

Pollution of Water Supplies

and the means and measures necessary to be adopted in order to secure such amount of water so actually necessary, and thereupon the Lieutenant-Governor in Council may, by Order in Council, provide for, direct and enforce the doings of all acts and things, and the adoption and continuance of all means and measures necessary for the securing and the continued supply of such amount of water so actually necessary as aforesaid.

MANITOBA. Whenever the establishment of a public water
Sec. 28. supply or system of sewerage shall be contemplated by the council of any city, town or village municipality, it shall be the duty of the said council to place

itself in communication with the Provincial Board of Health and to submit to the said board before their adoption all plans in connection with said system.

(a) It shall be the duty of the Provincial Board of Health to report whether in its opinion the said system is calculated to meet the sanitary requirements of the inhabitants of said municipality, whether any of its provisions are likely to prove prejudicial to the health of any of the said inhabitants, together with any suggestions which it may deem advisable, and to cause copies of such report to be transmitted to the Minister of Agriculture and Immigration, to the inspector and to the clerk of the municipality.

(b) No sewer or connections of the same with houses or fixtures connected therewith or appliance for ventilation of the same shall be constructed in violation of any of the principles laid down by the Provincial Board of Health, provided that there may be an appeal from any decision of the Board of Health under this section to the Lieutenant-Governor in Council.
