THE ALDINE,

An Illustrated Monthly Journal, universally admitted to be the Handsonset Periodication the World. A Representative and Champion of American Taste to the Formal in Book or New Stores.

THE ALDINE, while issued with all regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos, besides.

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last Fall, when THE ALDINE assumed its present noble proportions and representative character, the edition has more than doubled during the year; preving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to de-

nounce designs from many of the most eminent artists of America.

In addition, THE AI DINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general interest; avoiding such as have occome familiar, through thotographs or copies of any kind.

The quarterly tinted plates, for 1873 will reproduce four of John S. Davis unimitable child-sketches appropriate to the four seasons: These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously illustrated "Christmas" number will be contuned.
