

# AYER'S PILLS,

FOR ALL THE PURPOSES OF A  
FAMILY PHYSIC.

THESE Pills have been prepared with a view to supply a more reliable, safer, and every way better aperient medicine than as hitherto been available to the American people. No cost or toil has been spared in bringing them to the state of perfection, which now, after some years of laborious investigation, is actually realized. Their every part and property has been carefully adjusted by experiment to produce the best effect which, in the present state of the medical sciences, it is possible to produce on the animal economy of man. When we consider that four-fifths of all the diseases incident to the human race actually require nothing in effectual purgative remedy to completely cure them in the beginning, we shall appreciate the utility of this invention; and when we further know by experience the ease and rapidity with which they may be arrested by these Pills, then, and not till then, can we estimate the magnitude of the benefits to be derived from their use. They are not presented to the world for a temporary run, but as the skillful embodiment of such virtues as shall give them a perennial popularity, and permanent place, among the great acknowledged remedies of this age. They will become the recourse to which men turn in affliction, and not in vain. Hence the expense, time, and assiduous toil have not been mispent in producing their unrivaled excellence; for it is a world-old maxim, that all beautiful and useful inventions are the fruits of a thousand labors and difficulties.

The subjoined communication is authenticated by some of the first statesmen in America, as well as other distinguished persons of high public position, who are known throughout the whole country, and whose opinions command respect wherever they are heard:—

After numerous trials of Dr. Ayer's Cathartic Pills, both under my own observation and under the immediate inspection of our eminent physicians in the city of Washington, I am convinced that they are an aperient medicine of unrivaled excellence. They have shown a remarkable control over the diseases for which they are designed, and in numerous cases effected cures, which conclusively prove their superiority over every purgative within our knowledge. An extensive trial of their virtues has convinced me that they must be adopted into general use, as the safest and best medicine of their kind which the people can employ in the many cases where such a medicine is required.

Z. D. GILMAN.

We the undersigned hereby certify that Dr. Z. D. Gilman is well known to us, and we concur in his opinion.

HON. THOS. H. BENTON,

MAJOR P. W. MARNES,

U. S. Army.

COL. D. R. McNAIR,

Sergeant-at-Arms U. S. Senate.

HON. J. C. RIVES,

Prop. "Globe," official org. of the American Congress

GEN'L ROBERT ARMSTRONG,

Prop. "Union," and Printer to the House of Representatives.

BEVERLY TUCKER,

Printer elect of the U. S. Senate.

JOHN W. MAURY,

Mayor of the City of Washington.

AS A DINNER PILL, this is both agreeable and useful. No Pill can be made more pleasant to take, and certainly none has been made more effectual to the purpose for which a dinner pill is employed. Persons of a bilious habit find great comfort from their occasional use, in small doses, after eating or drinking too freely. Many *bon vivants* and distinguished individuals have acknowledged these benefits; but we have not yet received authenticated certificates of this fact for publication, and hence must ask the public to take this on our own unsupported assertion, or else try them and see for themselves.

Being sugar wrapped, they are protected from deterioration, and, consequently, are more reliable in their effects, as well as perfectly agreeable to be taken.

PREPARED BY JAMES C. AYER, PRACTICAL AND ANALYTICAL CHEMIST, LOWELL, MASS.

Price 25 cents per Box. Five Boxes for \$1.

## AYER'S CHERRY PECTORAL,

For the rapid Cure of Coughs, Colds, Hoarseness, Bronchitis, Whooping Cough, Croup, Asthma, & Consumption.

This remedy has won for itself such notoriety from its cures of

every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of Croup, Croup, Hoarseness, &c.; and for CHILDREN, it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that the genuine article is sold by LANE & PANE, and W. PITKIN & SON, Rochester; DEMAREST & HOLMAN, Buffalo; and by all Druggists every where. November 1, 1854.—4t
