CONTRACTS ARE AWARDED FOR \$3,000,000 WORTH OF SUPPLIES

W. R. Clarke, President of Alberta and Great Waterways Line Announces the Result of His Trip East.

COMPLETE CONSTRUCTION OF FIT TO BE HERE IN FEW WEEKS

The Aim of the Company is to Have 200 Miles of the Line Completed During the Coming Summer.

Three Survey Parties and Two Reconnaissance Parties Are Now on the Proposed Line—Another Party is Now Being Organized—New Engineer, F. S. Darling, Late of the C.P.R. is Expected in the City This Afternoon.

Contracts for supplies for the Alberta and Great Waterways railway totaling in amount to upwards of three million dollars have been awarded during the past few weeks by the president of the company, W. R. Clarke, who arrived in the city on Tuesday from the East. This was the information handed out to the Bulletin by the president of the company, W. R. Clarke, who arrived in the city on Tuesday from the East. This was the information handed out to the Bulletin by the president of the company, W. R. Clarke, who arrived in the city on Tuesday from the East.

The contracts include 40,000 tons of fifty-six pound steel rails awarded to the Algoma Steel Co., one of the largest steel concerns in Canada; bolts from the Toronto Bolt Co.; spikes from the Rock Island Mills; Montreal and fish plates and angle bars from the Nova Scotia Steel and Coal Co. The steel will be sufficient to cover the entire line to Fort McMurray.

In addition to the above contracts, a construction outfit has been purchased, consisting of steel shovels, box cars, locomotives and other equipment. It will arrive in the course of the next few days and will be ready for operations in the early spring.

As announced some time ago, the tie, bridge and culvert timber and post contracts have been awarded to the McIntosh Lumber Co., and A. T. Walker, of Lamont.

200 Miles Next Summer. The one object that I have had in view during the past few weeks," said Mr. Clarke, "is to have two hundred miles of the railway completed during next summer. At the present time I see no reason why this much of the line will not be completed before next fall.

"We will put every fifteen miles of the line in operation as it is finished so there will be a large part of this roadbed in operation next summer."

New Engineer Coming. The new engineer, F. S. Darling, of Toronto, who will have charge mainly of the construction work, is expected to arrive in the city this afternoon. Mr. Darling has for the past seven years been in the employ of the C. P. R. and is recognized as one of the leading men of his line in Eastern Canada. With the chief engineer, Dr. Waddell, and the assistant, Cecil Goddard, the company will have an engineering staff composed of men of the highest ability in railway construction.

Survey Parties at Work. There are now three survey parties at work on the line between Edmonton and Fort McMurray. A fourth is being organized and will be sent out in the course of a few days. In addition to these there are also two reconnaissance or preliminary parties at work.

Asked as to the location of the line in the vicinity of Lac La Biche, Mr. Clarke said he was not as yet in a position to make an announcement. As the time for calling for tenders for grading drew near the survey parties would make their reports and the location will depend upon the conditions that they find in their survey.

Dr. Waddell Now Out. Dr. Waddell, the chief engineer, is now out on the line in the vicinity of Lac La Biche, and will not be back for some days.

"Though I would like to see him as soon as possible I do not want to hurry him in," said Mr. Clarke, "for my object is to get the surveying work rushed on as quickly as we can in order to attain our object of 200 miles of line finished next summer."

Timber Trouble Settled. The trouble with reference to the timber contracts has been settled satisfactorily. The trouble arose over the Dominion government insisting that the contractors cut over the timber area allotted and this necessitated the using of spruce for ties. To this the company objected, but later it was decided to use them on part of the line.

"Our whole object that I have had in view during the past few weeks," said Mr. Clarke, "is to have two hundred miles of the railway completed during next summer. At the present time I see no reason why this much of the line will not be completed before next fall.

"We will put every fifteen miles of the line in operation as it is finished so there will be a large part of this roadbed in operation next summer."

PARIS THREATENED BY THIRD FLOOD GREATER THAN FIRST

Tempests Have Swept Every Part of France Creating Havoc to Shipping, and Other Interests—Seine Has Risen and Flooded Various Suburbs of Paris—Agricultural Districts Riser Great Damage.

Paris, February 16.—Tempests today swept every part of France, doing tremendous havoc and cutting off many parts of the country from communication with the world. The west, north and south coasts being swept by blizzards, shipping suffered heavily. Paris is threatened with a third flood, which may exceed the seriousness of the first flood. Lyons and Turen are threatened with inundations, and a large part of these cities are under water as a result of the flood. The Seine, which has risen steadily, is threatening the city. The Marne is rising steadily. In the department of Champagne, the country has been turned into a lake for miles. The rise of the Seine today resulted in the re-flooding of Auteville and troops drove out the inhabitants. Railroad traffic is at a standstill in the major part of the nation's transportation system. A few wires are left in working order. By heroic work the telegraph system in connection with Switzerland was partially re-established today. All messages from Paris have to be sent by roundabout routes.

THE KAISER ORDERED HOLLAND TO FORTIFY

Baron Von Heckeren Says Emperor William Insists on Fortifying Certain Points Against Britain or He Would Do So.

The Hague, Feb. 15.—Baron Von Heckeren, sent his promised statement to the Senate today in regard to his charge that Emperor William of Germany had told Holland that if she did not fortify certain points against Great Britain he (the Kaiser) would be compelled to do so. It will be recalled that when Baron Von Heckeren made the statement about a "neighboring sovereigns having threatened Holland in regard to her military preparedness against Great Britain, the foreign minister demanded specific proof. Later Dr. Van Swinderen, the foreign secretary, denied absolutely that "Queen Wilhelmina had ever received a threatening communication from the Kaiser." In his letter to the Senate today Baron Von Heckeren says he received the information from Dr. Kruper, the former prime minister. He says he frequently discussed them.

SEED GRAIN DISTRIBUTION

Will Only be Sent to Those Burned Out by Prairie Fires.

Winnipeg, Feb. 15.—The statement was authorized this morning that the Dominion government will not distribute seed grain this year, except to persons living on unpatented lands, as in the case of Archbishop McTear, who was burned out by prairie fires in 1907. The reason given is that there was practically no frost last year, and that few settlers are suffering.

TO INVESTIGATE CHARGES

Montreal, Feb. 15.—Justice Lavigne this morning decided that the commissioner should be sent to Grand Forks, N. D., to hear the evidence there in the case of Archbishop McTear, who is held in Montreal for extradition. McTear is charged with having obtained \$1,000 by false pretenses from Hatcher Bros., bankers of Grand Forks. The name of Judge Choquet is suggested for the post of special commissioner.

MONTREAL POLICEMAN SUSPENDED

Montreal, Feb. 15.—Mayor Guerin suspended Constable Pelletier from the police force on the allegation made by two affidavits presented to him accusing the policeman of having in February last taken women to the police station of St. Jean Baptiste ward in order to impregnate other women who were entitled to vote in the municipal election.

FEL' FROM BRIDGE AND WAS KILLED

Montreal, N.B., Feb. 15.—John G. Gibson, who fell from the new span of the Fredericton-St. John's highway bridge this afternoon, was killed. The bridge was under construction and the man was on the scaffolding. This makes three deaths in one family within three weeks.

TRAGIC CLIMAX TO HEATED QUARREL

Mulatto Attempts Murder Then Suicide in House of Ill-Repute on Queen's Avenue.

R. S. McCormick (mulatto), dead, and a French-Canadian woman who assumed the name of Mrs. McCormick, lying at the point of death, is the result of a quarrel which ended in a tragedy Sunday afternoon at 4:15 o'clock at 408 Queen's Avenue.

DESTROYER'S TUBES WERE NOT PLUGGED

Commander of Torpedo Boat Destroyer, Hopkins, Declares Story of Tubes Being Plugged by Wreckers, Thus Causing Explosion, is an Absurd One.

Los Angeles, Calif., Feb. 15.—Lieut. Frederick, who is in command of the U. S. torpedo boat destroyer, Hopkins, today put an end to the rumors that yesterday's explosion aboard the vessel was due to foul play by stating that it was absolutely impossible that there could have been any tampering with the boiler's tubes by wreckers. While unwilling to undertake to make any explanation of the explosion, he said that the fact that the boiler is now under investigation by a naval board of inquiry, Lieut. Frederick was not disposed to accept the story telegraphed from Vallejo Monday night as a means of shifting the blame for the explosion to the crew of the vessel.

THEY BORE WITNESS AGAINST THEMSELVES

E. M. MacDonald in the House of Commons Effectively Quotes Baron Von Heckeren's Statement and Shows His Attitude Has Completely Changed in Reference to a Canadian Navy.

Ottawa, Oct. 16.—R. L. Borden and Hon. Geo. E. Foster again bore unwilling evidence in the Commons today to the wisdom and soundness of the government's naval policy. They repeated and explicit public declarations of the past nine months, and their own statements in the House of Commons, and their previous stand in opposition to the outgoing principle of a policy of tribute by way of direct contribution, were quoted with compelling effectiveness by E. M. MacDonald, who resumed the debate on the account of the naval bill, in a vigorous and convincing speech covering thoroughly the arguments in favor of the government's policy, and pointing out the anomalous and illogical stand taken by the opposition.

JOHNSON SPOKE FOR AN HOUR AND A HALF

Winnipeg West Representative in Manitoba Legislature Rakes Government For and Aft in Speech of Tribute by Way of Direct Contribution—The Opposition Doing the Talking.

Winnipeg, Feb. 15.—Fighting speeches by Dr. J. W. Armstrong, of Gladstone, and John Williams, of Arthur, were heard in the assembly today. Dr. Armstrong, who was the first to speak, made a speech of tribute by way of direct contribution, and pointed out the anomalous and illogical stand taken by the opposition.

McCORMICK HAD NO MONEY

McCormick seemed to have very little money, and it is probable he had the money in his pocket when he committed the deed. His deposit had been drawn from the bank on Saturday, and was a very small amount. He had been out of the city for some days and had returned on Saturday.

LITTLE EVIDENCE OF STRUGGLE

A small terror was the only occupant of the house when the police arrived and a jug of milk had been knocked off the table. No other marks of a struggle were in evidence, and it appeared as if the shooting was an immediate result of a heated argument.

LADY SYBIL ELECTIONEERING

Earl Grey's Daughter Arrives in New York From Britain.

New York, N. Y., Feb. 15.—Lady Sybil Grey, daughter of Earl Grey, Governor-General of Canada, was on arrival today by the White Star liner Baltic, accompanied by Lady Aileen Roberts, daughter of Field Marshal Lord Roberts.

ACTRESS BECOMES DOWAGER

Irish Baroness Takes for Wife Irene Desmond, Actress.

London, Feb. 15.—By falling in love with pretty Irene Desmond, Sir Richard Williams Lewis, very much disturbed the expectations of his brother, the Hon. Reginald Augustus Lewis, of succeeding to the ancient peerage of the Earl of Lonsdale, Tuesday afternoon, at St. George's church, Hanover Square, Sir Richard has not only made an actress his wife, but has elevated a very charming woman to the position of dowager. Sir Richard, who is the tenth baronet of the name, is 62 years of age, and succeeded to the baronetcy ten years ago.

MURDER MYSTERY STILL UNSOLVED

Peter and Alixan Gladue Freed From Charge of Killing Redbird, Treaty Ind. an.

After four months' imprisonment at Fort Saskatchewan, Peter and Alixan Gladue, of Beaver Lake, are free men. On the conclusion of the evidence for the prosecution in the Redbird murder case Wednesday, M. Justice Harvey, with the consent of the prosecuting attorney, withdrew the case from the jury and dismissed the prisoners on the ground that insufficient evidence had been adduced by the prosecution for their conviction. The evidence of James Spencer, Sgt. Nicholson, Duffie Bushie, Albert Bushie, Use-Paci, Joseph, Two Bows and Michael Lameman, taken yesterday, was all of a vague, circumstantial nature, and did not strongly indicate the guilt of the accused.

LORDS WILL THROW OUT THE VETO ABOLITION

Wm. T. Stead Sees Another General Election in Great Britain as the Horizon as Early as June and Not Earlier Than Autumn—No Other Solution.

By Wm. T. Stead.

London, Feb. 15.—The political situation since John Redmond's speech is critical and exciting. Redmond's position is simple. The revolt of Wm. O'Brien, Timothy Healy is backed by a large section of the Irish, and opinion that Redmond fears the next election might destroy him and put O'Brien in his place. Hence Redmond's menacing attitude towards Premier Asquith, whom he suspects of a readiness to compromise by accepting the Lord's surrender of the fiscal veto.

NEW ELEMENT DISCOVERED

Mme. Curie, Discoverer of Radium, Obtains Infinite Particle of Polonium.

Berlin, Feb. 15.—Mme. Curie, who with her husband, the late Prof. Curie discovered radium, has been successful in research work in connection with polonium, an element which is described as 5,000 times rarer than radium. She has succeeded in obtaining a tenth of a milligram of the new element. She states that it possesses a radio-activity superior to radium. As against this, however, radium conserves its energy for an indefinite period, whereas polonium disappears rapidly.

McCORMICK FOUND DYING

Two members of the city police were quickly on the scene and one constable heard the house and found McCormick lying in a pool of blood with a revolver at his side.
