Waterdown Votes Dry by 160

The Referendum vote here last Monday was not as large as on some previous elections, but the results were about as had been expected, a two to one vote. The temperance workers were out early and worked hard until the polls closed, the wets meantime displaying little interest. Following is the result of the vote.

W. A. A. A. Items

The Basket ball game last Friday evening proved a hummer. It was the best and fastest game put up by the boys since they began playing. Hard close checking being the order of the night. One cannot pick an individual player to stand out more than another. Griffin, Newstedt, R. Willis as subs kept the game at fever pitch every time they took the floor. Vance while not in the best of condition put up his usual heady game getting his share of the baskets. Burns closely checked at all times managed to keep the score a notch or two in front. Playing Gordon on the defence the last half was a wise move by the boys, as Ashur sure did keep the opposition score down, while the "smiling bullet" Verne Willis had the large crowd standing on their heads with his criss-cross runs and flash-light movements.

A club dance for all members of the W. A. A. A. will be held on Friday evening of this week. All members are requested to be on hand to enjoy this social event. A good local orchestra has been engaged and a good time can be expected. A collection will be taken to defray the expenses.

Mr. Thadens Patten, Provincial and Dominion Land Surveyor of Little Current, Manitoulin Island, Ont., formerly of Waterdown and later of Carlisle, was the guest of Mr. and Mrs. A. Newell on Tuesday. Mr. Patten and Mr. Newell were close school chums at Carlisle in 1872 but have not met in over 40 years, consequently they had much to talk about as they called on several of their old school-mates in the village. In 1874 Mr. Patten attended the High school here, and many of his class-mates remember him as very apt pupil. He resided here in 1867-68, and remembers very distinctly the celebration of the first anniversary of Dominion Day, the callithumpians acting a very important part. Mr. Patten has performed many large surveying contracts for the Ontario and Dominion governments in the wilds of Northern Ontario and Northwest Territories. He intends returning again at no distant day and visit the scenes of his boyhood days at Carlisle and Progression.

Mr. R. S. Chaffe, who is attending the Toronto University, is home for a few holidays.
