may be muscular or rheumatic. The points are hard to get at, and requires a powerful, penetrating remedy to reach the affect ed parts. Polson's Nerviline exactly meets the requirements, for it is both powerful and penetrating. The pain is expelled as it by magic, for one drop of Nerviline equals in strength five drops of other remedies. You won't often call the doctor if Nerviline is in the house. Price 25 cents.

It is a curious thing that nearly all treatment for cough actually makes the cough worse. Then, too, most medicines for cough have a bad effect in the stomach. This is especially true of so-called cough remedies that contain a narcotic. The true treatment for cough is one that heals the irritated surfaces. This is what Adamson's Botanic Cough Balsam does. It protects the throat also while the healing process is going on. When this remedy was first compounded our old men were young boys, and all this time it has been doing a steady work of healing throats. The most obstinate hacking cough will quickly show the effect of the Balsam. People who have been trying for years to break up the mean little cough, will find a sure friend in this old-time soothing compound made from the barks and gums of trees. All drugkists sell Adamson's Botanic Balsam. 25 cents.

is the key-note of a happy heart. Dr. Von Stan's Pineapple Tablets make and keep the stomach sweet, because they aid digestion and prevent ferment.

Stomach ferment induces Indigestion. Indigestion produces distress after eating, weight in the stomach, wind on the stomach, loss of appetite, dizziness, nausea, impoverished blood, catarrh of the stomach, sick headache and many other disorders—but Dr. Von Stan's pineapple tablets nip the trouble in the bud, and prevent the seating of diseases. One of the meanest things to get rid of is a hacking cough. There is apparently not cause for it. No soreness, no irritation at first; but the involuntarily effort of the muscles of the throat to get rid of something is almost constant. Of course, with many cough is a habit, but it is a bad habit, and should be stopped. When you realize this and try to stop it, you find you can't, for by this time there is an actual irritation, which will never get better without treatment.
