CHEVROLET!

The most complete and equipped Motor Car ever offered regardless of price. This is some assertion to make, but everyone knows that I am the pioneer in the automobile business in this country, and I can honestly say I have never seen its equal.

It has two unit starting and lighting plant, three speeds, forward and reverse; gate changes, 30 x 3 1/2 tires front and rear, 3/4 floating rear axle, which means there is no strain on the axle shafts, the load is carried on the housing. Springs are of the latest shock absorbing cantilever type as used on high-priced English cars. Four cylinder motor valves in head and improved double jet zenith carburetor, which gives twenty-seven miles to the gallon of gasoline.

Plenty leg room in front, also in Tonsau; in fact the biggest small car ever offered to the motoring public. Replacement parts of these cars are exceptionally low. A full line already in stock.

Quick Deliveries.
Dr. Fraser's Chevrolet was delivered to him fourteen days after order was received.
