McGrath, who was on his return from Palmerston when the fire broke out. A strange feature was that the fire started at the opposite end to where the engine was situated. At present the origin of the fire is a mystery. The loss is estimated to be \$1,500. No insurance.

Christian Endeavor.

The Christian Endeavor Society met in the Methodist church Tuesday night. The topic for the evening was "A Living Christ and Christ Living." Miss Charlotte Berry opened the subject with a very well prepared paper, and was heard with rapt attention. She handled the subject well and her reading was excellent. A number spoke to the question, while others read verses bearing on the topic. One member asked several questions but they were not answered unless some of the verses read were intended for answers. After the subject was thoroughly discussed, Mr. Millea, a colporteur of the Religious Tract Society gave a short address on the work of the society, after which a collection was taken up to assist the Society in its very commendable work. It would add very much to the interest of the meetings of the society if the president or some committee were prepared to answer such questions as might be asked by any of the members in the meeting, due care being to ask no questions except such as would be for the edification of all the young people, and also avoiding questions which might lead to division and argument.

There was a large attendance, nearly sixty, present. Mrs. Whiting is leader of next meeting.

COUNTY AND DISTRICT.

The negotiations which have been in progress for some time between Mr. Anderson of the Walkerton Chair factory and the citizens of Woodstock in connection with the Bank of Commerce have resulted in an arrangement being made by which Mr. Anderson takes charge of the James Hay Company's factory in the latter town. This will necessitate Mr. Anderson's removal from Walkerton and likely the closing of the factory.

Having had a long experience both in Canada and the United States, I am confident I can give satisfaction in every line of my trade. My most careful attention given to shoeing especially to horses with bad feet.
I also have a process and the tools for welding new steel plates on the cultivator teeth of Seed Drills, or I can sharpen the old ones (if they are not worn back too far) without drawing out the iron part, which leaves a solid steel point, the same as when new.
Charges low. Give me a call and be convinced.
