What Is Your A hundred times a day Name? we ask the above question, only we say it like this:—"What is your name anyway?"

We believe you would do worse things than that if you got a string of names reported to you last year, as is indicated in

the first column below, and then got the names of the same people reported as indicated in the second column; and then got a whole lot of letters saying:-"If I don't get

Many of those of you who read this will laugh at the errors made as if you didn't make them yourselves. A greater number of these mistakes are made by people who don't think that they are making them.

Adopt a certain way in which to write your name all the time. Be sure to write it that way yourself every time and see that others do the same when you give them your name to write. Secretaries of Local Associations should be very careful not to use the nicknames of members. Won't you help us to get our mailing list in first class condition for 1910, by being more careful about how names are written? There are thousands of Boost Our Adhave something they want the readers of this paper to buy; there are thousands vertisers of things which readers of this paper now buy elsewhere or

don't buy at all which they might buy from those who advertise in The Grain Growers' Guide. Advertisers are glad to pay a fair price for space used to advertise their products if the advertising brings

them any business. DO YOU SEE THE POINT? When buying anything, buy that which is advertised in your own publication, and if you don't see what you want to buy, write a postal card to The Guide, stating what you want to buy, and we will see that reliable producers or handlers of that which you want to buy are given a chance to advertise their product in the paper. Do you see how you can help yourselves (your own paper) by turning your business in favor of those who are willing to do business with you by advertising in your paper? Don't forget this! Help during the present year to make The Grain Growers' Guide the greatest power in the solution of economic problems, and the greatest advertising medium in Western Canada. Advertisers will advertise in your paper if they can increase their business by so doing. Patronize those who advertise, and those whom you patronize will advertise.

> When writing to advertisers please mention that you saw their advertisements in The Grain Growers' Guide
