Mr. Paul Payette,  
Suite 505-506,  
414 St. James St.W.,  
Montreal.

Dear Sir:

The detailed geological examination of  
your acreage located in Stoney Indian Reserve No.  
142-B was started on July 3rd.

The instrument man whom I had employed, was  
recalled to his former position with one of the larger  
oil companies and it is now necessary to locate one  
to take his place. The work will be continued within  
a short time.

Yours respectfully

RVJ-N.
