

C 11013

August 25th, 1914.

The American Anti-Accident Association,
c/o Thomas D. West Esq.,
Manager, West Steel Foundry Co.,
Cleveland, O.

Gentlemen:

I am making a record of organizations, public and private, in the United States, engaged in the study of any of the relations of labor and industry. I am trying to discover for each organization, so far as possible, the following information:

- (1) Name, address, and date of establishment.
- (2) Purpose, and scope of activity.
- (3) Chief officers at present, particularly name of corresponding official.
- (4) Investigations now being made, and in whose charge.
- (5) Chief investigations already made, and by whom.

Some of this information you perhaps have in available printed form.

I should be very grateful to receive this information, or as much as you can supply, at your early convenience, and am

Yours very truly,

RFF/G.
