As to my general policy - on that you will see my views as strengthened by experience. If you come across the new quarterly Science Progress, which has been set going chiefly by the physiologists at the University of London.

Probably you have heard all the news about my brother Percy. He was married last week to Doris Hayman, whom perhaps you know as running the girls' club at the settlement. Her father is a partner in an important exporting house which has a number of establishments in New Zealand. ~~Had been~~ The marriage had been already arranged, when Percy was unexpectedly appointed,
