Farmers of Western Canada

The only way you can be sure of getting all you ought to realize for your grain is by shipping it in car lots to Fort William or Port Arthur, and having it handled by a reliable and experienced grain commission firm. We are not track buyers and do not own elevators, but we act as your agents and look after the grading of your grain, and dispose of it as your agents, always striving to do the best possible in every way for your interests.

The commission rates instituted several years ago by the Winnipeg Grain Exchange for handling grain in this market have recently been suspended, but an independent grain commission firm that does not buy your grain at a handsome margin of profit, but sells to realize for you the highest possible price, must make a definite charge for the services it renders, and therefore our charges for performing the same are a commission of 1 cent per bushel on wheat and flax, % cent per bushel on barley, and % cent per bushel on oats.

We make liberal advances on car shipping bills as soon as same are received, if shippers so desire; make prompt returns after sales are made, and always fornish our customers with the name and address of the buyers we sell to.

We solicit a continuance of the patronage we have enjoyed for so many years from western farmers. We invite you to write us for market prospects, shipping instructions and "Our Way of Doing Business." You will be sure to gain advantage and satiafaction thereby.

We are liceased by the Dominion Government. Our licease number this season is E. 55, and our bond to the government is for \$15,000.

THOMPSON, SONS & CO., Grain Commission Merchants 703-F Grain Exchange, Winnipeg, Canada

HAS MANY VICTIMS
but TEAMSTERS & HORSEOWNERS

especially Suffer from its annoyance

OOK at the above cut and notice how black the front of the hand is, and how the finger nails and joints on the back are ingrained with blackness that "won't come off." This hand is the hand of an ordinary white man who blackned his Harness with some of the "Dressing" sold for that purpose. The same man blackens his Harness now with

"HARNESS

and that is guaranteed not to blacken the hands, either when using or afterwards

It leaves a perfectly black surface, which is not sticky or greasy. It will go through the hardest leather and make it soft and pliable. Harness need not be washed, as "HARNESS LIFE" cuts all dirt off.

Sold in Winnipeg at 50c quart or \$2.00 per gallon
