Judge Wilkinson 90 Years Old Hon. William Wilkinson, retired Judge of the County Court, celebrated his ninetieth birthday on Friday last at his home in Bushville. Since he retired from the bench in 1905 at the age of 79, Judge Wilkinson has retained his interest in law in an advisory capacity and his faculties are as bright and undimmed as ever. It is now seventy-four years since Judge Wilkinson first began the study of law when a lad of sixteen, and he was admitted to the bar seven years later, in 1849, so that he has been a member of the New Brunswick Bar and Bench for sixty seven years.

Besides nearly twenty five years on the circuit bench Judge Wilkinson served from 1851 until 1870 as Surrogate Judge of Probate for the County of Northumberland, and in 1877 he was named Surrogate of the Vice Admiralty Court of the Province of New Brunswick. Judge Wilkinson has always enjoyed good health, and it is said that he has not been sick a day in his life, a condition due largely to his regular and abstemious habits. He is the oldest member of the legal fraternity in New Brunswick, if not in Canada.

Judge Wilkinson's many friends hope he may reach the century mark and judging from the present state of his health, that happy event is very probable. There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the Mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

The Acute Pain From Neuralgia

Permanently Cured Through the Use of Dr. Williams' Pink Pills.

A clever medical writer has said that "Neuralgia is a cry from the nerves for better blood." In other words, neuralgia is not a disease—it is only a symptom, but a very painful one. Neuralgia is the surest sign that your blood is weak, watery and impure, and that your nerves are literally starving. Bad blood is the one cause—rich, red blood the only cure. This gives you the real reason why Dr. Williams' Pink Pills cure neuralgia. They are the only medicine that contains in correct proportions the elements needed to make rich, red blood. This new, rich blood reaches the root of the trouble, soothes the jangled nerves, drives away the nagging, stabbing pain, and braces up your health in other ways as well. In proof of these statements, Mrs. A. T. Oulton, Little Shemogue, N. B., says:—"A few years ago my mother was an intense sufferer from neuralgia, which was located in her face, head and shoulders. The pain, especially in her head, was intense. She doctored for some time without getting relief and there seemed to be no ceasing of the pain whatever. Instead it seemed to be extending and her whole nervous system became affected. Finally she decided to try Dr. Williams' Pink Pills. After taking them for a while the pain in her head became less severe, and of course, this was a great relief to her. Under the continued use of the Pills she felt herself growing better and stronger each day until she was no longer a sufferer and was completely cured, and has felt no symptoms of the trouble since."

FRANCE HAS LOST 2,500,000

M. Louquet, a French Socialist deputy, who addressed the French Labor Conference recently, on being questioned regarding the French losses said that 800,000 soldiers had been killed, 1,400,000 had been wounded and that 300,000 were prisoners.

Good for the Present Case

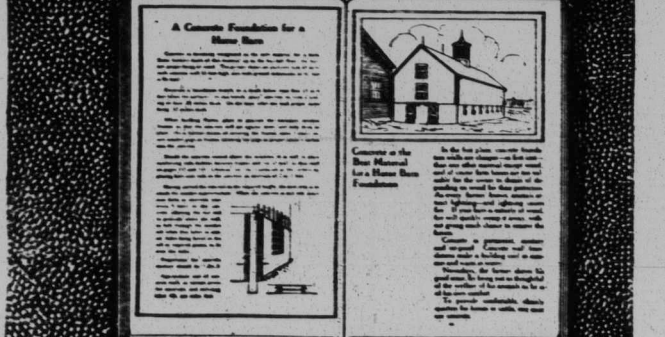

"With malice towards none, with charity for all, with firmness in the right, as God gives us to see the right, let us finish the work we are in, to bind up the nation's wounds, to care for him who shall have borne the battle, and for his widow and his orphan, to do all which may achieve and cherish a just and a lasting peace among ourselves and with all nations."—Abraham Lincoln.

Insects Have Good Organization Naturalists recently returned from Ceylon have reported the existence of a species of ant that has been observed in the act of sewing two leaves together for the purpose of making a nest. This report confirms the observations of the English naturalist Ridley, made in 1890. They saw a row of the insects pulling the edges of the leaves together, then others trimming and fitting the edges, and, finally, the completion of the work by still other ants, which fastened the edges with a silky thread yielded by larvae of the same species.
