his western history in the early  
years. He was 82 years old.

### C.P.R. TAXATION CASE CONCLUDED

PRIVY COUNCIL RESERVES DECISION IN MAIN CASE INVOLVING MANY MILLIONS.

(From Saturday's Daily.)  
A cablegram received yesterday by C. W. Cross, ex-attorney general, from Sydney B. Woods, ex-deputy attorney general for the province, who was retained by the government to plead the case of the province against the C.P.R. before the privy council in London, states that the argument in both cases has been submitted, and that the privy council has rendered an adverse decision in the survey case, in which three million dollars was involved, and reserved judgment in the main case, involving many million dollars, and estimated between twenty and thirty millions.

The reserving of judgment in the case is held to indicate that the province's claim is being very seriously considered by the court, and officials of the departments of the government interested are hopeful that a favorable decision will be rendered.

Not only is the province of Alberta interested in the decision, but the province of Saskatchewan as well, the latter having entered the case when it came up last June.

Both the cases centre round the claim of the province of Alberta and C.P.R. lands granted to the railway company by the Parliament of Canada in 1881, are now taxable, the province's contention being that the twenty-year exemption from taxation, given when the lands were granted, extends from the date of the survey of the land, and not from the date of the securing of patent to the lands by the railway company.

The province's claim includes a claim for all arrears in taxes as well.

**EUCARISTIC CONGRESS ECHO**  
Senator Landry Moves For Correspondence Relative to Guard of Honor.

Ottawa, Nov. 24.—In the Senate today, Senator Landry moved for copies of all orders-in-council and all correspondence concerning the guard and escort of honor applied for in August and September last on the occasion of the visit to Quebec and Montreal of the Hon. J. M. Macdonald, Minister of the Interior.

Sir Richard Cartwright said he had no objection to the motion, but Senator Landry's motion and said he certainly would not have done so if its purpose was that alleged by the Minister of Marine in the Commons, who had charged him with having attempted to raise racial and religious political horses by means of this motion. It would be time enough to criticize the action of the author after the information had been given.

Sir Mackenzie Bowell seconded Senator Landry's motion and said he certainly would not have done so if its purpose was that alleged by the Minister of Marine in the Commons, who had charged him with having attempted to raise racial and religious political horses by means of this motion. It would be time enough to criticize the action of the author after the information had been given.

**ACTION AGAINST ELEVATORS.**  
Warehouse Commissioner Proceeds Against Fort William Elevators.

Fort William, Nov. 29.—Action has been taken against several elevator men by Warehouse Commissioner Castle for failing to take out Dominion licenses for terminal elevators. These are not big elevator concerns but are purely local firms with limited storage accommodation. They point out that to take into terminal elevators and disqualify them under the act from doing other than a storage business for which their plants are not designed.

The affected firms on the other hand purchase, treat and clean wheat and do not charge fees for storage as they have only limited accommodation and the wheat they store is their own property. The penalty for not taking out terminal license is \$10 per diem and license necessarily restricts other business than storage and should decision go against them, like ports will be deprived of promising industry as adverse judgment will be death blow. Case adjourned for eight days.

**C.P.R. Dispute Settled.**  
Montreal, Nov. 28.—The dispute between the C.P.R. management and the trainmen and conductors, relative to the application of the new schedule which was recently put into force has been satisfactorily settled and the committee return home today. The particulars of the decision which have not been made public are understood to be in the nature of a compromise.

**Railway Has No Vested Rights.**  
Washington, Nov. 28.—Just because a railway happens to be the spot is no reason why it should not build and maintain bridges at street crossings and a city should come along later and set down on both sides of the road. Such is the effect, was the holding today of the Supreme Court, in a dispute between the Cincinnati and Western Railway and the City of Cincinnati, Indiana, over the construction of a street.

### DISCRIMINATED AGAINST HIM.

Discharged Employee of Winnipeg Street Railway Tells His Story.  
Winnipeg, Nov. 28.—The first public meeting of the board of arbitration in the differences between the street railway and the employees was held this morning. Motorman Dunn, one of those dismissed on the charge of being on license premises in uniform, was called. He denied being guilty of any misdemeanor on the specified dates, and stated he was aware of nothing which was an offence. He attributed the action of the company to his action as a union officer in forcing the issue on the death of Motorman McKay, who died as a result of an accident, and the part he played as a delegate to the Congress of Labor at Fort William.

### MANN AND SIFTON IN RAILWAY CONFERENCE

Vice-President of C.N.R. Announces Programme of Construction Work in Alberta During Season of 1911.—Premier Austing To Have Construction Work Rushed.

D. D. Mann, vice-president of the Canadian Northern Railway, and partner of Wm. McKenzie, in the McKenzie-Mann interests Tuesday had an hour's conference with Premier Sifton on railway construction work in Alberta. Mr. Mann, accompanied by General Manager M. H. McLeod, of the C.N.R., arrived in the city Monday on his return from British Columbia, where he had been making arrangements for the expedition of work on the Pacific end of the C.N.R. transcontinental. Tuesday morning he called on the Premier at his office in the Legislative buildings.

"The A. & G.W. is in politics, and we have always made it our business to keep out of politics," said Mr. Mann to the Bulletin Tuesday afternoon, when questioned concerning his interview with the Premier at Sifton's railway work for 1911.

"We talked of railway matters. There is no secret in that. The Premier is most anxious that we should make as great headway as possible next season in our work on lines guaranteed by the province. I was able to give him definite assurance that the line to Athabasca Landing would be completed next year, steel laid on at least 300 miles, and guaranteed by the province. The branch from Vegreville to Calgary will be finished next year, and we will have a guarantee of 75 miles south of Calgary. The branch line from Strathcona to Camrose will be built to connect with the Calgary branch, giving direct service from Edmonton to Calgary.

"On the transcontinental a great deal of work will be done exclusive of the 300 miles on branch lines. We hope to build 200 miles west on this road next year. Contracts will be let in the spring for grading probably as far as the Yellow Head Pass.

"Work on our line north of the Saskatchewan, which runs by way of Lac la Piche, Battleford and Prince Albert to the Peace River, will be rushed, and 75 or 100 miles will be built next year. This road will be the most direct one to the Hudson's Bay from Edmonton when it is completed. A shorter route could not be found.

"And what of the C.N.R.'s plans for building into the north country?" Mr. Mann was asked.

"Well, you know what charters we have. They tell of our intentions. We have made surveys from Edmonton to the Peace River, and have not done this work to no purpose."

Mr. Mann and General Manager McLeod will remain in the city this evening when they will proceed east to Winnipeg. They both expressed themselves as pleased with the progress and prospects of the work on the British Columbia portion of the C.N.R. transcontinental which runs north from Edmonton when it is completed. Head Pass by way of the Fraser Valley.

**SOUVENIR HUNTERS STEAL.**  
Two Swords and a Revolver Taken From the Rainbow.

Vancouver, Nov. 28.—Because two swords and one revolver were on Sunday stolen from H.M.S. Rainbow by souvenir hunters, the after-end of the ship may hereafter be closed to visitors. The liquor question and its application to men of the Rainbow will be a live subject. The city council made an early request against beer or whiskey at any civic functions. This rule is being observed at the opening reception, but at Friday evening's smoker, at which the Mayor presided, liquor flowed in plenty. On Sunday, Dr. Spencer, secretary of the Local Option League, took the officials to task for this alleged breach of the early arrangement. A wireless operator and one recruit, signed on the Rainbow at Victoria, have been dismissed because they flagrantly broke leave regulations.

**Blacklander Gets Twelve Years.**  
Toronto, Nov. 29.—James McCauley, who attempted to extort \$2,000 from John C. Kingston by aid of a band of men, was sentenced to twelve years in Kingston penitentiary by Magistrate Denison.

**Published Indecent Literature.**  
Winnipeg, Nov. 28.—Charles Coling, who came before Judge Walker on a charge of publishing indecent matter for circulating through the city, was fined \$100 and costs, and was fined \$10 on each count, with the option of two months in jail.

### LITTLE INTEREST IN THE ELECTIONS

London Shows Little of the Enthusiasm of a Year Ago.

London, Nov. 22.—One can travel all over London without seeing a sign in the metropolis of any general election effort. The Liberals are confident of success in London, but the central organization is passing round the word to beware of over-confidence. On the other hand the Unionists claim that the working class vote will be more in their favor than it was a long time past. Neither party seems yet to have got up steam, and the enthusiasm to be noticed a year ago prior to the elections is now lacking. A greater number of unopposed seats will mark the contest as compared with a year ago, for good judges say both sides are reluctant to throw away time and energy contesting hopeless seats. London is the lively hope of the conservative, and the conservative organizations are determined not to be caught napping on this occasion. March is expected from Mr. Balfour's Albert hall demonstration on Nov. 20. The Liberals are making an effort to draft some of their strongest candidates into the constituency now represented by Unionists.

### ANOTHER AMENDMENT FROM MONK.

Ottawa, Nov. 29.—Mr. Monk and followers this morning announced they will vote against Mr. Balfour's amendment to the amendment to the address on the ground that it is incomplete inasmuch as it refers exclusively to the permanent part of the government, whereas Monk desires an appeal to the people on the whole question including an imperial amendment in general and the Canadian contribution thereto.

### WINNIPEG MAY HAVE STREET CAR STRIKE

Labor Leader Says It is Doubtful if the Men Will Accept the Award of the Arbitrators in the Dispute Between the Men and the Company.

Winnipeg, Nov. 29.—"Indications point to a strike of street railway employees" said a well known labor official today. "The men are not at all satisfied with the present conciliation proceedings and even should the arbitration board reach an agreement it is very doubtful whether the men would accept it. They are incensed at what they consider the discrimination shown by the company against the union."

This opinion is confirmed by talking of the men, who appear to be working up to the strike point. Bitter feeling is shown on both sides in the proceedings now in progress before the conciliation board, and which appear only as aggravating the bad blood between the company and the men. These open proceedings were only reported to the public on the ground that they had been frequenting bars while in uniform which is against the company's regulations.

### SALVATION ARMY RELIEF WORK

The Army have commenced their winter relief work, and an effort will be put forth to assist every deserving case. The men who have been called to this fall and every arrangement is being made to assist all possible. English Habrick will open a free employment bureau about Dec. 1st and will be in the reading room from 10 a.m. and from 7 to 2 p.m., to give to the men what work there may be on hand. By phoning 1573, parties having any work to be done will be supplied with workmen.

An effort will be put forth at Christmas to supply all needy families or individuals with a free dinner. Many donations have already been sent by mail for relief work during the winter to the Army officers. Donations of clothing and reading matter will be called for. The Army of officers are at the service of the public to assist in all deserving cases.

The library in the free reading room is being enlarged this week to make room for 150 new books. This library is open to the public.

The increase in attendance at the Sunday evening service has made it necessary to secure a larger building. Arrangements can be made to enlarge the Citadel. The Orpheum Theatre has been loaned for next Sunday evening. The usual meeting in the theatre and afternoon way will be held in the Citadel and the band will march to the Orpheum theatre at 4 p.m., where a salvation meeting will be held. The band will play and music will be provided, and a cordial invitation is extended to all.

**Killed by Electricity.**  
Windsor, Nov. 29.—Joe Labiano, of Detroit, was instantly killed in the third rail of the electric equipment for electric trains through the tunnel. He got 4,500 volts shock. A companion was thrown thirty feet but will survive.

### RE-ORGANIZING FOR SESSION.

Conservative Have Named Nearly All Their Committees.

Ottawa, Nov. 28.—The re-organization of the Conservative party for the session was almost completed. One or two committees only remain to be remodelled. Today, J. E. Armstrong, East Lambton, was appointed chairman of the post office committee which will study the affairs of the National Transcontinental Railway.

### SCONIA BAPTISTS CALL

REV. A. M. MACDONALD  
The Former Pastor of the First Baptist Church in Edmonton Invited to Take Pulpit Vacated by Rev. J. C. Bowen.

The Strathcona Baptist church has extended a call to Rev. A. M. Macdonald, late pastor of the First Baptist church, Edmonton, and though no word has yet been received in reply it is believed that he will consider favorably a return to the Twin Cities of Alberta.

When Rev. Mr. Bowen resigned some weeks ago a call was extended to Rev. Mr. Litch, who is engaged in evangelistic work in the West but he declined to accept as he wished to continue the line of work in which he is at present engaged.

It was later ascertained that Rev. Macdonald who is at present pastor of Fort Rouge Baptist church, Winnipeg, was contemplating a return to Alberta and an invitation has just been forwarded to him. Should his services be secured Strathcona Baptist church will be able to boast of one of the foremost preachers of the West.

### LUMBERMAN KILLED BY FELLOW LABORER.

Murder Follows the Stealing of Some Clothing—Man Killed Innocent of Theft.

Blind River, Ont., Nov. 28.—Word reached here that Wm. Carroll murdered Jos. Tallon, of Three Rivers, Que. The man, employed in White brothers' lumber camp, 42 miles from here. Some clothing had been stolen and Carroll suspected Tallon, who was really not the man. While Tallon was removing his shoes Carroll smashed his skull with the butt of his axe. Carroll then struck at another man, but the foreman, Ritchie, grappled with him and prevented further trouble. Tallon died in a few hours. Carroll was tied up with ropes and arrived in town last night, where he was placed under arrest by Provincial Constable Taylor, and placed in jail here. The crime is expected to arrive here today. The prisoner is 66 years old, 5 feet 2 inches in height, and very powerful.

### Will Renovate Steamship Agreement.

Montreal, Nov. 28.—The agreement, which was arrived at about three years ago, between the several British contract steamship companies, expires in April. So satisfactorily has it worked that no question is being raised respecting its renewal in due course. Montreal steamship managers state they are quite satisfied with the condition of things under the agreement. No change is to be made in the minimum trans-Atlantic rate though at one time it was thought to be necessary to make certain modifications. The question is not likely to come up in concrete form, however, until the new types of liners are ready to be put on route.

### Fake Matrimonial Agent Sentenced.

Regina, Nov. 28.—Willis P. Sherman the fake matrimonial agency artist, of Trail, Sask., who was recently arrested in Winnipeg, pleaded guilty today before Magistrate Trant to using his Majesty's mails for the purpose of fraud and was sentenced to four months in jail.

### SAYS STATHCONA ACTION ILLEGAL

Disfranchisement of Edmonton Residents Owning Property in Strathcona Condemned.

The action taken by a section of Strathcona council Thursday night in endeavoring to disfranchise some 250 or 300 property owners in that city who reside in Edmonton on the voting over the amalgamation question is entirely unconstitutional. This was the opinion expressed to the Bulletin this morning by City Solicitor Bowen, who laughingly dismissed the proposal as one that would never be considered by any legislature.

A majority of the Strathcona council Thursday, despite the protest of a large delegation of citizens, decided to ask the legislature to put through its charter amendments a clause whereby Edmonton holders of property in Strathcona would be prevented from voting on the amalgamation question. This is to be submitted to the ratepayers at the municipal election.

Mayor Lee's opinion was similar to that of the city solicitor. "Such a provision is unreasonable," he said. "It is going back to the old grievance of taxation without representation."

"Such a course," continued the mayor, "would result in driving an awful nail into the old grievance of taxation without representation. It would not invest money if they thought they would be deprived of the opportunity to vote wherever a council was elected."

Members of the municipal bills committee of the legislature take the same view and it is altogether unlikely that this provision of the charter will pass the House.

Many Strathcona citizens are also up in arms as a result of the council's action. An entire ticket for mayor and aldermen has been put in nomination, their chief plank being the reversal of the recent action of the municipal board.

### THE CHIEF OF POLICE DENIES ALLEGATIONS

Says Law is as Well Enforced in Winnipeg as Elsewhere in the Dominion of Canada.

Winnipeg, Nov. 25.—Chief McRae, on the witness stand this morning, in the investigation into Dr. Shearer's charges, before Judge Robson gave an emphatic denial to the allegations of graft against himself made by the secretary of the Moral and Social Reform Council. Chief McRae said Dr. Shearer's statements were vile innuendoes and the misrepresentations of a prejudiced mind. He claimed that the law had been as well enforced in Winnipeg as anywhere else and said that the statement that Winnipeg conditions were rotten in Canada was ridiculous.

Mamie Morrison and Miss Anderson, colored, keepers of bawdy houses in the segregated area, followed Chief McRae on the stand. They said they had had no assurances of police protection and had each been in the police court several times and fined for running disorderly houses and selling liquor without license.

There will be no session tomorrow, as Justice Minister Hon. M. D. East will be on the stand on Monday.

### KEENE ROBERT.

Bulletin News Service.  
The fine weather here has been most favorable for the season, and has continued that otherwise must have been left over to the spring. Work has been continued on the railway until now. The season's work was unfortunately interrupted by the wheels of one of the steamers, who either fell or was crushed by the wheels of one of the engines which happened to be loaded. It is now progressing favorably.

Meetings of the board of trade and newspapers have taken place during the week and several questions of public importance have been dealt with. One important question, amongst others, being that of an accelerated mail service. At the present time we are rather handicapped, having only a weekly mail. An improvement in this direction would be a distinct boon to the public.

Literary society and club have been winter is now being made up. The Massey-Harris implement warehouse is completed and amongst the work to be started upon shortly will be the post office, printing office, and school. So far very few residences have been built, and the great number of town lots disposed of there should be a great rush of work here in the Spring.

**Enquiry Being Made in Public.**  
Winnipeg, Nov. 28.—Owing to dissatisfaction on the part of the men as to the trend of inquiry by the conciliation board which is trying to settle their dispute with the street railway company, the meetings opened today in public, evidence being heard. Practically a fresh start had to be made.

**Marikhan Sun Sold.**  
Belleville, Ont., Nov. 24.—J. O. Hartley, proprietor of the Daily Ontario, has sold the Marikhan Sun, of which he is owner, to O. S. Hicks, of this city.

### FIND COAL NEAR BROCK.

Discover Coal in Large Quantities Near Saskatchewan Town.

Saskatoon, Nov. 29.—Coal has been discovered in large quantities two miles south of the town of Brock, Sask. Two seven-foot seams have been struck, one at 130 feet and the other at 133 feet.

### BETTER REGULATIONS FOR ALTA. CREAMERIES

Agricultural Committee of the Legislature Discussed Proposed Amendments to the Act Respecting the Manufacture of Butter and Cheese.

An informal meeting of the Legislative Committee on Agriculture was held Tuesday to consider draft amendments to the Act respecting the manufacture of butter and cheese. Dairy Commissioner Madker was present to explain the proposed amendments and there was a full attendance of the committee.

The purpose of the amendments was to provide a uniform standard of butter and cheese as well as for cream testing, etc., for private creameries and co-operative ones alike.

Hon. Mr. Marshall in explaining the purpose of the new regulations to the committee said that in the past some government creameries were put out of business by private ones. There was no objection to this from the government standpoint as the government wished the enterprise in the end to be more troublesome even than us, and Crippen's patience became exhausted. He knew the properties of hyoscine from experience in his days of captivity, and determined to do away with his tormentor by giving her a large dose of this deadly poison. He prepared the tablets, and after dinner on January 21 he gave her a large dose of the ordinary one containing blamh. On the evening of February 1, he turned home he found his wife lying on the floor, her hair and eyes turned blue, and her body stiff and cold. He hurriedly called a doctor, and she died in a few minutes. This was the first case of this kind which he had ever seen. He had been told that it was a deadly poison, and he had been told that it was a deadly poison, and he had been told that it was a deadly poison.

Some days before he had purchased at a shop a peculiarly shaped knife of the kind used by doctors at post mortems. He dragged the body to the kitchen, and he could not get it out of the door. He had been told that it was a deadly poison, and he had been told that it was a deadly poison, and he had been told that it was a deadly poison.

The Evening Times, Paris, it is believed, was the first to report the case. The body was found in the kitchen, and the knife was found in the pocket of the body. The case was reported to the police, and the body was buried in a coffin. The case was reported to the police, and the body was buried in a coffin.

### THE "CONFESSION" OF DR. CRIPPEN

London Times Publishes What It Declares To Be An Authentic Statement.

London, Nov. 24.—The Evening Times says that Dr. Crippen before he died confessed his guilt to a friend, who, unable to hold the awful secret any longer, has given out the full facts. The Evening Times says that Crippen first referred to his wife's bad temper and her peculiar powers of aggravation, that she was always nagging him, and she was jealous to a degree hardly to be understood, and always doubted his word. In every way she gave full play to her suspicious nature, making his life a veritable hell on earth.

To the outer world she appeared a fine lady. Indeed, she got up late and walked about the house in her underclothes, her pajama jacket thrown over her shoulders. She always wore curlers to preserve the curls she was so proud of. Returning from his day's work he had her awaiting him until, who had confessed his guilt to a friend, who, unable to hold the awful secret any longer, has given out the full facts.

For some weeks before January 1, she had been waiting him until, who had confessed his guilt to a friend, who, unable to hold the awful secret any longer, has given out the full facts.

On the evening of February 1, he turned home he found his wife lying on the floor, her hair and eyes turned blue, and her body stiff and cold. He hurriedly called a doctor, and she died in a few minutes. This was the first case of this kind which he had ever seen.
