Molassine Dog Cakes and Mollets
(Same but smaller.)

MAY BE FED REGULARLY, NO OTHER FOOD BEING NECESSARY.

1. Keeps all dogs healthy.
2. Prevents and eradicates all internal parasites and worms.
3. Keeps the dog's skin and coat in fine condition.
4. Owing to the antiseptic properties, when used as an entire food, prevents dogs from smelling or being "strong."

Feed about 1 lb. per day, more or less according to size of the dog. If the dog will take them that way, it is better to give the biscuits dry, as it is good for the teeth and digestion for them to have the trouble of breaking them up and chewing them. In special cases where dogs do not like them dry, they may be soaked in gravy or water.
