Woman Suffrage in New York.

The constitutional convention of the state of New York, held in 1871, adopted a session requiring the call of future conventions on the expiration of each period of twenty years.

At this convention measures of the highest importance to the state will be considered, but the questions of paramount importance to the state itself and to the Woman's Christian Temperance Union are the traffic in intoxicating liquors and the average shall be prohibited, and that women shall be fully enfranchised.

The Union Signal, of March 29th, states that "a great change of sentiment upon the question of woman suffrage is apparent, and is no doubt largely due to the fact that the republican league at Louisville, and the democratic convention in New York, both declared equal suffrage a subject worthy of serious consideration for the next platform of these two big parties."

The interest taken in this question by the women of New York city is evident from the following letter of Mrs Livermore's, published in the "Woman's Journal" of Boston:

"New York city has a new sensation and is puzzled over it. It has become accustomed to the woman suffrage movement as conducted by Mrs Stanton and Mrs Anthony, and has even ceased to oppose it."

But now that the agitation for the enfranchisement of women has penetrated into the fashionable circles, and has enlisted the co-operation of the upper society women, the astonishment of club men, society leaders, politicians and editors is immense.

The Herald tells the story in a three-column article, which publishes under the caption, "Eve pleads for the franchise—the makes a stir in Belgravia."

"Just where it when the divine contagion of an intense desire for justice at the hands of men was caught by fashionable women it is difficult to say, but the city papers announce positively that it has at last reached the top."

Meetings are held almost daily in the handsome parlors of well-known society women, and leaders of the frivolities of upper tenors are rushing around with petitions for equal suffrage to the New York Constitutional Convention which meets in Albany, May, 1894.

They expect to carry in a monster petition with one million signatures. It is a new crusade, and is being carried on with energy, interest and enthusiasm.

"If you can judge from the press reports and the talk of those interested, which deals just now mostly in superlatives, this upper class movement has aroused an interest in some very influential men who attend these meetings."

Not a few of these stand by the women. Rev. Dr. Kainford, Rabbi Gottheil, Wm. D. Howells, Frederick Conner, Bishop Potter, John D. Rockefeller, Dr. Morgan Dix, Robert G. Ingersoll, and a score more of like calibre and standing are among those who listen to the arguments of woman's enfranchisement as advanced by Mrs Calhoun Runkle, Dr. Mary Estlin Jacobs, (a long time suffragist) Miss Fields and others.

"Of course all the stock objections are brought out, and the society women are bombarded with them, just as all women suffragists have been. They are informed that "All the bad women will vote, and the good women stay at home," that "Ten ignorant to one intelligent vote will be cast at the polls if their movement succeeds," that Government rests on bullets and bayonets, and only they should vote who can fight," etc., ad nauseam. But the women reply ably, for there are very superior women in their ranks, and the enthusiasm grows daily.

"Taxation without representation is the shibboleth of this new awakening, and well it may be, for Mrs Almy, vice-president of the N. Y. State Woman Suffrage association, who has been examining the records, says that the women of the state of New York are paying taxes on 500 million dollars of property. The prospect of an income tax has also helped to stir the flame of their dissatisfaction with their subject condition, and has aided in arousing them to a demand for a voice in making the laws which dispose of them, their children and their property. Whether they are aware of it or not women's demand for legal equality, with men is in the air."

A letter from Miss Anthony tells of the great campaign in New York state she says:

"We are having tremendous audiences at the momentum gathers, and a larger and larger ratio of men as we go. I was the guest of relatives to the constitutional convention at Bath and Wolfville, and was introduced by the mayor at Olean and Dunkirk, and Duckrie, and by the Surrogate Judge at Buffalo."

A STRANGE EXPERIENCE.

An Interview with a well Known Brant County Lady.

Suffered for Two Years With Sick Headache, Dizziness and Dyspepsia—How She Found Relief—What Well-Known Chemists Say.

From the Brantford Expositor. Mrs S. W. Avery lives on Pleasant Ridge, about four miles out of the city of Brantford, that being her nearest post-office and where all her trading is done.

Mr and Mrs Avery have always lived in that neighborhood, and he is the owner of two splendid farms, the one where he lives consisting of 160 acres and the other lying near Brantford comprising 100 acres. They are highly respected residents of the community in which they reside, and every person for miles around knows them.

Having heard that Mrs Avery had been cured of chronic dyspepsia and indigestion, by the use of Dr Williams' Pink Pills, a reporter called there recently and asked if she was willing to make public the facts concerning the cure.

Mrs Avery replied that she had been benefited by the use of Pink Pills, and was perfectly willing to give her experience for the benefit of those who might be similarly suffering.

"For the past two years," said Mrs Avery, "I had been greatly troubled with a sick headache, dizziness, and a cough which I believe were the symptoms of dyspepsia and indigestion, and I could find nothing to relieve me although I tried several different medicines. I could not even find anything which would relieve my cough, which at times would be very severe."

Early last winter I read in the Expositor of Dr Williams' Pink Pills, and as the symptoms mentioned were somewhat similar to mine I was thus induced to try them. I procured a supply from Messrs McGregor & Merrill, druggists of Brantford. Before I had used two boxes of the Pink Pills I felt so much better and relieved from my distressing symptoms that I thought it would be best to continue taking them through the winter, and accordingly got another supply and used them with the result that I have been totally relieved. I have not once since had the severe headache which formerly made my life miserable and my cough has entirely disappeared. I strongly recommend Pink Pills to anyone who suffers similar to what I did, from dizziness, headache, indigestion, etc., and I believe they will derive great benefit from their use."

Mrs Avery's statement was corroborated by her husband, who was present during the interview, and who said that without a shadow of a doubt, Pink Pills had accomplished more for his wife than any other medicine which she had taken.

Messrs McGregor & Merrill were interviewed, and in reply to a query as to how they felt about the Pink Pills, they said: "We have sold in the neighborhood of 5,000 boxes during the past twelve months and there is no remedy we handle gives better satisfaction to our customers than Dr Williams' Pink Pills. I have every confidence that Pink Pills are the best on the market and something the people can depend upon."

"Mr Merrill, the other member of the well-known firm, said: "I have more pleasure in selling Pink Pills than any other medicine we handle, because it is rarely there is any disappointment in them, and the people who purchase them unhesitatingly express themselves as well satisfied. I am well acquainted with Mrs Avery and I know that all her statements are reliable, and I have watched the improvement Pink Pills have made in her case, and have seen a great change for the better. Many other druggists recommend some preparations, sometimes their own, to be equally as good as Pink Pills, but we cannot conscientiously say, so knowing that as a system tonic Dr Williams' Pink Pills stand unrivalled."

Dr Williams' Pink Pills are a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration, and tired feeling, etc., from the after effects of la grippe, diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions and are a specific for troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excess of any nature."

Dr Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper, (printed in red ink). Bear in mind that Dr Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you. The public are also cautioned against other so-called blood purifiers and nerve tonics, put up in similar form and intended to deceive. They are imitations whose makers hope to reap a pecuniary advantage from the wonderful reputation achieved by Dr Williams' Pink Pills.

Dr Williams' Pink Pills may be had of all druggists, or direct by mail from Dr Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y., at 50 cents a box, or six boxes, for \$2.50. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other courses of treatment.

Bright's Disease Again. William Langley tries Many Remedies for this Disease without Avail—Dodd's Kidney Pills, a Remedy that Never Failed, Cure Him.

London, May 21.—William Langley, of London South, contracted inflammation of the kidneys last fall, which developed into Bright's disease. As any man would, who was afflicted with this terrible disease, Mr Langley tried every remedy that could be suggested. His experience was the same as all others, he got no relief until he began using Dodd's Kidney Pills. Then a change set in, Mr Langley at once began to improve, and now he is cured. This is another case of Bright's disease, once considered incurable, that has succumbed to Dodd's Kidney Pills.
