Each week witnesses a material falling off in the registrations at Brockville chess board, notwithstanding the fact that the make at present is one of the heaviest in the history of this section. Thursday's figures showed 470 white, 1045 colored. There was a general tone of weakness and a corresponding disappointment to the players. The bidding opened at 8c and was advanced by one cent stages until 9c was reached. The first bid was made at that figure and refused. The buyers generally were content to clear the board at 9c but no further advances were made and an adjournment was made with no sales. The salesmen wanted Peterboro prices. A considerable number of boxes changed hands, after adjournment of the board, at the board price of 9c.

It is expected that the result of the departmental examinations will be announced during the second week in August. Permanent Muscular Strength

This is this to be borne in mind in these days when so many young men are giving so much attention to physical development, in gymnastic and athletic exercises, that there cannot be permanent muscular strength where there is not blood strength.

Hood's Sarsaparilla gives blood strength, promotes digestion and assimilation, and builds up the whole system.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic.

I was ill for four months with catarrh in the head and throat. Had a bad cough and raised blood. I had become discouraged when my husband bought a bottle of Hood's Sarsaparilla and persuaded me to try it. I advise all to take it. It has cured and built me up." Mrs. HOOD BROTHERS, West Lincoln, N. S.
