As was stated some days ago, the supplies in the possession of Col. Pearson in his beleaguered post of Ekowe were supposed to be almost exhausted, and it was feared that he would have to choose between death by starvation or a desperate attempt to cut his way through the African to cut his way through the African forces which surrounded him. The effect of this new regulation will be that Canadian cattle, shipped from Canada able that are reinforcements can reach him he will have been destroyed, and that King Cetewayo will then attack and probably defeat the advancing regiments in detail. CAPETOWN, March 25.—A convoy of supbies proceeding from Derby in the Lon-dina district to Luneburg on the Pougol river, escorted by 104 men of the 80th Regiment, was attacked at daybreak on March 12th, on the banks of the Intombe river by 4,000 Zulus under Unibelini. The effect of this new regulation will be that Canadian cattle, shipped from Canada on any vessel which may have carried cattle from the United States within the prescribed time, will have to be alanghtered on arrival, just as if the ship had sailed from a United States port and the cattle had been of United States origin. This regulation, so long as it remains in force, will be as severe on the steamship owner as on the cattle dealer. Oil; and for many nights after retiring, I had te sit up in-bed, my sufferings being intense, while the Cough was so severe that the bed-clothing would be wet and satu-rated with perspiration. My wife hearing of your Eclectric Oil, sent to Madison Co.. N.Y., for a bottle of it, but I had taken so much medicine without benefit, that I had no confidence in drugs, and so for some time it lay without being tried. At last my wife insisted on my using it, and I was persuaded to do so. The first dose relieved me considerably, and I continued taking it in small doses for a few days. I took two bottles in all, which effected a complete and perfect oure, as I have not had any attack now for nearly a year. I have recommended Judge Dundy, of Omaha, has granted a writ of *habeas corpus* directed to Gen. Crook, commanding him to show cause why he held the Ponca Indians prisoners at Fort Omaha. These Indians were arrested Fort Omana. These Indians were arrested under an order from Washington to be re-turned to Indian Territory, whence they fled to save their lives on account of sick-ness. They were at work on the Omaha agency at farming, and say they don't want to live on the Guarament but don't now for nearly a year. I have recommended the Eclectric Oil since to many friends who to live on the Government, but desire to support themselves. The legal fraternity have been benefitted by it in a remarkable degree, and all speak highly of it as a medi-cine. I can recommend it myself truth-fully, as I know of no other medicine that will cure the Asthma but your Eclectric regard it as a most important case, and think the result, if successful, will force a change in the Government's Indian policy. Gen. Crook has telegraphed to Washington for instructions.

LONDON, April 8.—A terrible accident, attended with fatal consequences, occurred at Arthur's saw mill, near the village of Lambeth (or the Junction), in the town-ship of Westminster, between one and two o'clock yesterday afternoon. In a moment afterwards he was brought into contact with a large circular saw, and had his left leg completely sawn in twain from the ankle to the hip joint. In his efforts to free himself his hip be-came dislocated, and in an instant after-terwards his back was caught in the death-dealing machine, and lacerated in a ter-rible manner. The machinery was stopped as soon as possible, but by that time poor Duncan was all but sawn in pieces. The remains were conveyed to a house near by, and medical aid summoned.
