What a Contrast!

The Government press seems chary of giving any information either about the tug Gollath chartered by the Government to take the place of the Fiona, which has been found unsuitable and the S. S. Ballene sent off on her work. We have already pointed out the reckless disregard of our fishery interests in taking the S. S. Fiona off the service at a time no suitable steamer was on the ground to prevent bait being run to St. Pierre and foreign bankers. The action of the Government under Acting Premier Morison is in marked contrast to that of Premier Bond under circumstances much less grave than those of to-day.

In the summer of 1908, the Governor Sir William MacGregor requisitioned the S. S. Fiona for the period he would be away from the city during his visit to Labrador. The Premier, Sir Robert Bond, informed His Excellency that the Government could not spare the

Fiona from the bait and revenue protection service for that period, but that if His Excellency insisted on having a steamer placed at his disposal, the Government would endeavour to hire one for his trip. Sir Robert took the stand that the bait and revenue protection had the first call on the services of the S. S. Fiona.

The Fiona, however, was placed at the service of the Governor for a few days, taking him down to the Labrador. It will be observed that this was at a time long after the run of the caplin school, and therefore at a time not so important as when the caplin are running, nor under circumstances of such severe competition in the foreign fishery market as the abnormally large catch of cod in Norway forbodes for our catch this year.

The evidence that the Government restricted Governor MacGregor is to be found in the report of Governor MacGregor tabled in the House of Assembly in 1908. Here it is:—

"I left St. John's on July 23rd, 1908, in the Government steamer Fiona, with the intention of visiting officially the Coast of Labrador under the jurisdiction of this Colony."

"We remained at Rigollette till July 30th, because transport beyond that point could not be had sooner, as the Government vessel Fiona could not be put at my disposal any longer."

The last opportunity of hearing the Rev. C. Hackett prior to his departure for Canada, will be on Sunday morning at the Congregational Church.

Shipwrecked Crew Arrives.

The shipwrecked crew of the Norwegian ship Thattalla, which went ashore on an island near Pleasure Harbor, particulars of which already appeared in the Telegram, arrived by the S. S. Prospero last night. The Thattalla was in ballast and on her way to Point Leamington for a load of lumber. The seamen are unable to speak English, but our reporter ascertained that the ship after reaching Battle Harbor and taking on board a pilot to take her to her destination, got caught in drift ice and was obliged to lay under Long Harbor Island during which a heavy tide swept the vessel on the rocks. The crew managed to escape in the life boats. The Thattalla carried a crew of twenty-one men all told. The captain and mate stayed behind at Battle Harbor where they are selling the deck, masts and other gear, which were taken out of the ship, in the interests of the underwriters. When the Prospero was at Battle Harbor it was learned that the hull of the vessel was submerged. Vice-Consul Cook is now looking after the men and will have them sent home the first opportunity.

Narrow Escape.

The schr. Nellie M., Capt. Taylor, arrived to Monroe & Co. last night after a run of 21 days from Barbados, molasses laden. She had stormy stuffing weather all through the run up. The ship left here on the 26th Feb., and an hour afterwards met the ice (a heavy jam) off Cape Spear. She was forced into it by the wind and was taken up along the Southern Shore with the flow and went shorewards with it at Cape Ballard, and after her fourth day out she dragged in within a gun shot of the rocks; a big swell ran and the captain and crew concluding the vessel's doom was sealed got their clothes bags and effects on deck to leave her and walk ashore on the flow when the wind veered to W. N. W. and swept the ice off the coast carrying the vessel with it out over the Banks. She had a close call and had very stormy weather afterwards, going down in 37 days to Pernambuco.

ON A VISIT.—Hon. J. D. Ryan is a passenger by the Carthaginian leaving this afternoon on his annual visit to Ireland.

Boy Hurt.

As Master Leo Duffy, son of Mr. M. Duffy, grocer, was fielding mid-wicket in a cricket match in St. Bonaventur grounds yesterday, a drive was made by "alloger" and the ball took him squarely in the face at short range. He received a terrible blow, three of his teeth being knocked out and his upper and lower lips split open, while his face was badly bruised. He was treated by the brothers at the college but suffered intense pain and on going home a doctor was called in. He will be disfigured for some time.

McMurdo's Store News.

SATURDAY, June 22, 1912.

For constipation and slight liver and stomach troubles, Pilsen is achieving a solid reputation, which will doubtless increase as it becomes better known. As a laxative which can be depended upon to do its work promptly and thoroughly, and yet gently, none of the preparations of the kind can surpass it. And it comes very economical in use—eight doses for ten cents. If you are not "just right" procure a box of Pilsen. Price, 10c. a box.

Just received: Chase's Kidney-Liver Pills, and Linseed and Turpentine, Wampole's Cod Liver Oil Preparation, and Angier's Emulsion, fifty cents and dollar sizes.

ARRIVED AT BURGOE.—The schr. Pretty Mary arrived at Burgoe yesterday from Cadiz with a cargo of salt for Moulton & Co. The trip took 28 days during which it was very rough.

Sergts. Savage and Mackay to-day finished up the work of inspecting and having cleaned the back yards and gardens in the east and west end. The men did their work thoroughly and conscientiously and are now as far as the rear ways of houses go have a clean city.

CORPSE BROUGHT HOME.—The body of Mrs. Byrne of Cupids, was brought up from the north shore to her home to-day for interment. She was 84 years old and only a week or so ago went to visit her daughter in law where she became ill and died. She was the oldest resident of Cupids.

PATIENTS FOR HOSPITAL.—John Stapleton of Livingstone Street, suffering from acute rheumatism; Thomas Richards, coloured man from Barbados, suffering from internal complaint and Mrs. Blanche, suffering from cancer in the lip, were taken to Hospital by Mr. Eli Whiteway for treatment.

After more than a week's delay seeking a crew, the Clutha got her men yesterday and was ready to sail to-day for Brazil, when the seamen got their advance and now there is a further delay. Three of the men are ashore and can't be found and the police are in search of them. This is most annoying to the captain and owners, Messrs. Bishop Sons & Co.

Illicit Shooting.

It has been noticed of late that boys, whose ages range from 12 to 15, are going out fishing with 22 calibre rifles with them and kill indiscriminately ducks, geese, hens, etc., owned by suburban farmers; not alone that but it has been ascertained that they kill partridge and other young game birds, while on several occasions people have been scolded while in the country by bullets whistling about them from those rifles. The using of firearms in the country at this season is illegal and the authorities will, no doubt, get after such law breakers.

"Oh, Ain't It Peculiar?"

The City Council rules forbid the use of the hose for sprinkling purposes, after 9.30 a.m., still we notice several Water Street business firms washing down their sidewalks with buckets of water and broom during the past week and often in the afternoons.

What is the difference?
 Echo answers what.

If you can, find the newly appointed uniformed Water Street Inspector.

A man who a few nights ago was picked up in Sheehan's Shute with \$75 in his pocket, in a stupor from alcohol, was found in a similar condition on Neal's wharf last night. He had \$59 in his pocket then and ran the risk of going overboard and being drowned. He was taken to the police station. The money is part proceeds of a sale of his property.

Hudson Bay Co. Sales.

First of Them Was Held in London in the Year 1671.

London, May 21.—The sale last week at Hudson's Bay House, London, of "central city lots" in Edmonton, attracted a great deal of attention, and it is interesting to note that the first sale held by its company took place as long ago as 1671.

The placard announcing this sale is still retained in the company's records. It was posted in Garraway's famous coffee-house for the wits and beaux to read, and runs as follows:—

"On the fifth of December ensuing, there will be sold in the Greater Hall of this place 3,000-weight of Beaver Skins, comprised in 30 lots, belonging to the Honourable, the Governor and Company of Adventurers trading into Hudson's Bay."

Prince Rupert, the Duke of York, and the poet Dryden, were present at the sale.

Wife a Necessity.

She is an Anchor, Judge Says, Not a Luxury.

Chicago, June 1.—"I have always considered that a wife was a necessity and not a luxury," said Judge Goodnow of the Court of Domestic Relations to Dr. Thomas D. Lantry. "I think a good woman is a necessity to a good man, and as the years pass the necessity is increased. The wifeless men between thirty and fifty years are in more trouble, and cause more trouble to their friends than married men. Woman is an anchor, and the home is a refuge. The hotel club, restaurant and the saloon, which are the headquarters for the majority of wifeless men, are not elevating."

Dr. Lantry said his wife was jealous of his female patients. This she deplored. Mrs. Lantry left her husband, married cruelly. They were told to go home together and come to court again June 10 and tell how they got on.
