ROBINSON & RALSTON. GOLD 7-30 LOAN. A profitable and secure Investment

THE Worthern Pacific Railroad Companyoffers to the public an investment security which combines the ready negotiability, the conveni-ence, and the high credit of a first-class Railroad Bond, with the solidity and safety of a Real Estate Mortgage on Land worth at least twice the amount loaned.

Traffic. As officially reported, the gross earn

range of the present Pacific Railroad (Union and Contral) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 65 per cent, is from Local business, and, it is stated, fully 55 per cent, or nearly Nine and a Half Millions, are not over converting areas of the second Millions are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a dividend of more than 9½ per cent. on its total cost. With its great and unquestioned advantages in distance grades a limits and triadvantages in distance, grades, climate and tri-butary fertile country, the Northern Pacific is assured of a vast and profitable business from he outset, with a large increase for the future The Value of Land Grants. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is \$7.04 per acre—the highest average of any grant being \$13.98, and the lowest \$3.07. With few exceptions, the average selling price has steadily increased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable nave seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7.04 per acre, they will yield more than \$161,009 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant (\$3.07), they will produce more than \$70, 000 per mile. These facts regarding Pacific Railroad earnings, and the market value of Railroad Lands, as shown by actual sales to

settlers, show the three-fold security of North-ern Pacific Railroad Bonds. Construction. The road is now completed across Minnesota, (255 miles); work is progressing westward through Bakota, and 65 miles are under construction on the Pacific coast. Including purchased lines, the Northern Pacific Company now has under its management 575 miles of finished track. miles of finished track. Contracts are let for the construction of 635 miles more, to be finished before the close of 1872.

The 7-30 Gold Bonds. The first mortgage hands of this contracts are let for the construction of 635 miles more, to be finished. Ine 1-30 Gota Bonds. The first mortgage bonds of this company, which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features:

1. They are exempt from United States tax; the Principal and Interest are payable in gold—the principal in 30 years and the interest series. the principal in 30 years, and the interest semi-

the principal in 30 years, and the interest semi-annually at the rate of 73-10 per cent. per annum. Denominations, from \$100 to \$10,000. Present selling price—par-and accrued interest in United States currency at present rate of gold (100) these bonds yield 8 per cent gold interest.

2. The bonds are a first and only Mertgage on the Road, its Equipments and Eernings, and also on a Land Grant which on the completion of the Road will average 23,000 acres to each

of the Road will average 23,000 acres to each mile of track.

3. They are at all times receivable at 10 per cent, premium (1.10), in payment or exchange for the Company's Land at market prices—a provision which practically gives the holder the

provision which practically gives the holder the power of foreclosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bendhold rs. (Messrs. Jay Coeke and J. Edgar Thompson), as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payments of interest thereon if necessary.

Exchanging 5 20s. In view of the ability and Exchanging 5 20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond,—\$140,000,000 having been called in for cancellation since September 1st—many holders of 5-20s are exchanging them for Northern Pacifics, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third, All marketable stocks and bonds will be received at current prices in exchange for NOTICE

received at current prices in exchange for Northern Pacific Seven-Thirties without ex-NOTICE. PHILADELPHIA, NEW YORK, AND WASHINGTON,

NOTICE. Westmorland
GENTLEMEN,—
At the request of many friends in different sections of the County who believe that the affairs of the people of our Province have not been managed by the present Executive with proper regard to their importance, and that a system of stricter economy should be adopted in the administration of the Government, I shall be a candidate for the present vacancy in the representation of this County.

If elected I shall at all times give my utmost attention to the Local affairs of every section of the County and in every way further the interests of this my native County and the Province generally. Westmorland
