Victory Loan Sole Topic for Canadians During Next 10 Days

To This All Other Features of the War Must be Completely Subordinated.

The Victory Loan must monopolize the attention of Canadians during the next ten days. There will be lots of time after the campaign to speculate on the prospect of peace. In the meantime the call comes to all—"Carry on." The people in the rural districts especially should realize this.

Canadians at home must take their cue from Foch. When he says "Let up," they may be justified in doing so. But while the men are overseas the need for supplies will continue. Bear in mind also that Canada's war expense will not cease at the moment when the soldiers lay down their arms. A long time must elapse before the boys overseas can be brought back. Probably 450,000 of them have gone over, and good judges say that they cannot be brought home under 15 months. In the meantime they must be kept. It is also to be remembered that a large proportion of the Victory Loan money will go to finance the sale of Canadian products abroad. The farmer is dependent on it for the sale of his wheat, beef, pork, butter, cheese and eggs to Great Britain.

So if the Canadian Army is to be maintained, and the farmers, manufacturers, mechanics and business people generally are to be kept busy the \$500,000,000 wanted must be raised.

Victory Loan Promotes the Farmers' Interests

The Victory Loan and the Farm go together.

Canada's surplus farm products could not be sold without the Victory Loan.

If the surplus could not be sold, prices in the home market would go to pieces.

It is one thing to raise farm products, but it is another thing to sell them for cash.

A large proportion of Canadian farm products could not be sold for cash, if it were not for the Victory Loan.

The farmer who invests in Victory Bonds thus helps to protect his own business.

Liberty Loan Set Canadians High Mark

The United States did so well in the recent Fourth Liberty Loan campaign that Canada, in justice to herself, must do unusually well in the present drive, or she will suffer by the contrast.

The Americans started out with \$6,000,000,000 as their objective. They actually raised \$6,866,000,000. The number of subscribers is placed at 21,000,000, or about one for every five of the population.

To do as well as this Canada must raise over \$500,000,000. If she secures the same percentage of subscribers to the population, instead of having 1,000,000, she will have 1,900,000. As can readily be realized, Canadianians have their work cut out, but they are equal to it.

First Neighbour—"My daughter is very patriotic. She isn't going to play any more German music." Second Neighbour—"I'm afraid that won't help any. She will probably play something else in place of it."—Judge.

"Are you feeling the pulse of public opinion out your way?" "Not now," replied Senator Sorghum. "I'm going according to my own honest convictions. I have a pretty wise constituency. They know that when a man makes a show of feeling the public pulse he is in reality looking out for his own political health."—Washington Star.

"Do you understand the Russian situation?" "No," replied Senator Sorghum. "But that doesn't matter. Nobody else understands it sufficiently to prevent my assuming all kinds of superior knowledge, if I choose."—Washington Star.

KING KNIGHTS GEN. ALLENBY

London, Nov. 2.—To General E. H. H. Allenby, commander of the British Forces in Palestine, the King has sent the following message:

"I wish to express my admiration for the spirit and endurance of the troops under your command who, regardless of fatigue and hardships, have so pressed the retreating Turkish columns as to overcome all resistance. Their efforts have been deservedly rewarded by the complete surrender of the Turkish forces. This is a glorious and memorable achievement and on behalf of your grateful fellow-countrymen I thank you and all ranks of the Egyptian expeditionary force."

In recognition of your eminent services, I have much pleasure in promoting you to be a Knight of the Grand Cross of the Most Honorable Order of the Bath.

King George has sent the following telegram to Lieut. General Sir W. R. Marshall, commander of the British forces in Mesopotamia:

"I am delighted to hear that you have finished the campaign in Mesopotamia by the capture of the entire Turkish force on the Tigris, with its commander. In congratulating you and all ranks on this success, I wish to record my grateful appreciation of the part played by the Mesopotamian Expeditionary Force in the complete capitulation of the Turkish army."

Follow Nature's Plan Paint in the Fall

October is a good month in which to paint. All the pests of summer, such as flies, spiders, and dust have gone, and the mild heat of the sun in the autumn gives the paint time to properly cure on the sides of your house. Besides it's the natural thing to put on a protecting coat to turn the winter weather. But to paint right you must use the right paint.

G. V. PAINT

is what its name stands for—Good Value. It is a good quality paint at a reasonable price, and is used with satisfaction on all classes of buildings. It is the paint to use on your buildings.
