generally stand to lose more through the halt in the war programme than can be speedily recouped from a resumption of ordinary commercial uses of steel.

LOGGIEVILLE SETS THE PACE IN N. B.

Town Asked for \$100,000, But Has Already Made It \$190,000—The Flu.

Special to The Standard.

Loggieville, Nov. 4.—The Victory Loan campaign is receiving the hearty support of the citizens. The quota allotted to this town was \$100,000, and at first it seemed an extremely large amount, according to the population, in comparison with other towns many times its size, but the canvassers were not discouraged at the outset and went eagerly to work to accomplish their task, and on Saturday night it was made known that Loggieville was the third town in New Brunswick to receive the flag and the first to win a crown. Two more crowns have since been added to the above, the amount obtained being now in the vicinity of \$190,000, and from present indications it would look as though this town would double its quota.

Influenza continues to spread throughout the place. The afflicted homes seem to be exempt from quarantine, but the ban is still on all public gatherings.

SCOTIA STEEL.

Montreal, Nov. 4.—Nine months' results hold out the promise that Nova Scotia Steel and Coal Company, Limited will earn a surplus for the common stock of about \$2,500,000 for the year ending Dec. 31, or more than double last year's showing, for the common stock was \$1,260,477; that is, earnings should be equal to about 17 per cent. against \$4 per cent. in 1917.

Net profits of the company, after allowing for fixed charges, but before appropriations for taxes and depreciation, amounted to \$2,743,135 for the nine months ending Sept. 30. That compares favorably with \$2,316,591 for the full year 1917, when interest charges are allowed out, but not depreciation and taxes; that is, the company's net income was some \$400,000 larger in the nine months than in the twelve months of 1917, and would seem to indicate a full year's profit of \$3,000,000.

SCHOONER FLOATED.

Yarmouth, N. S., Nov. 4.—The tern schooner John A. Beckerman, which went ashore at Tusket, while bound from an American port to Halifax, with a cargo of coal, has been floated.

BEAVERBROOK BETTER.

Montreal, Nov. 4.—Lord Beaverbrook in a cable to M. E. Williams, yesterday, stated he was "doing nicely."

This is taken to dispose of some recent reports of an alarmist nature, having it that Lord Beaverbrook's condition is serious.

Are you giving Your Mind a Chance?

Many a man's mind is distracted by his health, when it ought to be centered upon his business.

Business and professional men and women usually exert their brains at the expense of their bodies. They are forced to neglect exercise. They often form bad habits in eating, sleeping, resting or playing. Hence, they easily form the worst habit of them all—constipation.

Constipation means infinitely more than mere failure of the bowels to act regularly and thoroughly. It means weakened or over-tired intestinal muscles. It means stagnation of the bowel contents, increased fermentation, putrefaction and germ action, and production of irritant and poisonous substances.

These are absorbed into the blood and carried all over the body, irritating the nerves, clouding the brain, hardening the arteries, raising the blood pressure, etc.

Nor can all this be cured or prevented by taking pills, castor oil, purgative mineral waters, salts, etc. all of which make matters worse instead of better.

But the Nujol Treatment for Constipation acts differently. It is both harmless and efficient.

Nujol helps Nature to re-establish easy, thorough, daily evacuation of the bowels—as regular as clockwork.

Nujol makes it easy for intestinal muscles to act.

Nujol prevents stagnation of bowel contents.

Nujol absorbs poisons and carries them out of the body.
